**ARTICLE 10 - HOURS OF WORK, WORK SCHEDULES, MEAL PERIOD, OVERTIME,
TIME BANK, SICK LEAVE, FIELD AND EMERGENCY WORK AND
RELIEF DUTIES**

10.01 HOURS OF WORK

- 10.01.01 The standard working week shall be forty (40) hours and the standard working day shall be eight (8) consecutive hours, inclusive of meal periods. Only time worked in excess of the standard day, except in the case of rotation of shifts, shall be credited as overtime, subject to the provisions of Article 12.

NOTE: For the purpose of overtime calculations, the working day shall be the twenty-four (24) hour period following the start of a regularly scheduled shift. Days off, Statutory and other authorized holidays shall be calculated on a similar basis using the starting time of the preceding regularly scheduled shift. It will be noted that the last day of a group of consecutive days off shall terminate at the start of the next regularly scheduled shift.

- 10.01.02 Where the standard working week and/or the standard working day are impractical due to the requirements of the service, work schedules and periods of rotation between shifts, mutually satisfactory to the Company and the Union, shall be established prior to posting. Where it is agreed that such work schedules are not the equivalent of a standard work week, time worked on scheduled work days in excess of that arrived at by multiplying the total number of calendar days in the work schedule by 40/7 shall be credited as overtime, subject to the provisions of Article 12. In addition, time worked on scheduled days off shall be credited as overtime.

NOTE 1: Compressed Work Week

See Memorandum No. 4 re Compressed Work Week

NOTE 2: 6/3 Type Work Schedule

See Memorandum No. 5 re 6/3 Type Work Schedule

10.01.03 WORK SCHEDULES

- 10.01.03.01 At all points, the working hours shall be posted and the beginning and quitting time for all shifts, whether permanent or temporary, shall not be changed without three (3) calendar days' notice and unless mutually satisfactory to the Company and the Union, except where the requirements of the service dictate otherwise.

- 10.01.03.01.01 It is recognized that there are basic requirements of work to be performed and certain limits in the time during which this work must be accomplished. With a recognition of these needs, the best possible work schedule can be achieved through a wide degree of discussion and mutual consideration of all the factors involved. Furthermore, it is not possible to establish a standard formula for work schedules which would be applicable to all branches, stations and bases.
- 10.01.03.01.02 In dealing with the question of work schedules, it is the responsibility of the Company to establish the manpower needs at various periods. It is then incumbent on both parties to jointly review all aspects of the situation to arrive at a work schedule to meet the required distribution of staff. It is most important that both parties recognize not only a continuing obligation to work out the most acceptable arrangement to cover the work requirements, but also the joint obligation to refer the matter to a higher level, where necessary, in order to assure that every effort is made to arrive at a mutually satisfactory solution. It is recognized that the maximum notice of any change in a work schedule is most desirable and every effort will be made to arrive at a schedule in time to permit the Union to process any appeal which they consider necessary.
- 10.01.03.01.03 In cases where there is a requirement of the service and insufficient time to settle the question, the employees will work the schedule pending finalization of the case. In all other cases, the employees will not be required to work the schedule until the issue has been mutually agreed to or processed to the Third Level of the Grievance Procedure and a decision rendered. In the event that the Union is not satisfied with the final decision concerning work schedules, such decision may be processed to the extent provided within the Agreement.
- 10.01.03.01.04 Work schedule changes will be posted at least three (3) days prior to implementation, unless the requirements of the service dictate otherwise. Although the changing of an employee from one established work schedule to another is not covered by this paragraph, it is agreed however, to continue the past practice of giving at least three (3) days notice, subject only to maintaining reasonable manpower distribution.
- 10.01.03.02 It is not possible to establish standard criteria covering the application of the "principle of seniority" (employees indicating their shift starting times) in conjunction with major changes in Flight Schedules. However, in the interest of efficiency and economy of operations and with a view to reducing associated unproductive costs without seriously affecting employees' working conditions and seniority privileges, it is agreed that local understandings with respect to the bidding process adhere to the following criteria:
- a) The employees be afforded an opportunity to indicate their shift preference by shift starting times up to twice a year.

- b) An employee's ability to fill subsequent vacancies resulting from necessary adjustments in work schedules and/or manpower levels be limited to vacancies where the anticipated duration is sixty (60) calendar days or more and that consequential transfers resulting from backfilling such vacancies be limited to two (2).
- c) Vacancies resulting from limiting consequential moves referenced in (b) above and/or vacancies of less than sixty (60) calendar days to be filled by reassignment of an employee(s) and/or new hiring(s).

With the exception of the foregoing, other administrative procedures may be established locally to meet any variance in conditions which may exist between locations (e.g., functional requirements, manpower distribution, size of station, etc.).

NOTE: This Article does not apply to the Technical Operations; Dorval Base Cafeteria and Purchasing & Supply Branches.

In the case of the Dorval Base Cafeteria, subject to maintaining adequate manpower and skill distribution on each shift and/or location, employees shall indicate their shift preference and will be assigned to a shift of their choice in accordance with their seniority.

10.01.04 **MEAL PERIOD**

- 10.01.04.01 The length of the meal period shall be one-half ($\frac{1}{2}$) hour and shall occur within one & one-half ($1\frac{1}{2}$) hours on either side of the midpoint of the shift, unless otherwise mutually arranged locally. It is recognized that occasionally, unusual circumstances may cause the lunch period to fall outside these limits.

NOTE: Notwithstanding the foregoing, employees in classifications in the Dorval Base Cafeteria shall take their meal period at a time convenient to the requirements of the service. When normal meal times fall during such employee's working hours, he shall be provided with a meal selected from the regular bill of fare in the Cafeteria for that day.

The lunch period may be extended to one (1) hour by the Company to provide eight and one-half ($8\frac{1}{2}$) hours coverage per shift, in which case the employee will be paid for the extra one-half ($\frac{1}{2}$) hour as scheduled overtime.

The Company may extend the lunch period by five (5) minutes to provide a five (5) minute overlap between shifts, in which case no time credit will be allowed for this extension and it will not be considered as time worked.

The lunch period may be extended to one (1) hour, where possible, if requested by the employees, in which case no time credit will be allowed for this extension and it will not be considered as time worked.

- 10.01.04.02 An overtime meal allowance will be credited where it is anticipated that an

employee will work for a continuous period, the duration of which exceeds a complete shift by more than two (2) hours.

NOTE: In the case of classifications within the Dorval Base Cafeteria, the employees will be provided with a meal and not an overtime meal allowance.

This provision will apply even though a scheduled shift does not form part of the continuous period (for example, on a day off) and will apply irrespective of the length of notice that such extra work is required.

It should be noted that, if an employee is required to report for duty on an emergency overtime call, an overtime meal allowance will not be credited unless the time limits established above are met.

A second overtime meal allowance will be credited only when an employee is requested to work overtime following a scheduled midnight shift and the overtime worked extends beyond the termination of the scheduled meal period of the day shift.

When the above criteria has been met, the employee will be allowed one-half ($\frac{1}{2}$) hour as a meal period, which will be credited as time worked.

The value of the overtime meal allowance credit will be Eight Dollars (\$8.00).

10.01.05 OFF DUTY PERIOD

10.01.05.01 Employees who have worked sixteen (16) consecutive hours (including time spent travelling and/or waiting, paid for under Article 10.04.03 of this Agreement) or more in any one day, will be entitled to eight (8) consecutive hours off duty prior to reporting for work without any loss in straight time earnings.

When an employee is absent for part of his regular shift without loss of straight time earnings and is required to work overtime beyond the regular hours of his scheduled shift, overtime rates will apply to all hours worked beyond the regular hours of the shift.

NOTE: If the sixteen (16) hours extend into the next day because of shift overlap, such extension will be considered as having been worked on the previous day. In the event it is necessary to reduce the "off duty" period in order to have an employee start his next regular shift, he shall be paid at double time to the extent of such reduction, commencing with the start of his regular shift.

10.01.06 WORK SCHEDULE CHANGE

10.01.06.01 When an employee is changed from one work schedule to another and is scheduled to work one or more of what would have been his days off (as provided for by his former work schedule), he will be given special compensation for such days as follows:

- a) First day worked - straight time, i.e., eight (8) hours straight time in addition to his regular day's pay.
- b) Second and subsequent consecutive days worked - time and one-half or,
- c) Granted the aforementioned, previously scheduled day(s) off.

d) Have previously scheduled days off advanced.

If overtime is involved on such days, time recording will be in accordance with that which applies on a scheduled work day.

10.01.06.02 a) In situations involving employee requested changes (e.g., employee requested transfer, bids between major shift schedule changes, or other) days off to days worked will be balanced at the time of the change. If balancing is not done, a) and b) in 10.01.06.01 above will apply. The application of the foregoing will be subject to existing or future mutually agreed to local applications with respect to major shift schedule changes in the Airports & Cargo Operations Branch.

b) Special compensation will only be applied at the time of the initial change in work schedule. Special compensation will apply at the end of the work assignment if days worked/days off are not balanced.

c) The scheduling of employees assigned to relief duties will be as follows:

- Normally the "relief" period will be for the duration of a flight schedule (i.e., April-October/November-March).

- When employees move from one agreed to relief schedule to another agreed to relief schedule within the identified period, this will not result in special compensation provided days on/days off are balanced.

- For the purpose of calculating days off only the appropriate balance of days worked to days off is considered, not the sequencing of the days off in the work schedule.

- The Committee of General Chairpersons and Labour Relations will review and mitigate any disputes over agreed to relief schedules at any location.

10.01.07 **SHORT SHIFT CHANGE**

10.01.07.01 Although situations which result from the rotation of shifts are excluded from overtime provisions, under circumstances where changing an employee from one established work schedule to another results in a short shift change:

- a) Such changes should be kept to a minimum and only be implemented where it is essential to maintain reasonable manpower distribution, subject to Article 10.01.03.01.04 [i.e., three (3) days notice].
- b) Under circumstances where an individual exceeds twelve (12) hours during the twenty-four (24) hour period, commencing with the start of the preceding regular shift, double time will be applicable to the remainder of the second shift.
- c) Should an individual subsequently exceed the previous number of scheduled shifts in his working week, b) above will be disregarded and the second shift will be considered as overtime and normal premium rates will apply.

10.02 **OVERTIME**

10.02.01 Subject to the following conditions, all overtime shall be credited on a time and one-half basis:

- a) An employee who is required to report for work on one of his regularly scheduled days off, shall be credited, on a double time basis, for those hours worked in excess of six (6) hours.
- b) An employee who is required to report for work on any two (2) or more days of a group of regularly scheduled consecutive days off, shall be credited, at double time, for all hours worked on the second and subsequent of such days.
- c) An employee who is required to report for work on a Statutory Holiday, will be credited, on a double time basis, for all hours worked in excess of the regularly scheduled hours for the shift.
- d) An employee who is required to work more than ten (10) hours in a working day, shall be credited, on a double time basis, for all hours worked in excess of ten (10).
- e) Overtime credits shall not be pyramided and the maximum overtime credit, under any circumstance, shall be double time.

- 10.02.02 Only at those stations where the work schedule requires the application of the 40/7 formula for time recording, the Company may release employees from duty, consistent with manpower requirements.
- 10.02.03 At the end of each pay period, employees with overtime credits will qualify for payment of such credits on a straight time basis.
- 10.02.04 At the end of each pay period, employees owing the Company time, will have such time deducted from their pay on a straight time basis.
- 10.02.05 When an employee in the Dorval Base Cafeteria has been relieved for the day and is recalled to work, he will be paid not less than four (4) hours at the applicable overtime rate.

NOTE: A period of duty will be subject to the minimum recall guarantee when an employee is required, after leaving work to again report for duty and commence work more than two (2) hours prior to the start of his next regularly scheduled shift.

- 10.02.06 In the case of a recall, a minimum overtime credit of six (6) hours shall be granted provided, however, in the event of an employee working over four (4) hours, a minimum overtime credit of twelve (12) hours shall be granted.

NOTE: A period of duty will be subject to the minimum recall guarantee where an employee is required, after leaving work, to again report for duty and commences work more than two (2) hours prior to the start of his next regularly scheduled shift.

- 10.02.07 No overtime shall be worked, except by the direction of the proper supervisory personnel of the Company, except when the work is necessary and prior authority cannot be obtained. All overtime will be governed on or by a system of rotation, as outlined in the following.

- 10.02.07.01 Rotational overtime lists will be established at all locations for each appropriate group or formation. The purpose of these lists is to predetermine the individuals involved in overtime selection and to assure a fair distribution of overtime. When addressing the fair distribution of overtime, consideration must be given to the unfair shifting of overtime from one classification to another through the use of upgrades for short-term assignments.

- 10.02.07.02 The lists and the method of rotation will be established locally.

- 10.02.07.03 Employees required to work overtime will be advised as far in advance as possible.

10.02.07.04 Where the overtime requirement is in conjunction with a shift, all qualified employees on the appropriate overtime list, who are at work, will be canvassed first, unless otherwise agreed to locally. In the event the requirement is not filled by this process and the work involved is of at least two (2) hours duration, the Supervisor will endeavour to secure volunteers from the appropriate overtime list who are not on shift. In the event the requirement is not filled by this process within sufficient time prior to the termination of the shift, the Supervisor may assign the low man on the appropriate overtime list who is on shift.

The Supervisor's determination of the time at which it is no longer reasonable to continue canvassing for volunteers will depend upon such factors as:

- a) Minimum qualifications required for the job involved.
- b) The number of employees required to work the overtime.
- c) Time required to contact and give reasonable notice to the employees being assigned.
- d) The time needed for employees to get to work.

10.02.07.05 Where the overtime requirement is not in conjunction with a shift, the Supervisor will first endeavour to canvass all qualified employees on the appropriate overtime list. In the event the requirement is not filled by this process, unless otherwise agreed to locally, the employees on the appropriate overtime list who are at work on the shift preceding the commencement of the overtime, will be required to work.

10.02.07.06 If assignment of an employee becomes necessary, the assignment order will be in the same sequence as in the case of normal canvassing. Should an employee be assigned to work against his wishes, he will work the overtime but may subsequently protest through the grievance procedure.

10.02.07.07 If an employee has been bypassed and when this bypass has been confirmed between the Company and the Union at the local level, the affected employee will be paid at the rate of time and one-half, for all hours he would have worked had the bypass not occurred, except when:

- a) The employee was not qualified for the job involved.
- b) Job continuity was involved.
- c) The employee had not properly indicated his willingness to perform the overtime in accordance with overtime rules.
- d) There was insufficient time to permit normal canvassing.

- e) The overtime requirements, or part thereof, fell within the hours of the employee's scheduled shift.
- f) The employee could not be contacted at the time of canvassing.

NOTE: This Article does not apply to employees in the Dorval Base Cafeteria.

10.02.07.08 In order to comply with the requirements of the current Canada Labour Code, Part III, local rules governing the method and rotation of overtime for employees covered by this Agreement, must be in accordance with the following:

- a) The total number of overtime hours worked will not exceed one hundred and four (104) hours in each quarter of the calendar year (i.e., 8 hours per week x 13 weeks = 104 hours), commencing January 1st, April 1st, July 1st and October 1st of each year.
- b) Overtime hours worked for this purpose does not include:
 - i) The hours an employee is scheduled to work on a Statutory Holiday
 - ii) The hours an employee takes training beyond his normal schedule.
- c) After working a total of one hundred and four (104) hours of overtime in any one quarter, the employee is ineligible to work overtime either "voluntarily or assigned", except as otherwise provided by the Code.

10.02.08 No employee shall be required to work overtime against his wishes, unless:

- a) No other qualified employee, whose name is on the appropriate rotational list, will work overtime on a voluntary basis and,
- b) In the opinion of the Supervisor, based on circumstances existing at the time of the decision, the work is urgently required and there is no other reasonable alternative.

The term "qualified employee" means an employee whose qualifications, in the opinion of the Supervisor, meet the minimum required for the job involved.

10.02.09 In the event an employee is required to work overtime against his wishes, the maximum number of hours he may be required to work shall be four (4) hours in conjunction with a regular shift and eight (8) hours on a regular day off or on a Statutory Holiday. These limitations do not apply to work assignments away from base. It may be necessary, in exceptional circumstances, to exceed the four (4) hour limit in cases involving job continuity or limited staff.

10.02.10 If an employee disagrees with the decision of the Supervisor with respect to required overtime, he will work the overtime but may, subsequently, protest through the grievance procedure.

10.02.11 **TIME BANK**

10.02.11.01 At the end of each pay period, all time credits will be paid at the hourly rate. However, at the request of the employee, credits and debits may be accumulated in a Time Bank.

10.02.11.02 Employees electing to participate in the Time Bank shall commence accumulating time credits on the second pay period following advice to the Company on the appropriate form.

10.02.11.03 The use of Time Bank hours shall be subject to Supervision's prior approval, consistent with the manpower requirement of the Company and employee recognition that it may not always be possible to allow time off.

10.02.11.04 The Time Bank shall be limited to plus twenty-four (+24) hours and minus twenty-four (-24) hours.

10.02.11.05 At the end of each pay period, all time credits, in excess of twenty-four (24) hours, will be paid at the hourly rate in accordance with Article 10.02.03.

10.02.11.06 In the event an employee's Time Record is standing at a minus figure of more than twenty-four (-24) hours, such time will be deducted in accordance with Article 10.02.04.

10.02.11.07 Employees electing to utilize the Time Bank shall advise the Company in writing on the appropriate form. Once having elected to participate in the Time Bank, the arrangement shall continue until such time the employee subsequently advises the Company, in writing, of his desire to opt out of the Time Bank. If an employee opts out, he may only elect to utilize the Time Bank again at the beginning of a subsequent year.

10.02.11.08 Employees participating in the Time Bank may elect to have the Time Bank cleared once in a calendar year, upon written request, otherwise a clearance will not take place.

When clearance has been requested, all time credits or debits will be provided on the pay cheque no later than the second pay period following the written request.

10.02.11.09 Employees participating in the Time Bank shall have all credits/debits cleared at their rate of pay of the pay period in which the clearance occurs.

10.03 SICK LEAVE

10.03.01 Sick Leave will be allowed in accordance with provisions in Company Regulations Manual.

10.04 FIELD AND EMERGENCY WORK

10.04.01 The method of selection of employees for these assignments will be arranged locally, in accordance with the following general principles.

10.04.01.01 The Company will determine the minimum number of employees by category, qualifications by aircraft type and as regards valid travel documents, with the maximum number being established through discussion with the Union at the local level as required. All of this will be advertised by Vacancy Notice.

10.04.01.02 Unless otherwise agreed to locally, a "Rotational List" will be established from all qualified applicants. In the event that insufficient bids are received, sufficient qualified employees will be assigned, as required, to fill the vacancies (minimum).

10.04.01.03 The selection of individuals for a specific assignment will be as follows:

- a) Where there are two (2) hours or more notice of forecast departure, the requirements will be filled from employees on the "Rotation List" in effect. Employees on overtime duty are not eligible for such assignments, except for those working on their regular days off who can be released from duty by the Company without any replacement being required on an overtime basis.
- b) Where there are less than two (2) hours notice of forecast departure, the selection or assignment will be limited to employees on the "Rotational List" who are on regular scheduled duty. If there are insufficient such personnel, other qualified employees on regular scheduled duty, will be canvassed and selected, or assigned, as necessary. At the Dorval Base, selection and assignment from the "Rotational Lists" will be made from all applicable hangar formations in the case of CL-65, A-319/320s, A-340s, DC-9s, B-747s and B-767s. Where personnel on these Dorval Base "Rotational Lists", who are on regular duty are insufficient, the additional requirements will be filled by selection or assignment of qualified personnel on regular duty within Aircraft Maintenance - Line. (In the case of categories not permanently assigned to that formation, from all qualified personnel on regular duty).
- c) If assignment of employees from the "Rotational List" becomes necessary, the assignment order will be in the same sequence as for normal rotation of the list.

10.04.01.04 If an employee is inadvertently bypassed for an assignment, he will be given first choice to the next similar assignment, regardless of his position on the "Rotational List", subject to 10.04.01.03 a) and b) above.

10.04.02 When employees are, by order of the Company, required to engage in field work away from their base station, they shall be compensated for such work on the same basis as they were compensated at their base station.

10.04.03 Time consumed in travelling will be compensated for on the same basis as normal time worked at the base and in cases where an employee both works and travels in any one (1) day [twenty-four (24) hours, beginning at the start of his regular shift], he shall be compensated for the total of such time, provided that under no circumstances will more than eight (8) hours be allowed for travelling in any one twenty-four (24) hour period.

Where the required travel time of a particular assignment outside the existing Company route structure or as a result of Company route expansion appears to be inadequate, the Company will review the circumstances with the Union.

Time spent waiting at an airport, when the employee is unable to travel as planned, will be considered as travelling time for the purposes of this provision.

10.05 RELIEF DUTIES

10.05.01 An employee who is assigned to assume the duties of an employee in a higher classification, shall be paid at the minimum rate, subject to the NOTE below, of the classification in which relieving, provided that the duration of such relief is for a period of at least one (1) full work day or more. All paid periods of relief in a higher classification, shall be accumulated toward the scheduled advancement in pay within the classification scale.

NOTE 1: In the event that such employee is holding laid-off status in the classification to which assigned, or has previously served in such classification in an acting capacity, he shall be paid at the current rate for the position in the scale which he previously attained. In the event that such employee has previously served the necessary time for a higher scale rate, but did not receive the rate by reason of such service terminating before payment became effective, he shall be considered as having attained the higher rate.

NOTE 2: Effective June 15, 1997, Lead Station Attendants and Station Attendants who become "fully qualified" as per Article 6.04.02 and complete above basic training in a classification(s), will be required to perform acting/relief assignments in the above basic classification(s) during the period of one (1) year following his becoming fully qualified, in situations where normal staffing processes do not provide the required coverage. Should the assignment of employees become necessary, the assignment will be in accordance with a process agreed to locally.

NOTE 3: Scheduled advancement in pay will be based on the following:

a) Twenty-six (26) weeks will be administered on the basis of time actually worked, and will be based on nine hundred and fifty-two (952) hours.

b) A calendar year will be administered on the basis of time actually worked, and will be based on one thousand, nine hundred and four (1,904) hours.

c) Two (2) calendar years will be administered on the basis of time actually worked, and will be based on three thousand, eight hundred and eight (3,808) hours.

10.05.02 When relief is required at regular intervals in a higher classification, on a pre-planned basis, to supply coverage in that classification not provided by the established work cycle, it shall be considered cycle relief. Cycle relief shall be paid for as of the end of each pay period, at the difference between the employee's regular hourly rate and the hourly rate of the classification in which relieving, times the total hours of such relief.

10.05.03 Acting/Relief Assignments - Customer Service Agent - Weight & Balance

10.05.03.01 First consideration will be given in order of seniority (basic classification) to interested Station Attendants and/or Lead Station Attendants holding a current Air Canada "Load Dispatch Certificate" endorsed for at least one type aircraft operating through the station.

10.05.03.02 Secondary consideration will be given in order of seniority (basic classification), to interested Customer Service Agents holding a current Air Canada "Load Dispatch Certificate" endorsed for at least one type aircraft scheduled to operate through the station.

10.05.03.03 The method of selection of employees for such assignments in these classifications will be established locally in accordance with the following general principles.

a) The Company will determine the number of employees needed to meet operational requirements.

b) Qualified Lead Station Attendants and Station Attendants will be advised of the acting/relief requirements (number of temporary vacancies), by Vacancy Notice or contacted in seniority order (basic classification).

- c) As a secondary consideration and with a view to reducing forced assignments, qualified Customer Service Agents will be eligible for selection to the extent of the unfilled vacancies. In the event a Vacancy Notice is utilized, the "secondary consideration" aspect will also be included, otherwise qualified employees will be canvassed in seniority order (basic classification).
- d) The acting/relief requirement will be identified, coincidental with the establishment of the manpower requirements (e.g., Winter Flight Schedule).
- e) A "Rotational List" will be established in accordance with b) and c) above and qualified employees will be assigned to the extent of unfilled vacancies.
- f) Employees selected and/or assigned, will be provided with Certificated Load Agent Training as required. This will include the necessary endorsements to meet operational requirements (i.e., a minimum of one (1) endorsement less than the total number of aircraft types scheduled to operate through the station), as well as A.L.P.A.C. Training.
- g) Employees successfully completing the training will have their names placed on a "Rotational List" in order of seniority (basic classification) and the duration of the assignment will be one (1) year.
- h) Acting/relief requirements will be filled from employees on the "Rotational List".
- i) If assignment of employees from the "Rotational List" becomes necessary, the assignment order will be in the same sequence as for normal rotation of the list.
- j) If an employee is inadvertently bypassed for an assignment, he will be given first choice to the next similar assignment, regardless of his position on the "Rotational List".

10.05.03.04 The acting/relief assignment(s) of a qualified employee on the "Rotational List", will not be terminated under circumstances where such an employee is provided with the necessary endorsements to meet operational requirements (as per Paragraph .03(f) above), unless a more senior, fully qualified employee, is prepared to fulfil the entire requirement.

Any location experiencing acting/relief assignment difficulties (i.e., insufficient volunteers to meet operational requirements), should review their situation with the appropriate General Chairperson, in order to avoid the assignment of any employee who "qualified" prior to April 3, 1978.

10.05.04 Acting/Relief Assignments - Lead Station Attendant

- 10.05.04.01 The Company will determine the number of employees needed to meet operational requirements coincidental with the establishment of the manpower requirements of each flight schedule.
- 10.05.04.02 Employees will be advised of the estimated acting/relief requirements (number of Acting Lead Station Attendants required), in advance of such schedule changes (local notice).
- 10.05.04.03 Consideration will be given in order of seniority to interested Station Attendants who have passed the qualifying examinations (Geography and Station Attendant Job Knowledge).
- 10.05.04.04 During the period of their acting assignment, every effort will be made to provide these employees with the Lead Station Attendant Training Course.
- 10.05.04.05 An individual with the basic qualifications who has turned down the opportunity to attend a Lead Station Attendant Training Course during the previous twelve (12) months, can be bypassed in the selection of individuals for relief assignments.
- 10.05.04.06 The acting/relief assignment of a fully qualified employee (Geography, Station Attendant Job Knowledge and Lead Station Attendant Training Course), filling such a requirement, will not be terminated unless a more senior "fully qualified" employee is prepared to fulfil the entire assignment (entire flight schedule).
- 10.05.04.07 An employee who has become "qualified" (Geography, Station Attendant Job Knowledge) will not be required to perform acting/ relief assignments as a Lead Station Attendant. An employee who has become "fully qualified" (Geography, Station Attendant Job Knowledge and Lead Station Attendant Course) will be required to perform acting/relief assignments as a Lead Station Attendant during the period of one year following his becoming "fully qualified", in situations where normal staffing processes do not provide the required coverage.

10.05.05 Acting/Relief Assignments - Customer Service Agent

- a) All Acting Customer Service Agent vacancies (relief assignments) will be filled on a local basis.

b) Lead Station Attendants and Station Attendants, need to have passed the basic and general knowledge examinations to be considered for Acting Customer Service Agent positions (relief assignments). If possible, individuals selected for such assignments must attend and pass the appropriate baggage and cargo training course(s) prior to performing the relief assignment. 10.06 UNASSIGNED

10.07.01 Subject to the following exceptions, attendance at all Company approved training classes, outside of scheduled working hours, shall be credited on a straight time basis.

- a) All training taken in conjunction with a regularly scheduled shift, will result in payment at time and one-half.
- b) All training taken on a Statutory Holiday will result in payment at time and one-half. (This is not applicable if the employee is on a work schedule which includes additional days off in lieu of Statutory Holidays).
- c) Instructing is considered as time worked, therefore, if overtime scheduling is essential, such time will be credited at normal premium rates.
- d) Special training of less than one (1) week, taken on regular day(s) off, will be credited at time and one-half and in any event will be subject to the following minimums.
 - i) A minimum credit of four (4) hours.
 - ii) Where the training exceeds four (4) hours, a minimum credit of eight (8) hours.

10.07.02 Where the employee takes training during the hours of his regularly scheduled shift, the training hours will be considered as time worked; therefore, if the employee is also required to work overtime on that same day, the normal premium rates will apply to such overtime work.

10.07.03 Where the employee takes training on his regular day off, the training hours will not be considered as time worked; therefore, if the employee is also required to work productively on that day, normal premium rates will apply only to such overtime work.

- 10.07.04 An employee's work schedule may be such that he can be assigned to a classroom training course of one (1) week, without a change in schedule. Under such circumstances, the individual will be compensated at straight time for training on regular day(s) off and travelling time credits as applicable.
- 10.07.05 Assignments to classroom training courses of more than one (1) week's duration involve a change in work schedule and with the exception of time spent training on regular day(s) off, which is compensated at straight time, employees will be compensated in accordance with Article 10.01.06 and travelling time credits as applicable.
- 10.07.06 Shift Premiums will not be paid for training time, except where training is taken during the hours of employee's regularly scheduled shift to which such premiums normally apply.

10.08 PAY CHEQUES

- 10.08.01 Underpayments in a pay cheque due to a Company administrative error, which is in excess of Fifty Dollars (\$50.00) "gross", will be reimbursed within four (4) working days of Winnipeg Payrolls receiving advice of such an underpayment.
- 10.08.02 Employee pay cheques will be deposited directly in an account designated by the employee at any recognized financial institution within the territorial limits of Canada. The pay statement will be sent via Canada Post to the address designated by the employee.

ARTICLE 11 - PROBATION

- 11.01 A new employee will not become a permanent employee until he has completed a probationary period of twenty-six (26) weeks.

NOTE 1: Where an employee is hired for term employment under Article 16.17 and released prior to the completion of twenty-six (26) weeks and where the Company elects to rehire the same employee into the same classification within twelve (12) calendar months from the date of the termination of the former assignment, then such probationary period will be cumulative.

NOTE 2: In the case of the Dorval Base Cafeteria, a new employee will not become a permanent employee until he has completed a probationary period of not less than eighteen (18) weeks. During this eighteen (18) week period, the employee must have actually worked a minimum of six hundred eighty (680) hours subject to the provision that time allowed as annual vacation and Statutory Holidays shall be considered as time worked.

- 11.02 The Company reserves the sole right to make decisions regarding the retention, transfer and rate of pay of a new employee, at any time during the probationary period, but agrees to notify the Union of the action being taken within fourteen (14) days following completion of the probationary period.
- 11.03 A permanent employee transferring from one category to another in a position covered by this Agreement (including transfers from one Branch to another), will not become permanent in the new category until such time as he has completed a probationary period of eighteen (18) weeks.
- 11.04 In the event that an employee, referenced in Article 11.03, does not complete the probationary period, he will return to his former category/classification and point, with all previously established seniority, as referenced in Article 16.12.02. The Company will advise the Union of such a situation within fourteen (14) days following completion of the probationary period.

ARTICLE 12 - STATUTORY HOLIDAYS

- 12.01 The following Statutory Holidays, or overtime credit, or equivalent time off by virtue of work schedules, which include additional days off in lieu of Statutory Holidays, will be granted to all employees covered by this Agreement.

New Year's Day
Good Friday
Victoria Day
St. John the Baptist Day
Canada Day
August Bank Holiday
Labour Day
Thanksgiving Day
Remembrance Day
Christmas Day
Boxing Day

NOTE 1: New employees must be in the employ of the Company for at least thirty (30) consecutive days, prior to a Statutory Holiday, to be eligible for such benefit.

NOTE 2: Employees who have been absent from work, excluding vacation, in excess of thirty (30) consecutive days immediately prior to a Statutory Holiday, will not be eligible for such benefit. Interruption of this benefit will cease upon return to active employment.

12.02 In the event that an employee's regular scheduled day off falls on one of the above-listed Statutory Holidays, he may be assigned, in lieu of such Statutory Holiday, an additional day off on the scheduled working day either immediately preceding or following the Statutory Holiday. Under circumstances where an employee is not assigned such a day off, he will be credited with twelve (12) hours at straight time.

12.03.01 In the event that a Statutory Holiday(s) falls during an employee's first fourteen (14) days of absence due to sickness or injury, he will be assigned, in lieu of the Statutory Holiday(s), an additional day(s) off on a scheduled working day(s), before December 31st of the same year. In the event that the day(s) cannot be assigned by December 31st, the employee will be credited eight (8) hours at straight time in lieu of the holiday(s).

12.03.02 If a Statutory Holiday(s) falls after the first fourteen (14) days when an employee is absent due to long-term sickness (GDIP) or injury (Workers' Compensation/C.S.S.T.), time credits or alternate time off will not be granted.

ARTICLE 13 - VACATIONS

13.01 Employees who have completed less than one (1) year of continuous service by December 31st of each year, will be granted vacation leave with pay in accordance with the following chart for each full month of continuous service up to December 31st.

<u>Full Calendar Months of Continuous Service</u>		<u>Calendar Days of Vacation With Pay</u>
1	1	
2	2	
3	4	
4	5	
5	6	
6	7	
7	8	
8	9	
9	11	
10		12
11		13

NOTE: A full calendar month of service for vacation purposes will be credited if an employee commences Company service on the first working day of the month, provided all days of the month, before commencement of employment, are Statutory Holidays and/or regular days off in the employee's work cycle.

Employees who have completed one (1) year or more of continuous service by December 31st of each year, will be granted two (2) weeks [fourteen (14) calendar days] vacation with pay.

Employees who have completed three (3) years or more of continuous service by December 31st of each year, will be granted three (3) weeks [twenty-one (21) calendar days] vacation with pay.

Employees who have completed ten (10) years or more of continuous service by December 31st of each year, will be granted four (4) weeks [twenty-eight (28) calendar days] vacation with pay.

Employees who have completed eighteen (18) years or more of continuous service by December 31st of each year, will be granted five (5) weeks [thirty-five (35) calendar days] vacation with pay.

Employees who have completed twenty-eight (28) years or more of continuous service by December 31st of each year, will be granted six (6) weeks [forty-two (42) calendar days] vacation with pay.

NOTE: An employee exercising bumping privileges, who is out of the employ of the Company for a period of not more than thirty (30) clear calendar days from date of lay-off, will not be considered as having a break in service for purposes of calculating vacation credits.

- 13.02 The periods of vacation outlined in Article 13.01 will be exclusive of Statutory Holidays which may occur during the vacation period.

In the event that a Statutory Holiday(s) falls within an employee's vacation period, the employee will have, unless otherwise agreed to locally, the option of:

- a) Taking the day(s) in conjunction with the specific vacation period in which the Statutory Holiday(s) falls;
- b) taking the day(s) at a mutually agreed to time within the calendar year after the Statutory Holiday(s) occurs.

In the event the compensatory day(s) cannot be granted by December 31st of the calendar year, the employee will be credited with eight (8) hours at straight time.

- 13.03 An employee either on personal leave of absence or on laid-off status for more than thirty (30) consecutive days, will have his vacation entitlement, in the following year, reduced according to the following formula.

The twelve (12) month calendar year will be reduced by one (1) month for each complete unit of thirty (30) consecutive days of personal leave of absence or lay-off. This number will then be multiplied by the employee's annual vacation entitlement (i.e., 14/12 for two (2) weeks; 21/12 for three (3) weeks; 28/12 for four (4) weeks; 35/12 for five (5) weeks and 42/12 for six (6) weeks) to arrive at the number of calendar days vacation to be granted.

- 13.04 Vacations will be taken at such times as the services of the employee can be spared.

NOTE: Every effort will be made towards granting vacations in the summer months to as large a number of employees as possible, within the limits imposed by the need to maintain efficient operation of the Company. It is recognized that it is not possible to establish standard formula for vacations, which would be applicable to a whole department since, while it would still be necessary to spread vacations evenly throughout the year under some conditions, such is not the case at all bases and stations and in the latter cases, the peak work loads do not occur necessarily at the same time of the year. The only logical and equitable manner to establish vacation schedules is to discuss the matter at each point on the basis of the local conditions at that point.

- 13.05 Employees with two (2) or three (3) weeks vacation credits, may elect to split their vacation (in weekly increments) into two (2) periods. Employees with four (4) and five (5) weeks vacation credits, may elect to split their vacation into three (3) periods. Employees with six (6) weeks vacation credits, may elect to split their vacation into four (4) periods. The method of selection for the first period of vacation, will be in accordance with Article 13.06. Selection of the second period will be determined after all employees have indicated their first choice. Selection of the third period will be determined after all employees have indicated their second choice. Selection of the fourth period will be determined after all employees have indicated their third choice.

NOTE: Employees may elect to split their vacation entitlement into weekly or shift cycle increments, provided that backfill, if required, comes from a work schedule that does not require a change in regular fixed days off of the relief employee.

The determination of the number of weekly splits will occur annually, prior to vacation schedules being established.

If required, selection of the fifth period will be determined after all employees have indicated their fourth choice and selection of the sixth period will be determined after all employees have indicated their fifth choice.

Vacation guide charts established for various shift schedules are based upon the principle, that by granting vacation in conjunction with Regular Days Off (R.D.O.'s) and permitting employees to split their vacation entitlement into weekly increments, the total number of working days cannot exceed the number of working days involved, had the employee taken the entire vacation entitlement at one time.

- 13.06 Management shall provide lists and the employees shall be required to indicate their preference for vacation periods, in sufficient time to permit posting of approved vacation lists by December 15th of the year preceding that in which the vacation will be taken. Such preference shall be granted on the basis of the last permanent Company starting date. After vacation periods have been established, they will not be altered without mutual agreement by the Union and the Company.

NOTE: In the Dorval Base Cafeteria, the periods available for vacation during a calendar year shall be posted at least two (2) months in advance of the first vacation period. Employees shall indicate their preference and shall be assigned vacations in order of Company service. Once established, vacation periods will not, unless due to the requirements of the service, be altered without mutual agreement by the Union and the Company.

- 13.07 Employees terminating employment with the Company for any reason, or laid-off (with the exception of those exercising bumping rights), will receive pay for accrued vacation. In the case of an employee whose continuous service qualifies him for two (2) or more weeks annual vacation entitlement, any part year vacation pay will be calculated by multiplying the number of full calendar months service in the part year by either 14/12, 21/12, 28/12, 35/12 or 42/12, for either 2, 3, 4, 5 or 6 weeks respectively, of annual entitlement, to arrive at the number of calendar days to be paid. The date of separation will not be extended beyond the date of actual termination of employment.

- 13.08 Under circumstances where an employee with an outstanding vacation entitlement is placed on GDIP during a calendar year and does not return to work during that year, the employee will be given the option of either:

- a) Deferring the outstanding vacation, which must be taken immediately following termination of GDIP and prior to returning to work, or,
- b) Being placed on "vacation" for the outstanding period prior to December 31st, in order to receive normal pay and extend the benefit period.

NOTE: For employees in the Dorval Base Cafeteria, under circumstances where an employee with an outstanding vacation entitlement is placed on GDIP or Workers' Compensation during a calendar year and does not return to work during that year, the outstanding vacation will be deferred and must be taken immediately following termination of GDIP or Workers' Compensation and prior to returning to work. Should the employee elect not to take this outstanding vacation, he will be credited with a straight time payment for the days involved.

If an employee is absent from work, due sickness or injury, for a clear calendar year, he shall not be entitled to vacation credits he would have normally taken in

that year.

Example:

Employee is injured November 1, 1989 with no outstanding vacation for the year 1989, employee returns to work February 15, 1991. Said employee will not be entitled to vacation credits for the year 1990, however he will be eligible for his normal vacation credit in 1991 based on Article 13.01.

13.09 The method of determining vacation entitlement under circumstances where an employee switches from a 5/2 to a 6/3 type work schedule or vice versa after approved vacation lists are posted (Article 13.06).

When an employee has not taken any vacation, the vacation entitlement will be assigned based on the number of working days provided for by the employee's work schedule (appropriate Vacation Guide Chart) in effect at the time the first vacation period commences.

When an employee has taken a portion of earned vacation on either a 5/2 or 6/3 type work schedule, the vacation entitlement will be determined as follows:

- a) Four (4) weeks vacation entitlement and employee works a standard 5/2 work schedule, the total working days vacation entitlement is twenty (20). Employee takes one (1) week of vacation and changes to a 6/3 type work schedule which results in twenty (20) working days minus five (5) working days for a total of fifteen (15) working days vacation remaining.
- b) Four (4) weeks vacation entitlement and employee works a 6/3 type work schedule, the total working days vacation entitlement is nineteen (19). Employee takes one (1) week of vacation and changes to a 5/2 work schedule which results in nineteen (19) working days minus six (6) working days for a total of thirteen (13) working days vacation remaining.

NOTE: Non-accrual seniority adjustments will be made annually in accordance with the provisions of Article 16.18.

16.06.03.01 In the event an individual, promoted to a management position above and beyond the scope of the Agreement, reverts to a classification covered by the Agreement in which he holds seniority, his seniority date(s) will be adjusted as follows.

- a) The date of promotion, plus twenty-six (26) weeks, or August 3, 1971, whichever is later, will establish the date to which seniority is accrued.

In cases where an employee's previous Company service was in a position not covered by the Agreement, the total length of previous service will be used.

NOTE 2: The procedure used in calculating both previous and continuous Company service in classifications covered by the Collective Agreement, in determining the sequence of employees with equal seniority, is the following:

- a) FULL-TIME SERVICE is calculated by adding the total number of days in a period of service where one day equals one day of service.
- b) PART-TIME SERVICE is calculated by adding the total number of days in a period of service and dividing the sum by two (2), for service accrued up to and including February 22, 1989. EFFECTIVE FEBRUARY 23, 1989, PART-TIME SERVICE will be calculated as in the process described in "a" above for FULL-TIME SERVICE.

The opportunity to transfer [one hundred percent (100%) of the transfer expenses to be assumed by the Company] will be offered to surplus employees in order of seniority on an optional basis. In the event the position is not filled by this process, the Company transfer obligation is terminated and the employees involved will be placed on laid-off status without bumping privileges.

- 16.15.01 Bumping shall be a recognized seniority privilege of personnel on laid-off status and except as provided in Articles 16.11.06 and 16.12.02, may be exercised only by such personnel. This privilege is restricted in application to the bumping of an equal number of employees on the bottom of the Seniority Division Classification Seniority List and also, providing that the forfeiture of the bumping privilege by one or more of the laid-off employees automatically reduces the number of employees who may be bumped.

- 16.15.02 The actioning of the bumping process, under circumstances where employees eligible to bump have not indicated an order of preference for all of the locations where there are junior employees eligible to be bumped, will be as follows:

- a) The names of all employees desiring to bump will be listed in order of seniority, together with their indicated preferences.
- b) The names/locations (points) of the most junior employees (all those employees on the bottom of the Seniority Division Classification Seniority List) eligible to be bumped, will be listed in inverse order of seniority.

NOTE: This may be equivalent to, less than, but never greater than, the number of surplus employees in a) above.

- c) Eliminate the names of surplus employees desiring to bump where the only point(s) designated are no longer available due to the decision of other surplus employees who decided not to exercise their bumping privilege and elected laid-off status.
- d) Eliminate an equivalent number of names/locations (points) of the most senior employees who were eligible to be bumped (e.g., equivalent to the number of surplus employees in c) above).
- e) Endeavour to accommodate the surplus employees eligible to bump in seniority order in accordance with their indicated preference on a tentative basis, until such time as the bumping privileges of all surplus employees can be definitely established.
- f) In accommodating surplus employees in the bumping process, it must be ensured that no junior employee retains employment while a more senior employee is displaced (bumped).

- g) In the event all the surplus employees eligible to bump cannot be accommodated in accordance with their indicated preferences, eliminate the name(s) of surplus employees desiring to bump (place them on laid-off status) where the only points designated cannot be obtained due to the indicated preference of a more senior surplus employee or the process does not result in the displacement of the most junior employee(s).
- h) Eliminate an equivalent number of names/locations (points) of the most senior employees who were eligible to be bumped (e.g., equivalent to the number of surplus employees in g) above).

NOTE: This process will only be utilized in circumstances where the list of surplus employees desiring to bump is equal to the list of those employees eligible to be bumped.

- i) Continue to repeat the process outlined in e), f), g) and h) above, until the bumping privileges of all the surplus employees can be definitely established.

16.15.03 Bumping shall be restricted in application by:

- a) Work category.
- b) Classification of employee and the number of years of service in the category (reference Article 16.10).

16.15.04 Employees who are laid-off may, consistent with the scope of their seniority as outlined in Article 16.10, exercise such seniority and elect to:

- b) Bump down to a lower classification at the point of lay-off, or,
- c) Bump down to a lower classification at another point in their Seniority Division, or on the System (consistent with the provisions of Article 16.15.01 above), providing that the employee concerned is unable to bump under the terms of 16.15.04a) and further, provided that either he is unable or he does not elect to bump down more than one classification where such circumstances apply under the terms of 16.15.04b).

NOTE: An employee holding seniority in another category (reference Article 16.12.02), who is unable to retain employment by bumping in the current category, may exercise seniority in the former category in accordance with these provisions.

- 16.15.05 The employee must notify the Company of intent to bump not later than seven (7) clear calendar days prior to the termination of the period of notice, inclusive of the effective date of such notice. A form will be provided for this purpose and must be completed in accordance with instructions thereon. In the event of failure to so notify the Company, the employee will be considered to have elected laid-off status with recall privileges to the point only.
- 16.15.06 Finalization of the bumping process shall be consistent with an allowance to the bumped employee of fourteen (14) clear calendar days' notice from the date of such lay-off notice.
- 16.15.07 Laid-off employees may be allowed a period, not to exceed thirty (30) clear calendar days from date of lay-off notice, within which to report for duty at point of bumping.
- 16.15.08 Employees being laid-off must work for the full period of their notice, unless extenuating circumstances warrant other handling, mutually agreeable to the Company and Union.
- 16.15.09 In the event an employee exercising bumping privileges subsequently resigns prior to reporting, the employee who was to be displaced shall be laid-off.
- 16.15.10 Employees not on the active payroll, whose seniority is such that they would be involved in a staff reduction, will be laid-off. In the event such an employee elects to bump, the reporting date will be delayed until such time as the employee is returned to the active payroll. The employee being displaced will also be laid-off.
- 16.15.11 Failure of employees exercising bumping privileges to advise the Company of any possible delay in reporting for work at the point of bumping and on the specified date, will constitute a serious offence and will be dealt with as individual cases by the Company and District Lodge 140.
- 16.15.12 Employees who have signified intent to exercise bumping privileges and who subsequently reverse their decisions, will be considered as having deserted the service of the Company, with subsequent loss of all rights and privileges, subject to consideration by the Company and District Lodge 140 of exceptional circumstances.

16.16 **RECALL**

- 16.16.01 At the time of lay-off, an employee holding laid-off status, as referenced in Article 16.14, may, in addition to the point of lay-off, specify up to three (3) additional points to which he wishes to be recalled. A form will be provided for this purpose and must be completed in accordance with instructions thereon.

16.16.02 Recalls to point of lay-off and additional specified points will be in order of seniority as follows:

- e) An employee accepting a recall will not, except under very extenuating circumstances, be permitted to reverse his decision.
- f) Except for employees covered by 16.16.09, failure to comply with regulations c), d) and e) above, will result in the individual's name being removed from the seniority list and he will therefore be considered as having deserted the service of the Company, with consequent loss of all rights and privileges.
- g) Recalled employees must report for duty within fourteen (14) days from date of recall notice. This period may be lengthened under extenuating circumstances.

16.16.03 The notices or other alternative written advice of open position, shall contain the following information:

- a) Whether the position is permanent or term employment.
- b) Location of position.
- c) Effect on seniority.

16.16.04 Under circumstances where a term position becomes available in a basic classification, the procedure for filling the position will be as follows:

- a) In the event the anticipated duration of the position is more than sixty (60) calendar days, it will be offered in seniority order to all laid-off employees in the classification eligible for recall to the point.
- b) In the event the anticipated duration of the position is less than sixty (60) calendar days, it will be offered to laid-off employees at the point.
- c) Any remaining vacancies in a) or b) above to be filled by local hiring, including consideration of term employment to qualified employees in other categories.

It is important to note that it may be necessary to utilize term employment pending finalization of the process referenced in a) above.

An employee accepting term employment will not be considered eligible for term employment at another location (regardless of the duration) until the employee involved is reverted to laid-off status.

Time involved in term employment within the category from which laid-off, will only count in the establishment of scope of seniority privileges (i.e., Point, Division and System seniority) when the employee is recalled to a permanent position.

Employees working at another location due to the exercising of their bumping privileges and holding recall to the point, are ineligible for consideration for term employment.

16.16.05 Where a permanent vacancy exists in a basic classification, employees on laid-off status are given first consideration over a requested demotion to the same classification.

16.16.06 Employees offered recall in accordance with their seniority and not able to return to the active payroll, account medical reasons, will have their reporting date delayed until declared medically fit, subject to the approval of the Company Medical Officer.

In situations where there is a disagreement between the employee and the Company Medical Officer regarding a reporting date, or the employee's medical ability to return to work, the employee may submit a grievance in accordance with Article 17.03 following the receipt of written advice from the Company which will be sent by FAX or Canada Post (Xpresspost or Registered Mail). Failure to submit a grievance will indicate the employee's acceptance of the Company Medical Officer's decision with respect to his return to work.

- 16.16.07 Laid-off employees who did not accept term employment, may, provided that the work was offered in the category of such employees and provided that the duration is extended, be allowed to reconsider their decision consistent with their seniority, provided, however, that the duration must first be extended an additional ninety (90) days.
- 16.16.08 Should the prospective period of employment be of indefinite duration, it shall be discussed and mutually agreed between the Company and the Union as to whether the employment shall be classed as term or permanent.
- 16.16.09 a) An employee who is working at another point due to exercising bumping privileges, shall be considered as being laid-off and will be subject to lateral recall to the point of most recent lay-off, consistent with his seniority, providing that the vacancy is in the category from which laid-off and in the classification in which he bumped and further, provided that he is currently employed in such classification. If the employee does not, within seventy-two (72) hours, accept first recall, he will be considered as transferred and will not be given further recalls on this basis.

NOTE: In the event such an employee does not, within seventy-two (72) hours, accept the first recall to a higher classification in the same category at the point of most recent lay-off in the current classification, he will forfeit the above lateral recall privileges.

- b) Laid-off employees who have accepted employment in other categories or branches shall be considered as being laid-off and will be subject to recall to the category from which laid-off, consistent with their seniority. If the employee does not, within seventy-two (72) hours, accept the first recall to point of lay-off to a permanent position, he will be considered as having voluntarily transferred to present assignment as of the effective date of lay-off, subject to the provisions of Article 16.12.02 and 16.12.03. If the employee accepts recall, he will lose all rights and privileges in the category from which recalled.
- c) An employee who, after lay-off in his present category, has exercised bumping privileges in a former category to retain employment in the Company, shall be considered as being laid-off in the present category and will be subject to recall to that category, consistent with his seniority. If the employee does not, within seventy-two (72) hours, accept the first such recall to the point of lay-off, he will lose all rights and privileges in the category from which laid-off. During the period of lay-off, seniority will not accumulate in the category in which such an employee has exercised bumping privileges; however, previous established seniority in the former category will be retained upon accepting recall.

d) An employee who has exercised bumping privileges in a lower classification, shall be considered as being laid-off in the higher classification, consistent with his seniority. If the employee does not, within seventy-two (72) hours, accept the first such recall at the point where currently employed, he will,

i) Forfeit seniority in the higher classification;

ii) Be ineligible for promotion to any higher classification for a period of three (3) years from the date of the recall notice;

iii) Be ineligible for an employee requested transfer from one point to another for a period of one (1) year from the date of the recall notice.

16.16.10 Personnel, on laid-off status, shall not be recalled under circumstances where transfer of surplus personnel holding divisional seniority and who are presently employed within the Seniority Division, will meet the manpower requirements at another point unless any of the employees on laid-off status, desiring a recall, are senior to the surplus personnel who would be involved in the transfer.

16.16.11 Employees in basic classifications who are laid-off as a result of a reduction in staff, shall be recalled on the basis of greatest category seniority of the employees desiring recall to the point.

16.16.12 Employees in above basic classifications, who are laid-off as a result of a reduction in staff, shall be recalled on the basis of greatest classification seniority of the employees desiring recall to the point.

16.16.13 In situations of administrative error which result in an employee not being recalled from laid-off status in order of seniority, such errors will be corrected, once confirmed by the Company, within seventy-two (72) hours of discovery by the Company or of receipt of written notification of the error from either the Union or the affected employee(s). The affected employee(s) will be compensated for a maximum of sixty (60) calendar days of pay given the situation identified above. There will be no further compensation for time not worked beyond this sixty (60) day time period.

16.17 TERM EMPLOYMENT

16.17.01 Term employment may be utilized by the Company for such purposes as summer flight schedules (e.g., vacation relief), acting management assignments, leaves of absence (e.g., accident, illness), special work programs for specified period and phase-in phase-out (e.g., aircraft type or base).

- 16.17.02 Term employment will be limited to twenty-six (26) weeks. In the event such employees are retained beyond this period, they will be designated as "permanent", provided they have successfully completed the probationary period.

NOTE: In situations where a staff requirement exists that is temporary in nature, i.e., where the assignment is of a known duration (start and stop dates), or a backfill against a temporary exit (GDIP, WCB and so forth), that vacancy will normally be filled by a term hire under the provisions of this Article even though the assignment may exceed twenty-six (26) weeks.

In situations where a staff requirement exists that is permanent in nature, i.e., where the assignment is the result of an ongoing operation need where no end date or period is known, then that vacancy will be filled by the declaration of a permanent vacancy and this vacancy will be filled under other provisions of the Agreement.

16.18 SENIORITY LISTS

- 16.18.01 a) Each year, the Company shall have prepared and furnished to the Union a complete seniority list of all classifications and categories within the scope of this Agreement. Copies of an appropriate seniority list of all applicable classifications and categories will also be provided to all Company stations and bases. These lists to be furnished as of March 31st of the subsequent year.
- b) This list shall be kept open for correction for a period of thirty (30) calendar days from March 31st.
- c) All corrections shall be finalized during the thirty (30) calendar days following the termination of the posting period and shall be published as an amendment to the seniority list. This amended seniority list shall become effective on the day following termination of the sixty (60) day period covered above.
- d) This amended seniority list shall be the approved list and shall remain in full force and effect until a new list has been published and approved in the above manner. Subject to the provisions of Paragraphs g), h) and i) following, no corrections shall be made to this approved list during the period in which it remains in force.
- e) It shall be the responsibility of each individual employee to examine the applicable portion of the list and make written request, three (3) copies, for any correction during the thirty (30) day posting period. An employee may file a request for correction only once, except upon his presentation of new and pertinent evidence.

- f) One copy of this request for correction must be forwarded to the Director, Labour Relations - Technical Services through the employee's Supervisor. One copy will be forwarded to the appropriate General Chairperson by the employee concerned. The third copy will be forwarded to the Chairperson of the Local Shop Committee.
- g) In the event that it is not possible to settle a complaint in the stipulated period, the necessary correction will be made and will be effective as of the date the final correction is published.
- h) Notwithstanding the foregoing regulations, the appropriate General Chairperson may request corrections to the seniority list at times other than the stipulated period. Such corrections, if mutually agreed upon, will be incorporated in the new list of the subsequent year. However, if prior to the time the new list is effective, circumstances arise such that an employee's right to:
 - Continue in or regain employment in his Branch,
 - a subsequent promotion, or,
 - a subsequent transferis jeopardized, such correction will be published immediately and will be effective as of the date of publication.
- i) Employees exercising seniority, retained under 16.11.06 and 16.12.02, will have their seniority dates adjusted and position on the seniority list altered to account for time during which seniority was not accumulated.
- j) Any action taken on the basis of a published Seniority List stands as final, regardless of any corrections to the list which may subsequently be made.
- k) The Station Attendant seniority list, for employees covered under Letter of Understanding #2, by point, will be maintained by the Company at the Headquarters level and will be published with the Seniority List distribution provided for in Article 16.18.01 a).

16.18.02 Each year the Company shall have prepared and furnished to the Union a complete list of all employees holding, but not accumulating, seniority. These lists will be furnished as of March 31st of the subsequent year by category and classification. In the event of any of these employees exercising seniority, as referenced in Articles 16.12.02 and 16.12.03, the active seniority list will be changed in accordance with Article 16.17.01 of this Agreement.

16.19 REHABILITATION

- 16.19.01 Employees who have given long and faithful service in the employ of the Company and who have become unable to handle heavy work to advantage, will be given preference of such light work in their line as they are able to handle; the employees will take the rate of pay of jobs to which assigned.
- 16.19.02 The Company will facilitate the rehabilitation of employees returning from long-term GDIP or Workers' Compensation under the Employee Rehabilitation Program.

Subject to mutual agreement between the Company and the Union, these employees may be given, in certain cases, shift and/or work location preference in order to facilitate their rehabilitation, which, in some cases, may require the employee to work less than the standard working week and/or standard working day. Where employees are unable to return to work in their former category/classification, they may be accommodated in a position where the job requirements are consistent with their medical/physical condition, provided they have demonstrated that they possess the aptitude to perform the job. Under such circumstances, the Company will participate in providing training assistance and following successful completion of training, salary and benefit levels will be based upon the position accepted by such employees.

16.20 GENERAL

- 16.20.01 In the event of a geographical relocation of work from one Seniority Division to another, the employees affected holding divisional seniority (including Learners and Junior Mechanics with at least two (2) years service in category), shall be considered as holding seniority in the division to which the work is transferred and staff adjustments will be made accordingly.
- 16.20.02 Expenses of personnel transferred as a result of staff adjustments covered in 16.20.01 above, shall be borne by the Company in accordance with Article 15.
- 16.20.03 The Company may assign personnel from other categories to cover peak periods of a temporary nature rather than re-hire laid-off employees to cover such peak periods.

ARTICLE 17 - DISCIPLINE AND GRIEVANCE PROCEDURE

17.01 DISCIPLINE AND DISCHARGE

17.01.01 Under circumstances where, as a result of an alleged misdemeanor, it is considered undesirable that an employee should be allowed on the Company premises and where there is doubt as to the appropriate charge and/or penalty, the employee may be held out of service pending investigation for a period not to exceed three (3) clear calendar days, exclusive of Saturdays, Sundays and Statutory Holidays. This investigation period will not incur loss of pay unless the misdemeanor results in suspension pending discharge.

17.01.02 Where disciplinary action short of discharge is considered necessary, the employee will be advised in writing. Such letters will be progressive in nature and will represent various levels of severity depending upon the offense and/or the employee's previous disciplinary record. The practice of the issuance of a verbal reprimand under certain circumstances will not be affected by this procedure. Depending on the nature of any incident, disciplinary action may be initiated at any one of five (5) steps as follows:

Step I

Six (6) month letter of reprimand.

Other similar incident(s)/infraction(s) while the letter is active, extends period of retention on file to one (1) year or initiates progression to Step II.

Step II

A disciplinary letter or letter of temporary demotion with a duration of retention on the employee's personal file for a period of twelve (12) to twenty-four (24) months, depending upon the nature of the incident and/or the employee's previous disciplinary record.

Other similar incident(s)/infraction(s) while the letter is active, extends period of retention by six (6) months or initiates progression to Step III.

Step III

A disciplinary letter with a duration of retention on the employee's personal file for a period of thirty (30) months, and also the ability to issue a one (1), two (2) or three (3) day suspension without pay.

Other similar incident(s)/infraction(s) while this letter is active, extends period of retention by six (6) months or initiates progression to Step IV.

Step IV

A disciplinary letter with a duration of retention on the employee's personal file for a period of thirty-six (36) months, and also the ability to issue a ten (10) day suspension. The purpose of this letter is to afford the employee a final opportunity to retain employment.

17.01.03 Step V

Where the decision of the Company is to discharge for just cause, the employee shall first be notified in writing with a Step V Letter of Discipline stating that he is "suspended pending discharge". The Step V Letter shall include the specific charge or charges precipitating the action.

NOTE: As per Article 17.01.05.01, in exceptional circumstances, a twenty (20) day suspension may be substituted for discharge.

17.01.04 Letters of discipline shall be presented to the employee within a reasonable period of time of the Company's knowledge of the incident leading to discipline, and shall contain an explanation of the infraction, and the future corrective action to be expected. It is recognized that corrective disciplinary action is most effective when taken in a timely manner and that disciplinary letters, up to and including Step IV, will be presented to the employee in person. The employee may have a Shop Steward present as an observer, if so requested.

17.01.05 In cases involving suspension without pay, local management will review the matter with the local Union in an effort to assure that all information and opinions are available. After a final review of the whole case, local management will render its decision.

In cases involving suspension pending discharge, local Management will advise the local Union prior to issuing the letter of suspension pending discharge to the employee.

NOTE: If requested by the Union, reasonable time will be allowed to investigate the case.

17.01.05.01 The ten (10) day suspension can only be exceeded, with Branch Head approval, in exceptional circumstances where suspension pending discharge would normally occur and only to a twenty (20) working day suspension within a thirty (30) calendar day period.

17.01.05.02 Disciplinary suspensions will normally be served in conjunction with regular days off (either before or after regular days off).

17.01.05.03 In cases where a decision to discharge is reduced but where time off the payroll is involved, the limits in 17.01.05.01 will not apply.

17.01.06 Letters relative to corrective disciplinary action and illegal work stoppages which have been placed on an employee's personal file will not be referenced and will be removed from the employee's personal file, where practicable, if the employee's record has been free of any previous corrective measures for three (3) consecutive years.

17.01.07 When an employee has been notified of disciplinary action, he may lodge appeals in accordance with the appropriate charts re Grievance and Discipline Appeal Levels. Each such appeal must be lodged in writing via Canada Post within five (5) clear calendar days from the date of receipt of the decision, exclusive of Saturdays, Sundays and Statutory Holidays. Hearings shall be commenced within thirty (30) clear calendar days of written request and decision rendered within fifteen (15) clear calendar days, exclusive of Saturdays, Sundays and Statutory Holidays, of the close of the appeal hearing. All decisions shall be confirmed in writing to the parties concerned and will contain a summary of the issue giving rise to the appeal.

NOTE 1: Notwithstanding the provisions of this Article, it is agreed that the respective parties will make every effort to conduct hearings within the identified time period. Where these time limits cannot be met by either party, the other party will be notified in advance.

NOTE 2: The Company undertakes to ensure that the time limits for the rendering of decisions, referenced above, will be adhered to unless exceptional circumstances surrounding the case require an extension.

NOTE 3: In situations where the conditions of Note 2 do not apply and the Company fails to render a decision within the specified time limits of the disciplinary appeal process for Steps III, IV, and V disciplines, the Union may proceed with the appeal in accordance with Article 18 and the fees and expenses of the arbitrator shall be borne by the Company.

17.01.08 Implementation of disciplinary action involving loss of pay (suspension without pay and temporary demotion), will normally be withheld pending a possible appeal. No hearing will be held at the Headquarters Level in disciplinary matters not involving loss of pay (Step I and II disciplines). Matters involving loss of pay (Step III, IV and V disciplines), will be appealed directly to the Director, Labour Relations - Technical Services.

NOTE 1: The specific details of appeal steps, as referenced in 17.01.07 to 17.01.08 inclusive, are contained in the appropriate charts re Grievance and Discipline Appeal Levels.

NOTE 2: Appeals to discharge decisions will be handled as promptly as possible and wherever practical, at the location concerned.

NOTE 3: This appeal procedure does not detract from the requirements reflected in Article 17.01.05 .

17.01.09 If an appeal is not lodged in a discharge case, the employee may be discharged effective the day following the appeal period specified in 17.01.07. If an appeal is lodged and if the decision is to discharge and provided that no further appeal is made within the time limit specified in 17.01.07, the discharge will be effective the day following this limit.

17.01.10 The final decision of the Company shall be forwarded to the employee, the appropriate General Chairperson and District Lodge 140 by FAX or Canada Post (Registered Mail or Xpresspost). If the Union is not satisfied with the final decision of the Company, the matter may be submitted to arbitration, subject to the provisions of Article 18 of this Agreement, provided the employee concerned has so requested the Union to do so, in writing, with a copy to:

Director, Labour Relations -
Technical Services
Air Canada Base 023
Montreal International Airport (Dorval)
P.O. Box 9000, Postal Station St-Laurent
Montreal, Quebec
H4Y 1C2

NOTE: Should the Union represent an employee at a final disciplinary appeal hearing, as provided for in 17.01.10, the time limits referenced in Article 18.03 will commence on the date the appropriate General Chairperson receives the final decision.

17.01.11 Throughout this procedure, an employee shall have the right to be represented by an authorized Union Representative. In this event and if the employee appeals to the Headquarters Officers of the Branch or of the Company, he shall be represented at these latter levels by the General Chairpersons. Subject to the other provisions of 17.01 and Article 18 including time limits, the employee may, throughout this procedure, handle the matter on his own behalf if he so desires, including arbitration.

NOTE: Should an employee elect to handle his own final disciplinary appeal, in accordance with 17.01.10, the time limits referenced in Article 18.03 will commence on the date the employee receives the final decision.

17.01.12 Nothing in this Agreement shall be construed as preventing the Company from holding an employee out of service pending an investigation and hearing or appeal. The Company's decision in the case of such hearings or appeals may either uphold a previous Company decision, fully exonerate and reinstate the employee with pay for all time lost, or render such intermediate decision as may be considered just and equitable.

17.02 UNASSIGNED

17.03 GRIEVANCE PROCEDURE

- 17.03.01 When an employee believes that he has been unjustly dealt with or that any of the provisions of this Agreement have been violated, his recourse shall be as follows, except for those matters handled in accordance with Article 17.01.

Within ten (10) clear calendar days of the occurrence or his knowledge of the incident, whichever occurs later, he shall first attempt to obtain a satisfactory adjustment by direct appeal to his Supervisor during which discussion the grievor may be accompanied by his Shop Steward if he so desires. If the grievor chooses to be thus accompanied, the Shop Steward may participate in the discussion. If the employee has handled the matter on his own and has been unable to arrange a satisfactory adjustment, he may request the Shop Steward to handle his grievance with the Supervisor. The employee may accompany the Shop Steward if he so desires.

FIRST LEVEL

- 17.03.02 When the conditions of Article 17.03.01 have been met and an employee remains dissatisfied with the results, he may raise a formal grievance in writing on the standard grievance form within ten (10) calendar days, exclusive of Saturdays, Sundays and Statutory Holidays, as follows:

- a) The employee will indicate the nature of the grievance, date of the incident/action, alleged violation of the Agreement (e.g., specific provision), the facts concerning the matter and the specific redress sought.
- b) Providing the employee has signed the grievance form, the submission of that grievance form to his Supervisor, may be carried out by either the employee or the Union Steward.
- c) The Supervisor will respond to the Union, with a copy to the employee, in writing, on the standard grievance form within three (3) clear calendar days from the date of receipt of the written grievance form, exclusive of his regular days off and Statutory Holidays.

NOTE: Grievances of a general nature may be initiated by the Union, in writing, on the standard grievance form at either the First, Second or Third Level, depending upon the scope and nature of such grievance.

Such grievances must be filed within ten (10) clear calendar days, exclusive of Saturdays, Sundays or Statutory Holidays, from when the Union has received written notice from the Company relating to an incident or when an incident actually occurs and subsequently comes to the knowledge of the Union, which the Union believes violates the provisions of the Agreement.

SECOND LEVEL

- 17.03.03 Failing satisfactory adjustment at First Level, the Shop Steward shall refer the grievance to the local shop Committee/General Chairperson for appeal to the member of management designated by the Company.

NOTE: The Shop Steward may be added to the Grievance Committee at the Second Level of the appeal procedure.

THIRD LEVEL

- 17.03.04 Failing satisfactory adjustment at Second Level, the grievance shall be submitted to the General Chairpersons for appeal to the Director, Labour Relations - Technical Services.

- 17.03.04.01 The Committee of General Chairpersons of District Lodge 140, will meet with the Company Headquarters Representatives at least every six (6) weeks for the purpose of dealing with all outstanding grievances which have been processed to the Headquarters Level of the Company. This work will not detract from the functioning of the recognized Regional Shop Committee.

NOTE: It is the mutual intention of the parties to confine, as far as practicable, the Third Level Appeal to questions of national importance. In furtherance of this goal, each party will advise the other, in writing, of any grievances proceeding to the Third Level which it considers do not raise any national issues. The parties will endeavour to resolve all grievances which do not raise any question of national importance prior to the Third Level appeal. Unless expressly agreed to the contrary, such resolutions will be without precedent value.

- 17.03.04.02 If at a Third Level Hearing, agreement is reached on the interpretation, intent or application of a provision in the Agreement, the parties agree that the issue may be raised at a subsequent Union Management Communication Meeting. Following a review of the agreement at the Union Management Communication Meeting, such agreement may, on mutual agreement of the parties, be incorporated in the Collective Agreement in the form of a Letter of Understanding.

- 17.03.04.03 Decisions of National Third Level grievances will be sent to the office of the National President and Directing General Chairperson, District Lodge 140, or designated representative, by Faxcom followed by Canada Post.

- 17.03.04.04 At the request of District Lodge 140:

- a) An additional member from each affiliated Local Lodge may attend discussions with the Company at the Third Level as an advisor to the Committee of General Chairpersons. However, the Local Lodges in Toronto and Montreal may each have two (2) members.
- b) Such representatives who are employees shall be allowed the necessary time off, subject to manpower requirements, payable by the Union. Necessary transportation will be provided over the lines of the Company from the point of duty to the point of meeting and return.

APPEALS

- 17.03.05 Each appeal must be lodged in writing, within ten (10) clear calendar days from the date of receipt of decision, exclusive of Saturdays, Sundays and Statutory Holidays. Hearings shall be commenced within fifteen (15) clear calendar days of written request, exclusive of Saturdays, Sundays and Statutory Holidays. Decisions shall be rendered within fifteen (15) clear calendar days of the close of the appeal hearing, exclusive of Saturdays, Sundays and Statutory Holidays. All decisions shall be confirmed in writing to the parties concerned. At the Second and Third Level, the decision will contain a summary of the issue giving rise to the grievance.

NOTE 1: Notwithstanding the provisions of this Article, it is agreed that the respective parties will make every effort to conduct hearings within the identified time period. Where these time limits cannot be met by either party, the other party will be notified in advance.

NOTE 2: The Company undertakes to ensure that the time limits for the rendering of decisions, referenced above, will be adhered to unless exceptional circumstances surrounding the case require an extension.

NOTE 3: In situations where the conditions of Note 2 do not apply and the Company fails to render a decision at the third level of the grievance appeal process within the specified time limits, the Union may proceed with the grievance in accordance with Article 18 and the fees and expenses of the arbitrator shall be borne by the Company.

- 17.03.06 The specific details of appeal steps, as referenced in 17.03.01 to 17.03.04 inclusive, are contained in the appropriate charts re Grievance and Discipline Appeal Levels.

NOTE: At Dorval Base only, a Chief Steward will be involved at Stage II of the First Level and may be added to the Grievance Committee at the Second Level of the appeal procedure, in lieu of a Shop Steward.

- 17.03.07 If an agreement cannot be reached between District Lodge 140 and the Company, the matter may then be submitted to arbitration subject to the provisions of Article 18 of this Agreement.

17.04 **GENERAL**

- 17.04.06 With the exception of the First Level of the grievance appeal procedure, the hearing of appeals by the management levels listed may be delegated to a deputy but, in such cases, the deputy's decision becomes the final decision for that step of the appeal procedure. However, the Union may request that a specific grievance be heard by the senior line Manager listed on the charts rather than his designate in those grievances which involve significant issues at the location.
- 17.04.07 At the request of the District Lodge 140, a member from each affiliated Shop Committee may attend the Headquarters level disciplinary appeal hearings as an advisor to the General Chairpersons.

17.05 **UNION/MANAGEMENT COMMUNICATIONS**

17.05.02 The Company shall discuss, with the various Shop Committees of the Union, matters involving the employees under this Agreement. At all points where Shop Committees have been constituted, two (2) regular meetings between the designated officials of the Company and the Shop Committee shall be held each month. Such meetings will be held during regular working hours without loss of time to committee men, unless otherwise mutually agreed. Where mutually agreed by the Shop Committee and designated Company officials, the meetings may be held at less frequent intervals or as required, subject to joint agreement.

17.05.03 The Committee of General Chairpersons of District Lodge 140 will discuss with Company Headquarters Representatives, overall matters involving policy, interpretation, etc., affecting the whole system. The Committee will meet with the Company at least once every quarter. The work of this Committee must not detract from the functioning of the recognized Regional Shop Committees.

These meetings will also include, as required, matters of mutual concern relating to the Employee Assistance Program, Employment Equity and National Health and Safety issues. District Lodge 140 Coordinators for Safety & Health, Employment Equity or Employee Assistance may be in attendance for the period of time when matters relating to their functions are addressed as an agenda item.

17.05.04 Meetings referenced in 17.05.02 and 17.05.03 shall not be considered as being in lieu of the established grievance procedure.

17.05.05 The National President and Directing General Chairperson, District Lodge 140, or designated representative, shall be the point of contact between the Union and representatives of Company Headquarters. Where such contacts are through the medium of correspondence, the letters, in all cases, will be addressed to or signed by the above-referenced General Chairpersons with a copy to the other General Chairpersons.

17.05.06 Any matter initiated by the Company at Headquarters Level for discussion with the Union, shall be handled by the appropriate Company representatives with the General Chairpersons. Notification will be given to the Shop Committee/Steward at the point and the appropriate General Chairperson. This advice will contain such information as the number of units or services involved, anticipated duration, and reasons for the sub-contract, as applicable.

20.07.03 Either the Shop Committee or the General Chairperson will be allowed a review of the sub-contracting situation. Such reviews will be conducted in conjunction with the normal communication processes established between the Company and the Union. For significant sub-contracts, such reviews may be initiated by the Committee of General Chairpersons with Labour Relations at the Headquarters Level (UMCM). Such reviews will be conducted in advance of the sub-contract where possible.

NOTE: In emergency/requirement of the service situations where the notice to the Union of sub-contract is less than thirty (30) days, such sub-contracts shall be subject to the normal review process.

20.07.04 The Company agrees to share with the Union the cost- benefit analysis information, if available, done in connection with any sub-contract and to provide the Union with the opportunity to present submissions in support of retaining the work within the bargaining unit.

20.07.05 The above situations refer to normal airline operational functions only and do not refer to items which are normally obtained from manufacturers or suppliers.

20.07.06 The Company further agrees that, prior to any layoff, District Lodge 140 will be allowed a review of any "sub-contracting" situations with a view to reassessment of the practicability of performing the work within the bargaining unit.

20.07.07 The leasing of equipment associated with normal airline operational functions will be handled in accordance with the policy outlined in this Article.

20.07.08 The Company agrees that the sub-contracting of work normally performed by classifications in categories covered by this Collective Agreement will not result in staff reduction of those permanent employees affected by the sub-contract.

20.08 SAFETY AND HEALTH COMMITTEES

20.08.01 While the question of safety is of paramount importance to all personnel, Supervisors are specifically charged with the duty of initiating and monitoring all practices necessary to ensure the safety and health of employees, as well as ensuring the safety of all equipment.

- 20.08.02 Supervisors must be especially vigilant regarding both unsafe work habits of employees and work conditions and are required to act on any report by an employee of an unsafe work habit or condition.
- 20.08.03 An employee who observes an unsafe condition or act that he cannot personally correct, shall notify his Supervisor or refer it to his Steward who will advise the Supervisor. NOTE: Where a Committee has not been authorized any safety and health item, should be promptly dealt with on a local basis by a designated employee who exercises managerial functions and one who does not.

- 20.08.05 The number of committee members will be determined at each location, but the number should be large enough to permit productive interaction while small enough to keep the committee manageable. The number of committee members should not in any case be less than four (4) nor more than twelve (12).
- 20.08.06 The committee member's term of office shall be two (2) years, but any member may be re-appointed; the employee representatives on the committee shall be appointed by the Union.

- j) May request from an employer such information as the committee considers necessary to identify existing or potential hazards with respect to materials, processes or equipment in the work place; and
- k) Shall have full access to all government and employer reports relating to the safety and health of the employees represented by the Committee but shall not have access to the medical records of any person except with the consent of that person.

Information received by such committees shall be treated as privileged information for the specific use of the committee for the item being discussed. Full access to such information will be provided to Safety Officers of Labour Canada.

- 20.08.10 Minutes of committee meetings shall be prepared in a format acceptable to the Regional Director of Labour Canada. The minutes must be approved and signed by the Co-Chairpersons before they are released for distribution and posting.
- 20.08.11 The Co-Chairperson selected by the managerial representative on the committee shall ensure that a copy of the minutes of each committee meeting is:
 - a) Posted at all work places within the area for which the committee is established; and

20.08.12 The Company shall send a copy of the minutes of each committee meeting to the appropriate Regional Director of Labour Canada.

20.08.13 A committee will meet at least monthly during regular working hours or on an urgent basis, as a result of an emergency or other special circumstance. All meetings of the committee shall be called by the committee Co-Chairpersons. A majority of the members of a committee, at least half of whom are employees who do not exercise managerial functions, shall constitute a quorum.

20.08.14 A member of a committee will be granted such time from his work as is necessary to attend meetings or to carry out any other functions assigned by the committee Co-Chairpersons. Any time spent attending a meeting or carrying out any approved functions as a member of the committee shall be considered as time worked and covered by existing time recording procedures and the provisions of the Agreement.

NOTE: In the event that neither of the Co-Chairpersons are available, a Safety and Health Committee Member may discuss the circumstances surrounding a safety issue which he believes requires immediate attention, with the Supervisor involved.

20.08.15 No member of a committee is personally liable for anything done by him in good faith while carrying out his role as a member of a Safety and Health Committee.

20.08.16 Subject to the foregoing, a committee may establish its own procedures, rules and regulations. Committees may not, however, change work rules or procedures, allocate or commit Company funds or personnel without express approval of the appropriate management authority.

20.08.17 Matters not resolved by the committee, may be referred to the Safety Officer of Labour Canada.

20.08.18 The committee(s) will function within the spirit and intent of Part II of the Canada Labour Code, and consistent with the Corporate Guidelines, Safety & Health Committees, containing the terms of reference, structure, and operating principles agreed to between the Company and the Union for the operation and administration of Safety and Health Committee(s).

A copy of the section of the Corporate Safety Audit report relating to the specific area(s) will be available from the local Branch Manager on request by the local Safety & Health Committee. This information is considered to be privileged and is for internal and confidential use only.

The Company further agrees to enter into negotiations with the Union relative to the protection of employee seniority and other conditions of this Agreement. Failing settlement, the Canada Labour Code, Part I will apply.

20.09.01 The parties agree that in the event of a merger, amalgamation or acquisition involving an intermingling of employees, the joint position of the parties in any proceeding(s) involving the resolution of competing claims to seniority will be that preferential seniority provisions in any relevant collective agreement should be of no effect in establishing a merged seniority list.

20.10 SEVERANCE PAY

20.10.01 A permanent employee covered by this Agreement who has completed one (1) year of continuous service under this Agreement immediately prior to being laid-off, through no fault or action of his own, including lay-off resulting from merger or geographical relocation, shall receive severance pay as provided in 20.10.02, subject to the limitations and conditions set forth herein, but he shall receive no severance pay if any one or more of the following conditions exist.

- f) He is on leave of absence on the effective date of lay-off. In the case of an employee on leave of absence due to illness on the date of lay-off, these provisions will become effective on the date that he is able and reports for work following termination of such leave of absence.
- g) His service is terminated as a result of discipline, retirement, medical reasons or resignation other than as a direct result of, or during a lay-off.

20.10.02 The amount of severance pay due under this Article shall be based on the length of actual straight time continuous service with the Company under this Agreement and shall be computed on the basis of the employee's regular straight time weekly rate at time of lay-off, as follows:

The above-referenced reviews may also be arranged with Personnel Services supervision under circumstances where an employee is on a Regular Day Off (R.D.O.).

20.14 LANGUAGE OF AGREEMENT

Collective Agreements are to be published and preferably executed, simultaneously in English and French, but may be distributed in either language when the employee's preference has been previously determined; in the event there is a difference between the English and French versions of the Collective Agreement, preference is to be given to the version thereof that best corresponds to its true spirit, intent and meaning as originally negotiated and best ensures the attainment of its objectives as agreed upon between the parties.

20.15 OFF-DUTY STATUS

20.15.01 The Union acknowledges the Company's right to place employees on "off-duty status without pay" under circumstances where the Company discontinues its revenue operations due to an Act of God, national war emergency, revocation of the Company's operation certificates or certificate, strike, lockout or picketing of the Company's premises, grounding of a substantial number of Company aircraft or other circumstances over which the Company has no control.

20.15.02 The General Chairpersons will be informed of the Company's intention to place employees on "off-duty status without pay" and the general handling of employees covered by the Agreement will be reviewed. At each point where employees are affected, local Union representatives will be advised of detailed handling.

20.15.03 Employees will be given a minimum of twenty-four (24) hours notice of intended action before being placed on "off-duty status without pay". Where such notice is verbal, it will be subsequently confirmed in writing. In any event, "off-duty status without pay" will not commence until twenty-four (24) hours after cessation of service.

20.15.04 Where employees are retained or returned to duty to perform required work, senior qualified employees shall be assigned on the basis of classification seniority in the category at the point. However, employees in above basic classifications will be assigned, at the point, to the next highest above basic classification in the category in which currently employed and in which they hold seniority and for which there is a staffing requirement. Such assignments will be subject to the ability of the employee to perform the function of the above basic classification. Exceptions may be made where special skills or job continuity is required. In cases where it is decided to carry on scheduled training programs, those employees already involved shall be retained.

NOTE 1: Categories 3, 4, 5, 6, 9 and 10 will be assigned to their former category/classification in which they hold seniority.

NOTE 2: The scheduling process in the application of assigning employees to above basic classifications as above, will not attract any special compensation for a change in shift schedule. Each affected employee's days on/days off will be balanced over the time period

immediately preceding, during and following the period of off-duty status.

Employees whose vacations are scheduled to start after or during "off-duty status" will take such vacation with pay as scheduled. Such vacations will not be postponed or re-scheduled.

20.15.10 Company sick leave benefits will not be granted to an employee on "off-duty status". However, any illness during the period of "off-duty status" may be reviewed at the Company Headquarters Level upon request of the Committee of General Chairpersons. 20.16 TECHNICAL OPERATIONS/AIRPORT & CARGO OPERATIONS ORGANIZATION

20.16.01 Technical Operations personnel at line stations are employed by the Technical Operations Branch and responsible to the appropriate General Foreman/Maintenance Manager for all technical requirements. They are, however, assigned to and under the jurisdiction of the appropriate Airport Manager for the purpose of delegation of duties, administration and discipline.

At Calgary, Edmonton, Ottawa and Mirabel, however, delegation of duties and discipline will be handled by Technical Operations Management assigned to these locations. The Airport & Cargo Operations Branch will continue to provide the administration services in these stations.

The technical requirements with respect to any one flight, however, are dependent upon such factors as the type of aircraft, its condition and whether or not snags are reported, together with the regulations as laid down in the appropriate Maintenance Instruction Manual. In the absence of technical requirements (the prime responsibility of Technical Operations personnel), these individuals will be called upon to perform Airport & Cargo Operations functions associated with the ground handling of flights. In the allocation of such Airport & Cargo Operations functions to a Mechanic, it is recognized that the normal practice is to attempt to assign duties of a semi-technical nature which may be involved.

With the above in mind, the extent to which such Technical Operations personnel will be called upon to perform Airport & Cargo Operations functions associated with the ground handling of flights, will be established in advance, between the appropriate Airport Manager and the General Foreman/Maintenance Manager for each flight schedule and type aircraft.

20.16.02 Airport and Cargo Operations personnel are employed by the Airport and Cargo Operations Branch and are normally responsible to the appropriate Airport and Cargo Operations Branch Management. Similarly, Technical Operations personnel are employed by the Technical Operations Branch and are normally responsible to the appropriate Technical Operations Branch Management. Where there are organizational requirements, Management personnel from the Technical Operations Branch, as designated by the Company, will be responsible to provide work direction, assign duties, complete administrative functions and deal with grievances and take disciplinary action as required for employees in the Airport and Cargo Operations Branch, or vice-versa.

20.17 PENSION PLAN

20.17.01 Notwithstanding Rule 16 of the provisions of the Air Canada Pension Plan, no termination, modification or amendment shall be made to the provisions of the Plan which would increase the contributions required to be made by any employee covered by the Collective Agreement or would reduce or adversely affect any of the benefits, rights, privileges or options under the Air Canada Pension Plan of any such employee, or of any former employee or pensioner who, at the time of his termination of employment or retirement from the Company, was in a classification covered by the Collective Agreement or a predecessor thereto, or of any dependent, beneficiary or estate of such an employee, former employee or pensioner, while the Collective Agreement is in force between the Company and the Union without the consent of the Union. In the absence of such consent, either the Company's or the Union's desire to effect a termination of that Plan or the modification or amendment in whole or in part of any or all of its provisions upon or after the renewal, extension or replacement of the Collective Agreement by a successor thereto shall be subject to the same notice and negotiating conditions that are required for modifications or amendments to the Collective Agreement itself.

20.17.02 The Company will provide, on a System (Canada) basis, pre-retirement seminars to assist employees in preparing themselves for retirement. It is also agreed that the Company will review with the Union the program content prior to any change being implemented.

20.17.03 The Company will actuarially determine the assets and liabilities of the Air Canada Pension Plan - Canada with respect to Plan members in classifications covered by this Agreement.

The apportionment process used by the Company's actuaries will be similar to that process followed in determining the Plan's assets and liabilities attributable to other employee groups. The Union and the Union's actuaries shall have access to all pertinent information involved in finalizing this process.

It is understood that the members' share of the assets of the fund will remain in the fund for investment purposes and that costs normally borne by the fund will be charged to the members' share of the assets on a proportionate basis.

Effective January 1, 1983, in addition to the foregoing, separate ongoing accounting will be kept of member and Company contributions to the fund and disbursements made from the fund with respect to the Plan members covered by this Agreement.

For the purpose of this understanding, "member" and "member of the Union" shall include:

- a) Employees who are in classifications covered by this Collective Agreement between the Company and the Union;
- b) Former employees and pensioners who, at the time of their termination of employment or retirement from the Company, were in classifications covered by the above Collective Agreement or any predecessor thereto;
- c) Dependents, beneficiaries and estates of the employees, former employees and pensioners referred to in a) and b) above.

The provisions of the Air Canada Pension Plan - Canada applicable to members of the Plan shall be administered by a committee comprised of four (4) Union representatives who are members of the Plan and four (4) Company appointees.

20.18 DISCRIMINATION AND HARASSMENT

20.18.01 General: Employees are entitled to work in an environment free of discrimination and harassment. - a) An individual who believes he/she has been sexually harassed may initiate a grievance at any of the steps of the grievance procedure. 20.20.01 In the event of a technological change, the Company will, as far in advance of the change as possible, enter into discussions with the Union at the Headquarters Level for the purpose of providing:

a) A detailed description of the nature of the proposed technological change;

b) The names of the employees who will likely be affected by the proposed technological change;

c) The rationale for the change and the impact it will have on the Company's efficiency and economy of operations; and

d) The Company's plan to minimize the impact of the technological change on the employees affected.

20.20.02 As a result of discussions outlined in 20.20.01 and where the scope of the technological change necessitates it, a committee will be established by the Union and the Company at the Headquarters Level.

The committee will be composed of General Chairpersons, management representatives and an appropriate number of employees of the Branch in the classification(s) affected by the technological change.

The Company shall provide the members of the committee with materials pertaining to technological change which may be required to ensure that the fullest discussion on such matters as re-training, change of work methods, reorganization of work, change to the method of organization, etc., will take place in an effort to implement change with the least possible disruption and with the maximum possible benefits to the Company and employees.

TRANSFER AND BUMPING TO/FROM CARGO AND/OR AIRCRAFT SERVICES**

L5.01 At stations where the Cargo Branch is operating a cargo terminal, Customer Service Agents, Lead Station Attendants and Station Attendants in Aircraft Services, who desire to transfer into the cargo terminal, shall so indicate in writing to their Manager with a copy to the local Union. Customer Service Agents, Lead Station Attendants and Station Attendants in the cargo terminal who desire to transfer to Aircraft Services, shall so indicate in writing to their Manager with a copy to the local Union. Transfer requests will be considered when a permanent vacancy is declared.

| L5.02 To be eligible for consideration, the request for transfer must be sent by FAX or postmarked at least thirty (30) days prior to the vacancy becoming available on a permanent basis. Each request for transfer, including copies, must be forwarded by FAX or Canada Post and will be considered active for a period of one (1) year.

L5.03 Customer Service Agents, Lead Station Attendants and Station Attendants who have been unable to transfer within one (1) year from the date of submitting their transfer request, will then be placed on the bumping list and be eligible to exercise bumping privileges providing there are permanent employees with less seniority in their own classification.

L5.04 Transfers of employees exercising "bumping privileges" will be activated once in a calendar year. Normally, these transfers will be coincidental with the introduction of the summer Flight Schedule (end of April) however, this date may be adjusted to meet local training and operational requirements.

Bumping to/from Cargo and/or Aircraft Services will be 7% of the total permanent staff by classification within the Cargo terminal but restricted to a maximum of 17 people within each classification.

At stations where the above would not apply, a minimum of one (1) Customer Service Agent, one (1) Lead Station Attendant and two (2) Station Attendants would be permitted to bump.

L5.05 Selection of employees for transfer who are exercising "bumping privileges" to/from Cargo or Aircraft Services, will be in accordance with L5.02, L5.03 and L5.04.

L5.06 Employees offered the opportunity to transfer must advise their Manager of their decision in writing within twenty-four (24) hours of the date of such offer. Failure to advise the Manager will be considered a declination of the transfer.

NOTE: Once an employee has confirmed "acceptance" in writing, the transfer must be accepted and he will not be eligible to transfer back for a period of one (1) year from date of transfer.

L5.07 This Letter of Understanding cancels and supersedes Item 6 of the 1966 Biller Agreement (Filling of permanent Station Attendant vacancies - Cargo warehouse and ramp). The remainder of the Biller Agreement will remain in full force and effect.

STATION CLOSURES/CENTRALIZATION OF WORK**

L7.01 STATION CLOSURES

- L7.01.01 In the event of a station closure or portion thereof, resulting from the withdrawal of service due to Company alliances or purchases, the Company is committed to the employment security of those employees affected by these changes. Furthermore, the Company will notify District Lodge 140 as soon as practicable of these changes.

To that end and should the aforementioned events result in permanent employees being declared surplus, the following will apply.

OPTION 1 - TRANSFER

- a) Permanent employees will be transferred to vacancies in their current classification.
- b) Employees in above basic classifications will be transferred to vacancies in lower classifications in which they hold seniority in the event that:
 - 1. No vacancies exist in their current classification.
 - 2. Their current classification is not currently active.

NOTE 1: Should 2. above be the prevailing condition, affected employees shall have the ability to select a new point of lay-off for the classification affected in which they hold seniority as well as up to three (3) other points of recall.

NOTE 2: Employees failing to designate a new point of lay-off for a classification shall be considered as having forfeited recall privileges in that classification and Article 16.16.09 (d) will apply.

- c) Above basic employees, who have accepted a transfer who are working in a lower classification, shall have their rate of pay and progression protected at the applicable rate of their former classification for a period not to exceed three (3) years, effective from date of transfer. Employees who decline recall to point of lay-off, shall have their salary protection adjusted, equivalent to the differential between their current status and the salary of the classification declined. In addition, employees who fail to bid on any above basic vacancies at their point during the protection period and it is determined they would have been the successful bidder, as well as declining to accept temporary relief assignments for which they are eligible, shall have their salary protection adjusted.

d) Transfers will be at Company expense, in accordance with Company regulations.

e) The aforementioned transfers shall not result in consequential lay-offs at the new point.

OPTION 2 - VOLUNTARY SEVERANCE

Permanent surplus employees electing for voluntary severance will be provided with a termination award of two (2) weeks pay per year of Company service, to a maximum of fifty-two (52) weeks pay.

Such termination award may be converted as follows:

1. Lump sum cash payment
2. Time on payroll at full salary
3. Time on payroll at half salary (maximum 24 months)
4. Any combination of options 1, 2 or 3 above.

NOTE: Time on payroll under options 2, 3 or 4 above: Employees will receive service credits for pension purposes and will continue to be covered for the attained level of benefits and pass privileges with the exception of Group Disability Income Plan. Service would continue to accrue for pension and pass purposes but not for vacation entitlement.

OPTION 3 - LAY-OFF

Employees who decline to select either Option 1 or Option 2 shall be placed on laid-off status and be permitted to exercise bumping privileges as provided in Article 16.15.

L7.02 CENTRALIZATION OF WORK FUNCTIONS - SALARY PROTECTION

In the event the Company centralizes any work functions, current employees in the effected category/classifications who are declared surplus and who are not offered continued employment at the point, and who meet the requirements of the centralized work function, will be offered fully paid moves in order of seniority, subject to the number of positions identified at the new work location.

Employees declared surplus as a result of the centralization of a work function who are working in a lower classification due to exercising bumping privileges, shall have their rate of pay and progression protected at the applicable rate of their former classification for a period not to exceed three (3) years effective from date of layoff. Employees who decline recall to point of layoff, shall have their salary protection adjusted equivalent to the differential between their current status and the salary of the classification declined. In addition, employees who fail to bid on any above basic vacancies at their point during the protection period and it is determined they would have been the successful bidder, as well as declining to accept temporary relief assignments for which they are eligible, shall have their salary protection adjusted.

L7.03 PROMOTIONAL BULLETINS

In circumstances of station closure(s) or the centralization of a work function and where an employee has received a notice of lay-off, he will be eligible to bid for Promotional Bulletins addressing classifications in which he does not hold a seniority date and which are lower paying than his active classification prior to the effective date of lay-off.

L7.04 WITHDRAWAL OF SERVICES

In cases where the withdrawal of services results in a wholly or partially owned subsidiary or alliance partner providing a previous service, the Company will make reasonable efforts to ensure that, surplus permanent employees in the bargaining unit are offered positions with the new employer on terms and conditions that are as close as possible to the then existing terms and

conditions of employment of the employees in the bargaining unit, and, where less than the full complement of employees is offered positions, to ensure that the offers are made on the basis of seniority.

In addition, and subject to the availability of employment with the new employer and the ability to resolve such matters/arrangements with other involved parties (eg: the new company/Union) the Company will provide the following:

- A severance package equivalent to 50% of that referenced in L7.03 usable as wage make-up and/or moving allowance until the amount of the severance package is depleted.
- Accrual of seniority and Company Service for a period of two years.
- Participation in the Air Canada Pension Plan and continued Air Canada benefits for a period of two years.

LETTER OF UNDERSTANDING NO. 8 EXPEDITED ARBITRATION

It is agreed that for the life of the current Collective Agreement, notwithstanding Article 18, it may be of mutual benefit to expedite the arbitration of appropriate grievances / disciplinary appeals on a type-trial basis in the Eastern and Central Seniority Divisions.

Recognizing the primary objectives of expedited arbitration to provide a timely, informal, and relatively inexpensive procedure for resolving grievances and disciplinary appeals, the parties agree to conform to the following guidelines:

- L8.01 Dates for expedited arbitration, and the selection of a sole arbitrator, shall be identified and mutually agreed in advance. Where the date cannot be utilized it will be made available for regular arbitrations in accordance with Article 18. If the date still cannot be utilized it will be made available for cases involving Air Canada and its other Unions. Fees and expenses for expedited arbitration shall be in accordance with Article 18.09, and similarly if dates cannot be utilized in the foregoing manner, the cost of the cancellation shall be divided equally between the parties;
- L8.02 Cases selected for expedited arbitration shall be subject to mutual agreement between Labour Relations and the Union. Following written notification from the Union of its desire to proceed with expedited arbitration, the Company shall confirm its agreement, or otherwise, not less than sixty (60) days prior to the desired date of hearing. Time permitting, multiple cases may be scheduled on the same date;
- L8.03 Cases agreed to for expedited arbitration shall be those where there are no preliminary objections and where there is prior agreement on the facts of the case, unless otherwise agreed by the parties in advance. The need for witness testimony and cross examination will be minimal, if at all. All documents, statements, etc., to be submitted as evidence at the hearing shall be subject to prior disclosure between the parties. Submission of any new evidence at the hearing stage shall be subject to mutual agreement. Only the employee and line management representative involved shall attend the arbitration in addition to the Union / Labour Relations representatives. Witnesses and/or observers may attend subject to prior notification to either party;
- L8.04 It will be the parties' intent at expedited arbitration to keep the process as informal as possible, avoiding procedural delays and an overly legalistic approach;
- L8.05 Opening comments and argument will be concise and limited to brief statements of relevant facts and rationale for the respective positions. Jurisprudence will be limited to that which is deemed to support the respective positions of the parties, with copies prepared and provided in advance of the hearing;

- L8.06 Bench or oral awards will be permitted with the consent of both parties, subject to later confirmation in writing. In any event, decisions rendered in expedited arbitration will be without precedent or prejudice to any other matters arising between the parties and will not be relied upon as jurisprudence;
- L8.07 Where deemed appropriate, based upon the parties' experience with the process of expedited arbitration, the foregoing guidelines may be altered subject to mutual agreement.

President & Directing General Chairman
District Lodge 148, I.A.M.A.W.
3767 Thimens Boulevard
Suite 205
St. Laurent, Quebec
H4R 1W4

Dear Mr. Giuliani,

Subject: Endorsement Course Seat Allocation

It was agreed following discussion during the 1995 Collective Agreement negotiations that the following would be incorporated into the Training and Licensing publication, Manual 103, Volume II, Chapter 2.

The number of CATs and CAVTs will be allocated for each endorsement course by work formation.

For each formation where three (3) or more seats are offered, 20% will be posted as a course vacancy notice. A guaranteed minimum of at least one (1) seat will be allocated on this basis.

Remaining seats will be allocated on the basis of the current formula of 1-2, 2-3.

EXAMPLE:

Course seat allocation to any given work formation:

- 1 seat - allocation on basis of 1-2, 2-3.
- 2 seats - allocation on basis of 1-2, 2-3.
- 3 seats - 1 course vacancy notice to senior bidder;
- 2 allocated on basis of 1-2, 2-3.
- 4 seats - 1 course vacancy notice to senior bidder;
- 3 allocated on basis of 1-2, 2-3.
- 5 seats - 1 course vacancy notice to senior bidder;
- 4 allocated on basis of 1-2, 2-3.
- 6 seats - 1 course vacancy notice to senior bidder;
- 5 allocated on basis of 1-2, 2-3.
- 7 seats - 1 course vacancy notice to senior bidder;
- 6 allocated on basis of 1-2, 2-3.
- 8 seats - 2 course vacancy notice to senior bidder;
- 6 allocated on basis of 1-2, 2-3.
- etc.

NOTE: If after three (3) consecutive endorsement courses for a formation, no seat selection was made available for a senior bidder consistent with the foregoing provisions, and the next course offered provides less than three (3) seats to the formation, one (1) seat will be offered on the basis of a vacancy notice.

EXCEPTIONS:

1. CATs and CAVTs would be ineligible to bid on course vacancy notices if they are already in possession of five (5) or more endorsements on their AMI for aircraft currently operated by the Company.
2. CATs and CAVTs successfully bidding on a course vacancy notice would be required to repay the training costs to the Company on a prorated basis over two (2) years if they retire or voluntarily leave the company within two (2) years of completion of the training.
3. CATs and CAVTs successfully bidding on a course vacancy notice must remain in the applicable work formation for a minimum of twelve (12) months after endorsement course completion. This will not interfere with an employee's rights under the Collective Agreement and is intended solely for local application.
4. Consistent with the provisions of Publication 831, Chapter 4, Page 11, an employee will be considered eligible, if at least twelve (12) months has elapsed since he last successfully completed a previous endorsement course.

**LETTER OF UNDERSTANDING NO. 12
AMALGAMATION OF DORVAL BASE CAFETERIA COLLECTIVE AGREEMENT**

- L12.01 After discussion, all of the Articles in the 1992-1995 Master Air Canada/I.A.M.A.W. Collective Agreement are considered the same as the Articles in the 1990-1992 Cafeteria Air Canada/I.A.M.A.W. Collective Agreement with the following exceptions.
- L12.02 The duration of the Collective Agreement for wages and overtime, will be three (3) years, six (6) months (forty-two (42) months), effective July 19, 1992 until January 13, 1996. Wages will be frozen for the period July 19, 1992 to January 13, 1996.
- L12.03 Effective with the first pay period following ratification and notwithstanding the provisions of Article 10.02.01, all overtime will be compensated at time and one-half of the applicable rate. The modification is not a permanent change to the Collective Agreement and will expire on January 13, 1996.
- L12.04 The Articles referenced below from the 1990-1992 Cafeteria Collective Agreement reflect the application/ environment of the Air Canada Centre Cafeteria:
- L12.04.01 It is understood and agreed that Supervisory staff will assist in any capacity when the need arises.
- L12.04.02 Vacancies created by periods of vacations and or illness of five (5) working days or less will, if required, be covered by overtime. Commencing with the sixth (6th) working day the Company, at its discretion, will fill the vacancy by the use of casual employees.

Should there be a reluctance on the part of the employees in the same classification to accept such overtime, we will attempt to replace with casual employees. Failing availability of casuals, the overtime assignment with the same classification will be in the same sequence as normal canvassing.

NOTE: An exception to the above would be in the area of Time Bank or personal short-term leave of absences. Where time off is granted, and as replacement deemed essential, we would intend to replace the individual through a casual hiring.

Permanent employees will not be laid off while casual employees are employed.

Permanent employees on laid off status will be the first to be offered casual employment.

MEMORANDUM NO. 1

PROMOTION TO, TRANSFER AND BUMPING IN AND RETENTION OF A CERTIFICATED CLASSIFICATION - TECHNICAL OPERATIONS

The following excerpt from Maintenance Technical Recruiting, Training and Certification Manual, dealing with the effect of these regulations on the seniority of certificated classifications, is quoted below for the information of personnel covered by this Agreement.

Eligibility - Promotions, Transfers and Bumping

The Union Agreement requires that an employee in a certificated classification possess a current Air Canada "Aircraft Maintenance and Inspection Certificate" or "Avionics Maintenance and Inspection Certificate" endorsed for the type of aircraft and/or power plants upon which he can normally be expected to be employed. Under current circumstances, the qualifications outlined under Promotions, Transfers and Bumping shall be interpreted as meeting this requirement.

1. Promotion to a Certificated Classification

To be eligible for consideration for promotion to a certificated classification, an employee must meet the following minimum requirements.

- (a) Pass appropriate examinations established by the Company and concurred in by the Union.

NOTE: In the event an employee holding a valid Air Canada "Aircraft Maintenance and Inspection Certificate" or "Avionics Maintenance and Inspection Certificate", terminates employment with the Company and is subsequently re-employed, he will be required to pass any Basic and General Knowledge Sections of the Certificate Examination (AMI) not previously written and passed. In addition, the following re-examination policy will apply.

1. Where the period of absence from the Company has been eighteen (18) months or less, no re-examination will be required.
2. Where the period of absence from the Company has been more than eighteen (18) but less than thirty (30) months, re-examination on specific aircraft types will be required.

3. In all other cases, complete re-examination will be required.

(b) Possess a valid Air Canada "Aircraft Maintenance and Inspection Certificate" or "Avionics Maintenance and Inspection Certificate" endorsed in accordance with the following:

1. Crew Chiefs, Certificated Aircraft Technicians and Certificated Avionics Technicians - endorsed on at least one (1) aircraft type scheduled to operate through the station where the vacancy exists.

2. Lead Aircraft Inspectors, Aircraft Inspectors and Aircraft Avionics Inspectors - endorsement on at least one (1) aircraft type scheduled to receive, at that location, either:

i) Major checks or,

ii) Maintenance Operations Checks (under circumstances such that Aircraft Inspectors and/or Aircraft Avionics Inspectors are required for this purpose) where no major checks are scheduled.

2. Transfers in a Certificated Classification

(a) To be eligible for consideration for transfer from one point to another (e.g., Toronto to Winnipeg), in a certificated classification, an employee must as a minimum, meet the requirements outlined under "Promotion to a Certificated Classification" (Paragraph (b)1 and 2 above). In accordance with Article 16.12.09, transfers in the "above basic" classifications can only be actioned if the employee's seniority in the appropriate basic classification is greater than the eligible applicants to a Promotional Bulletin.

In the event there are no eligible applicants to the Promotional Bulletin and/or transfers on file, the following shall apply:

1. In the case of Crew Chiefs, Certificated Aircraft Technicians and Certificated Avionics Technicians, the junior employee in the appropriate classification holding an endorsement on at least one (1) type aircraft applicable to the point, shall be assigned from the following locations:

a) Stations in the Provinces of British Columbia, Alberta, Saskatchewan and Manitoba - Vancouver and Winnipeg.

b) Stations in the Province of Ontario (except Ottawa) - Toronto.

c) Stations in the Province of Quebec (as well as Ottawa) - Dorval.

d) Stations in the Provinces of Prince Edward Island, Nova Scotia, New Brunswick and Newfoundland - Halifax.

2. In the case of Lead Aircraft Inspectors, Aircraft Inspectors and Aircraft Avionics Inspectors, the Junior employee, in the appropriate classification holding an endorsement on at least one (1) type aircraft scheduled to receive major checks or maintenance operation checks at the point, shall be assigned.
- (b) To be eligible for consideration for transfer from one work location to another within a base, an employee must:
1. Where the work location handles one (1) type aircraft, hold an endorsement on that specific type aircraft.
 2. Where the work location handles two (2) types of aircraft, hold endorsements on at least one (1) specific type aircraft.
 3. Where the work location handles more than two (2) types of aircraft, hold endorsements on one (1) of the types involved, the specific type being determined each time a vacancy occurs with a view to maintaining balanced endorsement coverage. As an example, the Line Maintenance Hangar at Dorval handles all types of aircraft in the hangar and/or on the ramp. Under these circumstances, certificated staff must be established and maintained on such a basis that the endorsements held collectively by these employees provide the proper distribution of endorsements on each shift in light of the work requirements generated by each type aircraft. This will have to be reviewed each time a vacancy occurs in order to determine the one (1) specific endorsement needed at that particular time to maintain balanced endorsement coverage. The various factors involved in making this determination are to be discussed with the Union prior to processing the steps necessary to fill the vacancy.

3. Bumping in a Certificated Classification

To be eligible to bump into another point in a certificated classification consistent with his seniority, an employee must:

- (a) In the case of Crew Chiefs, Certificated Aircraft Technicians and Certificated Avionics Technicians, hold at least one (1) endorsement applicable to the point to which electing to bump.
- (b) In the case of Lead Aircraft Inspectors, Aircraft Inspectors and Aircraft Avionics Inspectors holding an endorsement on at least one (1) type aircraft scheduled to receive major checks or maintenance operation checks at the point to which electing to bump.

4. Retention of Certificated Classification Status

1. An employee must, under normal circumstances, be qualified to meet the basic requirements outlined under "Promotion to a Certificated Classification" (Paragraph (b) 1 and 2).
2. An employee who, through failure of AMI Certificate Endorsement Examinations, holds endorsements for only the minimum type aircraft, will be permitted to retain certificated classification status, providing a sufficient number of other personnel in the classification obtain the particular endorsement to fulfil the Company operational requirements.
3. An employee who falls below the minimum qualifications for promotion by virtue of discontinuance of type aircraft, will retain certificated classification status pending assignment to an endorsement course. Retention of such status is dependent upon successful completion of the endorsement course. In the event of a failure, certificated classification status will be retained for a maximum of ninety (90) days following completion of the endorsement course.

MEMORANDUM NO. 2

WORKING TEMPORARILY IN ANOTHER CATEGORY

The purpose of this Memorandum is to establish the intent and application of Articles 4.02, 6.02 and 8.02. The requirement to work temporarily in another category falls into two (2) broad areas, as follows.

- (a) Taking care of varying work loads and providing additional personnel from groups where work loads are decreasing or where the work has a lower priority and clearing up backlogs of work when certain groups are not fully employed in their own function or work area. While it is difficult to cover all the situations which may arise, the objectives are to:

- Avoid the alternatives of temporary lay-offs of permanent employees.
- Avoid the hiring of employees for term employment.
- Meet priority operational requirements.

- (b) The almost day-to-day assignment of various categories to various jobs for periods of short duration.

With regard to giving prior advice to the Union, it will be considered sufficient to advise the Steward of the group concerned and in cases where no Union official representative is on duty, advice may be withheld until one is on duty. This will allow the Union to study the handlings under this provision so that they may discuss them with the Company if they so desire.

It should be noted that such advice does not apply to the type of assignments referenced in Paragraph (b) above because they are considered, by all concerned, to be a regular part of the normal day-to-day operation and as such, require no special advice.

The almost day-to-day assignment of various categories and classifications to various jobs for periods of short duration, is considered to be normal business practice and a routine requirement will be applied as and when required.

MEMORANDUM NO. 4
COMPRESSED WORK WEEK

The administrative detail and criteria for implementation of a compressed work week is as follows.

Full introduction of a compressed work week appears to be very limited due to the difficulty in productively utilizing shift overlap.

However, three (3) variations of a compressed work week have been identified for possible partial implementation as follows.

1. 4/4 - ten (10) hour forty (40) minute day (10.66 hours), equivalent to a 6/3 type work schedule.
2. 4/3 - nine (9) hour twenty (20) minute day (9.33 hours), equivalent to a 6/3 type work schedule.
3. 4/3 - ten (10) hour day, equivalent to a 5/2 type work schedule.

The criteria covering possible implementation of such schedules will be as follows.

- (a) No additional manpower which is not offset by an equivalent reduction in costs;
- (b) No increase in costs which is not offset by an equivalent savings in manpower;
- (c) Subject to local agreement (employees, Union and local management);
- (d) Agreement at a subsequent Second Level meeting;
- (e) Approval of Corporate Labour Relations and District Lodge 140;
- (f) Ability to discontinue at the request of either party;
- (g) Prior commitment by the Company and Union to make a joint submission to Labour Canada to request withdrawal of the Permit in the event either party wishes to discontinue a compressed work week;
- (h) Subject to (d), (e) and (g) above, the Company and the Union, to make a joint submission to Labour Canada for the issuance of a Permit at which time the approved schedule may be implemented.

VACATION ENTITLEMENT DETERMINATION - STANDARD WORK WEEK AND COMPRESSED WORK WEEK AND VICE VERSA

The method of determining vacation entitlement under circumstances where an employee:

- (a) Earns a vacation entitlement on a 5/2 or 6/3 type work schedule and transfers to a compressed work week (i.e., 4/4 or 4/3 cycle) and has not taken any vacation entitlement, or vice versa,
- (b) Takes a portion of earned vacation in both the compressed work week and 5/2 or 6/3 type work schedule.

With respect to (a) above, employees on a 5/2 or 6/3 type schedule transferring to a compressed work week (4/4 or 4/3 cycle) or vice versa, will be assigned vacations in accordance with the appropriate Vacation Guide Chart.

With respect to (b) above, an employee's vacation entitlement will be determined as follows:

Example 1

An employee with a four (4) week vacation entitlement takes one (1) week vacation on a 6/3 type work schedule and transfers to a 4/4 cycle.

NOTE: Total working day vacation entitlement = 19 days

- (a) - Convert total vacation entitlement into hours (i.e., 19×8 (scheduled hours) = 152 hours).
- (b) - Convert the number of working days of the initial Vacation Period taken into hours (i.e., $6 \times 8 = 48$ hours).
- (c) - Subtract (b) above from (a) above (i.e., $152 - 48 = 104$ hours remaining).
- (d) - Convert remaining vacation hours into working days (i.e., $104 \div 10.66$ (scheduled hours on 4/4 Cycle) = 9.8* Working Days).

***NOTE:** If .5 or more round up, less than .5 round down.

Example 2

An employee with a four (4) week entitlement takes one (1) week vacation on a 4/4 type work schedule and transfers to a 6/3 type work schedule.

NOTE: Total Working Day Vacation Entitlement = 16 days

- (a) - Convert total Vacation Entitlement into hours (i.e., 16×10.66 (Scheduled Hours) = 170.6 hours).

- (b) - Convert the number of working days of the initial vacation period taken into hours (i.e., $4 \times 10.66 = 42.6$ hours).
- (c) - Subtract (b) above from (a) above (i.e., $170.6 - 42.6 = 128.9$ hours remaining).
- (d) - Convert remaining vacation hours into working day (i.e., $128.9 \div 8$ (scheduled hours on 6/3 Cycle) = 16.0^* working days).

***NOTE:** If .5 or more round up, less than .5 round down.

MEMORANDUM NO. 5

6/3 TYPE WORK SCHEDULE

A 6/3 type work schedule, which includes additional days off in lieu of Statutory Holidays is a work schedule which can be implemented in accordance with Article 10.01.02 at locations for employees providing seven (7) days per week coverage at the request of the Union. Where a work schedule of six (6) days worked and three (3) days off is too stringent to meet the coverage required, equivalent variations thereof (e.g., 4/2, 5/3, 5/2, etc.) are acceptable to the Union.

A 6/3 type schedule will be implemented upon request and as soon as additional personnel can be hired and trained.

Once a 6/3 type work schedule has been implemented, it will remain in effect for a minimum of one (1) year in order to avoid fluctuations in employment, high cost of recruiting and training staff and to provide consistent working conditions for a reasonable period of time. Within the Airport & Cargo Operations Branch, such changes may only be made in conjunction with the introduction of a flight schedule.

1. Determination of an Appropriate Employee Group

It is not the intent that the implementation of a 6/3 type work schedule be contingent upon it applying to all employees at a location. In the interest of an efficient utilization of manpower, it is essential that the Company retain the responsibility for the establishment of an appropriate employee group when implementing work schedules. In making such a determination, it is then incumbent on both parties to jointly review all aspects of the situation to arrive at the most acceptable work schedule which will meet the required distribution of staff and cover the work requirements. Although a 6/3 type work schedule may be implemented for the majority of employees at a location, some employees may be required to work a fixed 5/2 work schedule in order to specialize in a particular work function, provide additional coverage on a shift, meet an uneven weekly work requirement, etc.

2. Assignments between 5/2 and 6/3 Type Work Schedules

(a) Short Term

Where Statutory Holidays fall during a short term assignment (e.g., less than thirty (30) days) and an employee is assigned from a standard 5/2 shift or equivalent to a shift having built-in Statutory Holidays (e.g., 6/3 type, etc.), the individual will be credited with eight (8) hours special compensation unless scheduled to receive at least one (1) additional regular day off as a result of such assignment. Where Statutory Holidays fall during a short term assignment (e.g., less than thirty (30) days) and an employee is assigned from a shift having built-in Statutory Holidays (e.g., 6/3 type) to a standard 5/2 shift or equivalent, the provisions of the Agreement relative to Statutory Holidays will not apply. However, if all employees in a work location in which such an individual is employed are allowed a Statutory Holiday off, the individual will receive the day off and the time record will not be debited.

(b) Permanent Assignment

Employees permanently transferring between work schedules will have their Statutory Holidays credited in accordance with the schedule to which they are transferring effective the date of the transfer to the new schedule.

3. Floating Statutory Holiday

Employees working a 6/3 type work schedule, including equivalent compressed work week, which includes additional days off in lieu of Statutory Holidays are granted one (1) floating Statutory Holiday per calendar year.

The day on which the holiday will fall will be determined by mutual agreement between the Company and employee. In the event the day cannot be granted by December 31st of the calendar year, the employee will be credited eight (8) hours straight time in lieu of the holiday.

To be eligible for this additional day off or eight (8) hours straight time credit in lieu, an employee will be required to:

- (a) Be working a 6/3 type work schedule which includes additional days off in lieu of Statutory Holidays, and/or
- (b) Be in position to have accumulated at least six (6) months on a 6/3 type work schedule in any calendar year starting January 1st.

Should an employee revert to a 5/2 type work schedule during the calendar year prior to having worked six (6) months on a 6/3 and he had been granted the additional day off, the time record will be debited eight (8) hours in December of that calendar year.

An employee will not be eligible for the additional day off if he commences working a 6/3 work schedule after July 1st, after having worked a 5/2 type schedule for the first six (6) months. On the other hand, an employee who has worked the first four (4) months of a year on a 6/3 type schedule reverts to a 5/2 type schedule until October and then returns to a 6/3 type schedule for two (2) months (November, December), such employee will be considered eligible for the additional holiday effective with his return to a 6/3 type schedule in November.

4. Statutory Holiday Overtime Credits

Since employees working a 6/3 shift schedule are granted additional days off in lieu of Statutory Holidays identified in Article 12.01, any employee required to work overtime beyond the regularly scheduled hours of the shift on such a day will be credited on a time and one-half basis for the first two (2) hours and double time thereafter (reference Article 10.02.01[d]).

5. Vacation Entitlements 6/3 Type Work Schedules

Vacation entitlements for employees on a 6/3 shift cycle who commence vacation after a regular day off will be in accordance with the following chart.

MEMORANDUM NO. 6
MITIGATION OF STAFF REDUCTIONS

During the 1999 contract negotiations, it was agreed that should a staff reduction become necessary during the life of this Agreement, the Company agrees to make the Deferred Payment Leave Plan (e.g., 80/20, 90/10 or other mutually satisfactory application) and Long-Term Leave of Absence Program in effect from previous staff reductions available to mitigate the lay-off.

The Company also agrees to meet with the Union for the purpose of discussing voluntary severance options, or other means mutually agreeable to the parties in an effort to further mitigate the lay-off.

Dear Mr. Blais:

Subject: Introduction of Non-Certificated Station Agents I and
Non-Certificated Station Agents II

Discussions during this round of negotiations have concluded in agreement that the introduction of non-certificated Station Agents I and non-certificated Station Agents II will have no impact on the seniority privileges of Station Agents I and Station Agents II having a seniority date prior to January 8, 1988.

Furthermore, Station Agents I and Station Agents II holding these grandfather rights will, when transferring or bumping or recalling, etc., into the non-certificated agent classifications, retain their original status (i.e., wages, benefits, etc.)

Additionally, current Station Agents I and Station Agents II will remain on their original seniority list(s) as well as a corresponding non-certificated agent list(s). The seniority date(s) to be used on this non-certificated agent list(s) will be the seniority date(s) on the original list(s).

Finally, non-certificated Station Agents I and non-certificated Station Agents II will not be introduced at a point while the weight and balance function is being performed at that point.

Yours very truly,

S.L. Belding

Dear Mr. Blais:

Subject: Pension Plan (Publication 712)

Discussions during this round of negotiations have resulted in an agreement for those employees covered by this Collective Agreement that the effective date of the Canadian Pension Reform as described in the Pension Benefit Standards Act, 1985 and Regulations will be January 1, 1987 rather than June 28, 1987 for all active members who are in classifications covered by this Collective Agreement as of June 28, 1987. July 20, 1999

Mr. J. Coller
General Chairperson, Western Region
District Lodge 140, IAMAW
11-395 Berry Street
Winnipeg, Manitoba
R3J 1N6

Dear Mr. Coller:

During the 1999 round of contract negotiations, considerable discussion occurred with respect to Union Agenda Item U17c) - Promotional Bulletins (Categories 1 and 38) and the concern related to new employees hired with AME's with aircraft type endorsements operated by the Company and their immediate eligibility for AMI approval. Agreement was reached on the following principles:

- There is a need to revise the current process to become qualified and promoted to Categories 1 and 38.
- The new process must ensure that employees are not prevented from applying for promotion or disadvantaged with respect to seniority as a result of delayed endorsement course training.
- The new process must provide for an ability to fill Category 1 and 38 vacancies on an ongoing basis.
- There is a need to jointly communicate the new process, procedures, conditions and requirements.
- There is a need to address current employee situations and provide reasonable opportunities to react.
- There is a need to identify a timeline for introduction.
- Concepts discussed include the following:
 - ° TCT, AMI applicants and qualified mechanic lists and the guidelines for their application.
 - ° Granting of a CAT seniority date coincident with the date of the AMI application approval.
 - ° Retaining a CAT seniority date, as referenced above, following successful application to a Promotional Bulletin.
 - ° The requirement to complete the LOU #4 process, Chapters 1-4 and Transport Canada AME requirements, prior to AMI application approval.
 - ° A system that provides current employees the ability to apply for promotional bulletins and the associated seniority date prior to having all the required qualifications. These individuals would be required to complete the

qualifications in a timely fashion or would forfeit their eligibility for the promotional bulletin.

.... 2

2

° The need to address future qualified CAT resources in light of attrition and potential additional work requirements.

° The changes to Transport Canada regulatory requirements scheduled for introduction in the near future. Subject to the ratification of our new Collective Agreement, it was agreed that this matter would be addressed by the following Committee:

T. Raby

J. Coller

F. Szemenyei

Five (5) Union Representatives

M. Barrette

B. Adamache

B. Clinch

B. Wurster

This Committee will meet, as required, during the week of September 7, 1999 and be committed to complete a finalized proposal for presentation and approval, through the agreed to process, at our September, 1999 UMCM.

Joint communication of the new processes and implementation will be complete by November 30, 1999.
