The parties will agree to a list of arbitrators to whom grievances may be referred. This list may be amended by mutual agreement (see Appendix E). The decision shall be final and binding upon both parties and shall be made

without precedent or prejudice to similar or like cases. The arbitrator shall not have the power to change the Collective Agreement or to alter, modify or amend any of its provisions.

- (b) To maintain the efficiency of such a process, the parties agree not to use outside legal counsel to argue a case or to call any evidence at expedited arbitration.

The parties also agree to prepare a joint statement of facts at least five (5) days prior to the scheduled hearing date.

11.14 Sole Arbitrator v. Board of Arbitration

Where the parties agree to a Board of Arbitration, the party referring the grievance to arbitration shall also provide the name of that party's nominee to the Board of Arbitration. Within ten (10) days thereafter, the other party shall answer by registered mail indicating the name and address of its nominee to the Board of Arbitration. The selection of the Chair shall be in accordance with the list of arbitrators as set out in Appendix "E".

11.16 Arbitration Procedure

The arbitrator/Board of Arbitration may determine its own procedure, but shall give full opportunity to all parties to present evidence and make representations in order to determine the issue in dispute.

11.17 Decision

- (a) The decision of the majority shall be the decision of the Board of Arbitration. Where there is no majority decision, the decision of the Chair shall be the decision of the Board of Arbitration. The decision of the Board of Arbitration shall be final and binding and enforceable on all parties, but in no event shall the arbitrator/Board of Arbitration have the power to change the Collective Agreement or to alter, modify or amend any of its provisions.

- (b) The arbitrator/Board of Arbitration shall have the power to modify any penalty imposed by NAV CANADA and in that regard take whatever action is just and equitable in the circumstances.

11.18 Arbitrability

- (a) It is understood that no matter may be submitted to arbitration which has not been properly carried through the grievance procedure. The arbitrator/Board of Arbitration shall have jurisdiction to determine whether a grievance is arbitrable.
- (b) The arbitrator/Board of Arbitration may extend the time for taking any step in the grievance process or arbitration procedure, even after the expiration of the time, if the arbitrator or Arbitration Board is satisfied that there are reasonable grounds for the extension and that the other party would not be unduly prejudiced by the extension.

11.19 Location of Arbitration Hearing

The arbitration hearing shall be held at the city where the work site of the grievor is located and where the circumstances giving rise to the grievance occurred, unless the parties agree otherwise.

ARTICLE 12

DISCIPLINE

12.01 Corrective Discipline

Generally, discipline is intended to correct undesired behavior and conduct and, where appropriate, shall be progressive in nature. The process leading to, and including, the imposition of discipline shall be completed expeditiously.

12.02 Interview and Representation

Prior to any interview which might be the basis of disciplinary action, the employee will be informed of the date, time, location and purpose of the interview and their entitlement to have a Union Representative of their choice in attendance. The unavailability of the Union Representative of choice will not delay the meeting more than forty-eight (48) hours from the time set for the meeting in the original notice to the employee. At the interview the employee and the Union Representative may make representations and ask questions concerning the events and circumstances. Requests for an earlier meeting date will be subject to mutual agreement.

12.03 Notification of Disciplinary Action

The employee and the Union Representative shall be notified in writing of any disciplinary action, except an oral warning, taken against the employee by NAV CANADA within a reasonable period of that action having been taken.

12.04 Copy of Disciplinary Notice

Where any disciplinary notice is placed on an employee's personnel file, a copy of such letter or note must be presented to the employee and to the Union Representative or sent by registered mail to their last known address within forty-eight (48) hours of its placement on the employee's personnel file.

12.05 Prohibition on Use of Documentation

NAV CANADA agrees not to introduce as evidence in a hearing relating to disciplinary action any document from the file of an employee, the existence of which the employee was not aware at the time of filing or within a reasonable period thereafter.

12.06 **Sunset Clause**

Notice of disciplinary action which may have been placed on the personnel file of an employee shall be destroyed after two (2) years have elapsed since the disciplinary action was taken provided that no further disciplinary action has been recorded during this period. The employee shall be notified orally when such notice has been destroyed.

12.07 **Conflict of Interest**

It is agreed that where there is the possibility of a conflict of interest the employee shall be afforded the opportunity to have his or her Union Representative meet with NAV CANADA to discuss the possible conflict of interest before a decision is given by NAV CANADA on the matter.

ARTICLE 13

JUST CAUSE

13.01 No employee shall be disciplined or terminated except for just cause. However, the termination of a probationary employee for non-disciplinary reasons may be carried out at the discretion of NAV CANADA at any time during the probationary period. NAV CANADA's discretion must be exercised in good faith, without discrimination and in a non-arbitrary fashion.

ARTICLE 14

NO DISCRIMINATION OR HARASSMENT

- 14.02 Grievances arising from Article 14.01 shall first be dealt with through an alternate dispute resolution process (ADR) as agreed to by the parties. Once alternate dispute resolution mechanisms are agreed to by the parties, the grievance will be held in abeyance pending the results of the ADR process. Furthermore, employees are precluded from other avenues of redress, save and except applicable legislative procedures, until the ADR process has concluded. The ADR process shall not result in any unreasonable delay.
- 14.03 Any level in the grievance procedure shall be waived if a person hearing the grievance is the subject of the complaint.

ARTICLE 15

OPERATING IRREGULARITIES

15.01 Representative Rights

At any administrative inquiry, hearing or investigation conducted by NAV CANADA into an operating irregularity, where the actions of an Air Traffic Controller may have had a bearing on the events or circumstances leading thereto, and the Controller is required to appear at the administrative inquiry, hearing or investigation being conducted into such irregularity, he or she may be accompanied by a Union representative of his or her choice. The unavailability of the Union Representative of choice will not delay the inquiry, hearing or investigation more than forty eight (48) hours from the time set for the meeting in the original notification to the employee. Requests for an earlier meeting date will be subject to mutual agreement.

15.02 Circumstances of Proceeding

The Controller and his or her representative may require NAV CANADA's representative in charge to state the circumstances leading to the inquiry, hearing or investigation by NAV CANADA before the Controller is required to answer any questions put to him or her.

15.03 Participation

The Controller and his or her representative may make representations and direct questions concerning the irregularity or events and circumstances leading thereto, to NAV CANADA's representative in charge in any Company inquiry, hearing or investigation.

15.04 Notification of Completion

- (a) NAV CANADA shall notify the Controller and where applicable his or her representative, of the completion of the report of a Company proceeding pursuant to clause 15.01 of this agreement. Such notification shall be in writing and shall stipulate that an immediate opportunity will be provided to the Controller, and where applicable his or her representative, to read the report, including the findings of the investigation, and to take such personal notes as they deem necessary.

- (b) Subsequent opportunities to read the same report and findings will be provided to the Controller, and where applicable his or her representative, upon written request.

15.05 Pay and Hours of Work

- (a) A Controller called as a witness, or his or her representative, shall suffer no loss of normal pay while appearing before an administrative inquiry, hearing or investigation relating to an operational irregularity.
- (b) A Controller, called by a NAV CANADA inquiry as a witness outside of his or her scheduled hours of work, shall be compensated at the appropriate overtime rate.
- (c) A Controller having primary involvement in an operating irregularity will not be scheduled to perform his or her operational duties on a shift during the same day or on a shift where his or her majority of hours fall on the day of an interview.

15.06 Restricted Information

NAV CANADA agrees to treat live or recorded video and audio, computer readouts of ATC operations, and transcripts of audio recordings as restricted information, not normally available to the public unless required by law. However in cases where NAV CANADA's legal counsel has determined that there will be no Company involvement in any subsequent civil litigation NAV CANADA may, after consultation with the Union, permit lawyers to make their own transcript under supervision.

15.07 Participation in Operations Safety Investigations (OSI)

It is agreed that an operating controller will be named as a member of any NAV CANADA operations safety investigation – level 2 or 3 to investigate an operating irregularity.

15.08 Review of Tapes and Readouts

- (a) A controller required to appear before any NAV CANADA inquiry, hearing or investigation shall, in the company of his or her representative if he or she so desires, but under supervision, be allowed to review any relevant video and audio recordings and computer readouts of ATC operations where available. In addition, the controller shall be provided with a transcript of relevant audio recordings. The foregoing shall take place prior to the controller

being required to answer questions put to him or her by NAV CANADA's representative.

- (b) Where possible, NAV CANADA shall permit a controller and his or her representative the same access set out in (a) above prior to a non-Company inquiry, hearing or investigation with respect to an operating irregularity.

15.09 Use of Recorded Information

The parties agree that recorded video and audio, computer readouts of ATS operations and transcripts of audio recordings are intended to provide a record of such communications for use in the monitoring of ATS operations and the investigation of operating irregularities, infractions, incidents or accidents. The parties further agree that as such, these recordings, readouts or transcripts are not normally intended to provide evidence before third parties, except that:

- (a) NAV CANADA may use such recordings, readouts and transcripts as evidence before third parties in disciplinary or non-disciplinary cases involving a controller's competency;
- (b) in the event that NAV CANADA wishes to use such recordings, readouts and transcripts before a third party pursuant to a) above, such recordings, readouts and transcripts shall be first reviewed with a National Representative of the Union; and
- (c) such recordings, readouts and transcripts may be used in the review of a controller's disciplinary or non-disciplinary competency.

15.10 Operating Irregularity

- (a) Where an operating irregularity occurs that could be the subject of an investigation, and where the circumstances that gave rise to the operating irregularity are not as a result of wilful misconduct or gross negligence on the part of an air traffic controller, and where as a result of that operating irregularity the employee's air traffic control license is suspended, excluding suspension of the Medical Certificate, by a regulatory agency, then the employee shall suffer no loss of his or her normal pay for up to 30 calendar days, during such period of licence suspension. It is acknowledged that the controller will be assigned other related duties during such period of suspension.
- (b) No OSI report or information gathered in an OSI process shall be used for disciplinary purposes.

- (c) No OSI report shall be used in any hearing related to competency.
- (d) If an irregular occurrence has taken place, managers shall immediately arrange for the removal, from operational duties, of any controller directly involved in the occurrence until the circumstances have been fully examined.
- (e) Removal from operational duties is mandatory and is always applicable except where it is immediately clear and obvious to both the controller and the manager that the incident was caused solely by external influences and that the full responsibility rests elsewhere. This action shall be taken without prejudice and shall not be considered as punitive or disciplinary.

15.11 Prohibition on Use of Documentation

NAV CANADA agrees not to introduce as evidence in a hearing relating to competency any document from the file of an employee, the existence of which the employee was not aware at the time of filing or within a reasonable period thereafter.

15.12 Legal Representation

NAV CANADA shall provide legal advice and assistance to an employee who is required to appear at a coroner's inquest or judicial/magisterial inquiry, Transportation Safety Board or Transport Canada Investigation, or who is a party to civil legal action, arising out of the performance of the employee's duties as an air traffic controller.

- (a) In the circumstances outlined above:
 - (i) if the employee so desires, the employee may select legal counsel of his or her choice and the legal fees for such representation shall be borne by the employee;
 - (ii) in the event that a conflict of interest arises, the Union and/or the employee may select legal counsel of their choice to represent the employee and the legal fees for such representation shall be their responsibility. In the event that the final determination after all appeals, exonerates the employee or does not ascribe fault or blame to the employee, NAV CANADA will reimburse the Union and/or the employee for all reasonable legal fees.

- (b) A grievance arising from the application of this clause shall begin at the final step of the grievance procedure.

ARTICLE 16

HOURS OF WORK

Operating Employees

16.01 Hours of Work

- (a) Thirty-six (36) hours per week, averaged over a fifty-six (56) day period, shall constitute the workweek.
- (b) The hours referred to in (a) above, are inclusive of a mandatory fifteen (15) minute briefing period in which the employee shall prepare himself or herself to assume his or her duties prior to the commencement of each shift.

16.02 Shift Cycle

Shift cycles for operating employees shall be as follows:

- (a) The "17/11 shift cycle" for operational controllers shall conform to the following:
 - (i) shift cycles shall be comprised of seventeen (17) days of work and eleven (11) days of rest over a 28 day period;

- (b) The "34/22 shift cycle" for operational controllers shall consist of the following:

 - (i) Four days on, starting on a Monday, followed by three days off; four days on, three days off; four days on, three days off; five days on, two days off ; or
 - (ii) Four days on starting on a Tuesday, followed by three days off; four days on, three days off; four days on, two days off; five days on, three days off.

Either shift cycle in (c) (i) or (ii) may be used as required by the Employer but shall not exceed 10% of the control requirement in the unit/specialty.

- (d) The shift cycles worked by Unit Operations Specialists shall be determined by NAV CANADA and shall be either:
 - (i) four (4) days on, starting on a Monday three (3) days off; four (4) days on three (3) days off; four (4) days on three (3) days off; five (5) days on two (2) days off, or
 - (ii) four (4) days on, starting on a Tuesday three (3) days off; four (4) days on three (3) days off; four (4) days on two (2) days off; five (5) days on three (3) days off.

(e) **Shift Cycle Optimization**

NAV CANADA may, from time to time, after consultation with the local branch, optimize shift cycles at a unit/specialty in accordance with the following procedures:

- (i) No later than 90 days prior to the optimization change, each employee shall choose either a 17/11 pattern or a 34/22 pattern as described in 16.02 (a) and 16.02 (b)(i) and (ii).
 - (ii) Employees may also indicate if they have an interest in the shift cycles listed in 16.02(c), should the optimization result in the generation of such shift cycles.
 - (iii) No later than 60 days prior to the change, the Employer shall publish a shift schedule based on the employees' selection as set out in (i) above.
 - (iv) Employees shall then be entitled to choose among the available shift cycles, in order of seniority, provided they are consistent with their choice made in (i) above. These selections must be completed no later than 30 days prior to the change. Individuals failing to make a selection will be assigned a shift cycle.
 - (v) Should the schedule include shift cycles as listed in 16.02(c), they will be assigned in seniority order to employees who had indicated an interest in such cycles. Should there be an insufficient number of such interested employees, the remaining cycles of this nature will be assigned to employees in the unit/specialty in reverse seniority order.
 - (vi) NAV CANADA will not modify the above assigned shift cycles between two optimization changes, except for those amended in accordance with 16.03.
 - (vii) The minimum time period between optimization changes shall be 12 months unless agreed otherwise by the parties.
- (f) Availability of controllers for overtime shall be the same for employees who adopt the "34/22 shift cycle" as employees on the "17/11 shift cycle" (65 days annually), even though this means that employees in the former group will not always enjoy two consecutive days of rest.

- (g) There will be no gain or loss of pay or hours in transitioning to or from either of these shift cycles.
- (h) When an employee fully qualifies in a unit or specialty and is to be assigned a new shift cycle, the assignment of the new shift cycle within the work unit shall be as follows:
 - (i) the new shift cycle shall be made available for voluntary selection by all employees in the unit or specialty (including the newly qualified employee) on the basis of seniority; and
 - (ii) should the new shift cycle be selected by any employee, the cycle vacated by that employee shall be made available to the remaining employees on the basis of seniority (NOTE: this same process may be iterated further if and as locally agreed between the parties); and
 - (iii) notwithstanding their seniority, any employee who selects a shift cycle under (i) or (ii) will be ineligible for any future selections under this clause for a period of 12 months from the date of selection; and
 - (iv) the newly qualified employee shall be assigned the last vacated cycle except where it is not of the same type (17/11 or 34/22) chosen by the newly qualified employee. In that latter circumstance, a cycle conforming to that chosen by the newly qualified employee will be created and assigned to the newly qualified employee; and
 - (v) If none of the existing staff select the new shift cycle, the new shift cycle shall be assigned to the newly qualified employee.

The voluntary selection of a shift cycle under this process shall not give rise to any claim for additional compensation (including leave, overtime, etc.) arising as a direct consequence of the change which would not have occurred had he/she maintained his/her previous cycle

- (i) When a new controller is to be assigned a shift cycle in accordance with clause (h) above and there is a more senior controller who has been involuntarily assigned a shift cycle listed under 16.02 (c) and who wishes to be relieved of that cycle, the new less senior controller will be assigned the shift cycle listed under 16.02 (c) and the more senior controller will have a new shift cycle generated that will be subject to clause (h).

- (j) When the employer determines that a vacated shift cycle needs to be filled, the employer shall apply the process used in (h)(i)(ii) and (iii). For greater clarity, an employee who makes a cycle selection under (h) or (j) will be ineligible for any future selections under either of these sub-clauses for a period of 12 months from the date of the selection.

16.03 Changes to an Employee's Shift Cycle

- (a) Where an employee is required to attend a training program inside of his or her headquarters area, NAV CANADA may amend the shift cycle applicable to an employee for the purpose of providing training to employees, provided that;
 - (i) such amendments shall not be made without at least fifteen (15) calendar days' notice to the employee affected and,
 - (ii) in any vacation year as defined in 27.07(a) not more than five (5) of each employee's days of rest may be converted to working days, and,
 - (iii) each day of rest converted to a working day in accordance with paragraph (ii) above shall be rescheduled as a day of rest to be contiguous to a period of days of rest. This reimbursement must be completed within sixty (60) days of the date the converted day of rest would have occurred had the shift cycle not been amended, and,
 - (iv) the employee shall be compensated for converted days of rest not scheduled in accordance with this Article or not rescheduled in accordance with paragraph (iii) at the overtime rate.
- (b) Where an employee is required to attend a training program outside of his or her headquarters area, for a period of less than thirty (30) consecutive calendar days, NAV CANADA may amend the shift cycle applicable to the employee for the duration of the training period. No overtime shall be payable for such a change in shift cycle, except that overtime compensation shall be payable for all hours worked in excess of those stipulated under clause 16.01 as a result of the change. The days of rest converted to working days under this clause shall be in addition to the five (5) days specified in clause 16.03(a)(ii). For the purpose of this clause, meal and relief breaks are exclusive of the hours stipulated in Clause 16.01.

- (c) In order to balance the schedule, NAV CANADA may amend an employee's shift cycle where the requirement for amendment will be consistent for thirty (30) consecutive calendar days or more, and notice of the change is provided to the employee at least fifteen (15) calendar days prior to the change. No overtime compensation shall be payable for such a change in shift cycle, except that overtime compensation shall be payable for all hours worked in excess of those stipulated under clause 16.01 as a result of the change.

Prior to altering an employee's shift cycle, NAV CANADA will attempt to accomplish the change by using volunteers. If there are no volunteers, the cycle of the employee with the least seniority may be changed.

- (d) When an employee is required to undergo remedial training specifically recommended by an operations safety investigation or an Administrative Inquiry, NAV CANADA may amend the employee's shift cycle for the period of such training. No overtime compensation shall be payable for such a change in shift cycle, except that overtime compensation shall be payable for all hours worked in excess of those stipulated under clause 16.01 as a result of the change.
- (e) It is understood that certain employees, may be required to change their shift cycle for varying periods of time in order to carry out non control duties. When such change is required, the cycle shall be determined by NAV CANADA and shall be either:
 - (i) four (4) days on, starting on a Monday three (3) days off; four (4) days on three (3) days off; four (4) days on three (3) days off; five (5) days on two (2) days off, or
 - (ii) four (4) days on, starting on a Tuesday three (3)days off; four (4) days on three (3)days off; four (4) days on two (2) days off; five (5) days on three (3) days off.
 - 1. No change in such an employee's cycle will be made unless the requirement to change is consistent for thirty (30) consecutive calendar days or more.
 - 2. Advance notice of such requirement which will involve a change in the employee's cycle should be given at least fifteen (15) calendar days prior to the earliest date that the changed circumstances may commence. If notice of the change is less than fifteen (15)

calendar days, the employee shall be paid a premium of four (4) hours' pay at the straight-time hourly rate for each shift or day worked during the period of the change for which he or she had not received fifteen (15) calendar days' notice.

3. Employees shall receive fifteen (15) calendar days notice when they are required to return to their original shift cycle. The employee may be returned to control duties before the expiry of that notice period. With mutual agreement between the employee and the manager, the fifteen (15) days notice may be waived or reduced.
4. The provisions of this clause shall not be applied to an employee for a period or periods in excess of an aggregate of eight (8) months in any twelve (12) month period.

16.04 Shift Schedules

- (a) Shift schedules shall be posted at least fifteen (15) calendar days in advance in order to provide an employee with reasonable notice as to the shift he or she will be working. The shift as indicated in this schedule shall be the employee's scheduled hours of work.
- (b) If it is necessary to amend the posted schedule, NAV CANADA will make every reasonable effort to contact the employee affected by the amendment to advise him or her of the change at the earliest possible opportunity. If the employee has serious objections to the amendment, NAV CANADA shall make every reasonable effort to accommodate the employee provided that it will not result in any additional overtime payments than would have otherwise been the case if the employee had not been so accommodated.
- (c) An employee who is required to change his or her scheduled shift without receiving at least seven (7) days' notice shall be compensated at the rate of time and one-half (1 1/2) for all hours worked on the first shift on the revised schedule which are outside of the employee's original scheduled hours of work. Subsequent shifts worked on the revised schedule shall be paid for at the straight-time rate.

In addition to the above where an employee's scheduled shift is changed with less than seven (7) days notice and the reason for the change is due to circumstances within the control of the

Company, time and one half (1-1/2) will be paid for all changed hours worked on the revised schedule which are outside of the employees' original scheduled hours of work

- (d) Once the current shift schedule is posted, the Employer will not unilaterally alter an employee's scheduled shift to accommodate a vacation leave or lieu leave request subsequently made by another employee.
- (e) Short change occurs when the period between the end of one shift and the beginning of the next is less than ten (10) hours.

NAV CANADA shall:

- (i) not schedule a short change, subject to the following:

With a minimum of 56 days notice prior to the posting of a new schedule the local Union in a unit (in towers) or a specialty (in ACCs) may select a short change in accordance with one of the options listed in (1) or (i2) or neither. All operational staff in the unit/specialty will be on the same option.

1. the Employer may schedule a short change where the minimum time off between shifts is not less than eight (8) hours, no more than once during each employee's "work week" (see definition).
 2. the Employer may schedule a short change where the minimum time off between shifts is not less than nine (9) hours, no more than twice during each employee's "work week". Such reductions shall not occur consecutively.
 3. Employees, at their individual option, may elect short changes provided there are at least seventy-two (72) hours between the start of a short-changed shift and the start of the next short changed shift. Notwithstanding the above, at no time can a short change be less than eight (8) hours.
- (ii) not schedule regular shifts other than 8 hours and 28 minutes in duration.
 - (iii) ensure that the employee's first scheduled shift of a "work week" shall start later than 5:29 a.m. of the calendar day on

which the “work week” begins. For clarity “first scheduled shift” refers to a day on which the employee is actually required to report to work in accordance with the schedule at the time of publication. With mutual agreement between the union and the manager at the local unit level this restriction may be modified.

- (f) NAV CANADA shall not schedule split shifts

16.05 Shift Exchanges

- (1) Equally qualified employees may exchange shifts provided:
 - (a) the provisions of clause 16.04(e)(i) or clause 20.04 are not violated,
 - (b) the employees shall make every reasonable effort to provide a minimum of twenty-four (24) hours' advance notice of the change,
 - (c) the shift change receives the approval of NAV CANADA, which shall not be unreasonably withheld,
 - (d) it will not require the payment of overtime,
 - (e) once such an exchange of shifts has been approved, it will be the responsibility of the employees involved to report for duty in accordance with the approved revision,
 - (f) if there is a difference in the length of the shifts being exchanged, NAV CANADA will only consider the original scheduled shift length when balancing the hours of work,
 - (g) balancing of hours resulting from shift exchanges will be a private matter between individuals.
- (2) An employee may exchange his/her own scheduled shift with a vacant shift on the schedule in accordance with all of the following rules:
 - (a) the provisions of clause 16.04(e)(i) or clause 20.04 are not violated;
 - (b) the employee shall make every reasonable effort to provide a minimum of twenty-four (24) hours' advance notice of the change;

- (c) the shift change receives the approval of NAV CANADA, which shall not be unreasonably withheld;
- (d) it will not require any additional payment of overtime or time off in lieu;
- (e) there is no negative operational impact;
- (f) the employee requesting a shift exchange shall be responsible for arranging the replacement for their vacated shift if management determines it is required;
- (g) the exchange must be completed on the current published schedule(s);

NOTE: At the sole discretion of NAV CANADA, the exchange set out above in Article 16.05(2) may also be approved in cases where the shift on the schedule is not a "vacant" shift.

16.06 Change in Employee Status

- (a) It is understood that certain employees may be required to change from an operating employee to a non-operating employee for varying periods of time. Subject to clause 16.03(e)ii(3) no change in such an employee's status will be made unless the requirement to change is consistent for thirty (30) consecutive calendar days or more. Advance notice of such requirement which will involve a change in the employee's status should be no less than fifteen (15) calendar days prior to the earliest date that the changed circumstances may commence. If notice of the change is less than fifteen (15) calendar days, the employee shall be paid a premium of four (4) hours' pay at the straight-time hourly rate for each shift or day worked during the period of the change for which he or she had not received fifteen (15) calendar days' notice. Such notice shall not be required nor is the premium payable when the employee concerned is promoted or is acting in a higher level position or the change is in response to the employee's request.

This clause does not apply to an Air Traffic Controller-in-Training prior to the completion of his or her ab-initio training

- (b) This clause shall apply to non-operating employees training for operating positions. When undertaking initial classroom/simulation training, the status of these controllers will be non-operational for all purposes. Once these controllers begin on-job training, their status

will change to operational for all purposes except that their rate of pay and ATC Premium shall remain unchanged. Notwithstanding any returns to classroom/simulation training thereafter, these controllers will not be subject to additional status changes while undertaking this training. If unsuccessful in training and re-assigned elsewhere, the controller's status shall become that which is appropriate to the new position.

16.07 Meal and Relief Breaks

Where operational requirements permit, NAV CANADA will provide operating employees with meal and relief breaks.

Non-Operating Employees

16.08 Hours of Work

- (a) Thirty-seven and one-half (37 1/2) hours exclusive of lunch periods shall constitute the normal workweek for non-operating employees.

Hours of work and overtime for non-operating employees will be averaged over a 365 day period ending December 31st.

The normal regular hours of work shall consist of 7.5 hour shifts on each of Monday through Friday between the hours of 0700 and 1800 (or between 0700 and 2400 for instructors) with no split shifts. All other hours are overtime, subject to the following exception:

- (i) Non-operating employees required to work outside their normal place of work may be scheduled to work outside the regular day-shift hours (0700 to 1800). Such hours shall be assigned equitably among employees at the location qualified to perform the work. When a regular shift is scheduled in whole or in part outside these regular day-shift hours, the employee shall be awarded time off in lieu in a ratio of one shift for every 5 shifts so scheduled. Such banked time off will be governed by the same rules applying to time off in lieu of overtime (Art. 20). Employees subject to this clause (i) shall have the benefit of the short notice shift change provisions as set out in Art. 16.04(c).
- (ii) Solely upon a written request initiated by an employee, and with the concurrence of management and the local union representative, the employee's regular shift start time may be changed to a fixed time falling between the hours of 0530 and 0659. Agreement to this effect shall be reduced to

writing and subject to cancellation by any party upon thirty (30) days' notice.

(b) **Attendance Registers**

Non-operating employees will submit weekly attendance registration only to report leave or overtime.

(c) **Compressed Work Week**

Management may authorize each non-operating employee to vary the normal schedule of daily and weekly hours to be worked provided that in doing so the employee works an average of 37 ½ hours per week over a 365 day period ending December 31st, and provided that the maximum number of straight time hours scheduled on any given workday will not exceed 8 hours and 20 minutes. 32.23 Second Language Proficiency

Notwithstanding paragraph 32.22, an employee hired on the basis that he or she will acquire a second official language during employment will be deemed to be on probation until such time as the employee has successfully met the condition. In this case the probationary period may be extended by NAV CANADA by a period equivalent to the accumulated regular work time taken by the employee in language training.

EMPLOYMENT SECURITY

33.01 Early Identification of Surplus Situations

In the event of a reduction in the workforce the following provisions shall apply for the early identification of a potential displacement situation:

- (a) potential job displacement situations include lack of work, facility closure, economic downsizing, technological change, organizational change, contracting out, or any other action that may result in a job displacement situation; and
- (b) where NAV CANADA identifies potential job displacement situations it shall notify in writing the Union at the national level at the earliest possible opportunity.

33.02 Meaningful Union/NAV CANADA Consultation

Meaningful Union/NAV CANADA consultation shall begin:

- (a) following notice to the Union of potential job displacement and prior to any letters of vulnerability being given to any employee;
- (b) with the intent to minimize adverse consequences of job displacement, and resolve surplus situations without layoff, through the development of a human resource transition plan if the number of employees affected is ten (10) or more or if all the employees in a location are affected. Any human resources plan so developed shall be provided to the Union. Areas of consideration by NAV CANADA shall include, but are not limited to the following:
 - (1) elimination of casuals and term or temporary employees;
 - (2) voluntary methods, including job exchange, transfers to vacant positions at equivalent levels, and retraining;

- (a) vulnerable employees will be sent formal notice of their vulnerable status and options will be explored with the employee on an individual basis and such discussions shall take place within thirty (30) days of receipt of notice;
- (b) the employee shall receive a formal notice of surplus status at least six months prior to layoff date (surplus period), copied to the Union; and
- (c) in the event that two (2) or more employees at the same level and location are vulnerable or surplus and all cannot be assigned under the present article or Article 32.05 Priority Placements, lay-off shall be by reverse order of seniority.
- (d) if NAV CANADA and the employee have been unsuccessful in finding an appropriate job opportunity within NAV CANADA at the end of the surplus period, the employee may choose layoff with recall rights, or accept a NAV CANADA departure incentive program. NAV CANADA reserves the right to offer a departure incentive program during the surplus period. An employee with fifteen (15) or more years of continuous service shall not be required to accept an assignment that would require the employee to relocate. In this last case if the employee refuses the assignment he or she shall remain eligible for a NAV CANADA departure incentive program or lay-off with recall rights.

33.04 Decline of Reassignment or Departure Incentive

An employee who declines a reassignment or refuses the offer of the NAV CANADA departure incentive program shall be laid off and his or her name shall be inscribed on a recall list.

33.05 Position Exchange Provision

the qualifications of the employee subject to the lay-off, the position, level and requirements, its location and costs. The employee accepting termination shall be entitled to the NAV CANADA departure incentive program.

- (b) In the event that layoff at a particular location is the result of technological change NAV CANADA will accept the offer of resignation by an equally qualified employee at that location for the purpose of providing a position and continued employment to the person subject to layoff. The employee accepting termination shall be entitled to the NAV CANADA departure incentive program.
- (c) In the event that layoff not confined to a particular location is the result of technological change NAV CANADA will accept the offer of resignation by an equally qualified employee for the purpose of providing a position and continued employment to the person subject to layoff. The employee accepting termination shall be entitled to the NAV CANADA departure incentive program.

NOTE Articles 33.05(b) and (c) will apply until the expiry of the collective agreement.

33.06 Unsuccessful in Training

A surplus employee unsuccessful in training shall be eligible for the option provided for in paragraph 33.03 (d) above. In this case the training period is deemed to be included in the surplus period. However, if the training period extends beyond the surplus period, the notice of surplus is deemed to have been extended. If the employee decides to remain with NAV CANADA during the balance of his or her surplus period, the employee shall remain eligible for a position assignment under the original plan.

33.07 Recall

Recall to a position shall be by order of seniority among the qualified employees laid off from the same or higher level and in accordance with Article 32.05 (Priority Placements). Relocation expenses shall be paid to a recalled employee as required.

If no position at the same level in the region is available, the employee may elect to accept an assignment in another region with relocation expenses or accept the NAV CANADA departure incentive program. The employee shall be considered a vulnerable or surplus employee for purposes of the priority placement provisions in Article 32.05. If the employee is not reassigned or does not accept the NAV CANADA departure incentive program he or she shall be subject to lay-off.

33.12 Contracting Out

In the event of contracting out, a surplus employee shall be entitled to reassignment to a position at the same or lower level in the region with relocation expenses. If no position at the same or lower level in the region is available and regardless of the level of the employee's position, the employee may elect to accept an assignment to a vacant position at the same or lower level in another region with relocation expenses or accept the NAV CANADA departure incentive program. If the employee is not reassigned or does not accept the NAV CANADA departure incentive program he or she shall be subject to lay-off.

34.02 Severance benefits payable to an employee under this Article shall be reduced by any period of continuous employment in respect of which the employee was already granted any type of termination benefit by the Public Service or NAV CANADA. Under no circumstances shall the maximum severance pay provided under clause 34.01 be pyramided.

APPENDIX "G"

MEMORANDUM OF AGREEMENT BETWEEN NAV CANADA AND THE CANADIAN AIR TRAFFIC CONTROL ASSOCIATION CATCA UNIFOR LOCAL 5454

The parties agree that it may be operationally advantageous to implement work schedules for operating employees that vary from Article 16. Accordingly, NAV CANADA agrees to consult with CATCA Unifor Local 5454 during the closed period of this Collective Agreement in order to consider the practicality of instituting such work schedules on a trial basis.

It is further agreed that the implementation of any such variation in hours shall not result in any additional overtime work or additional payment by reason only of such variation nor shall NAV CANADA's right to schedule any hours of work permitted by the terms of the collective agreement be restricted.

Notwithstanding the provisions of the CATCA Collective Agreement, NAV CANADA and CATCA Unifor Local 5454 agree that special hours of work arrangements may be implemented at certain work locations of NAV CANADA subject to all of the following considerations:

- (a) normal scheduled hours of work must average of thirty-six (36) hours per week, scheduled over a period not exceeding fifty-six (56) days;
- (b) normal scheduled hours of work shall not be less than six (6) hours per shift, and shall not exceed ten and one half (10.5) hours per shift;
- (d) any special arrangement applicable to a work location is restricted to that location and shall apply to all employees of the location;
- (e) any special arrangement may be at the request of either party and must be mutually agreed between NAV CANADA and the majority of employees affected;
- (f) any special arrangement shall be subject to the approval of regional management and authorized bargaining agent representative at the regional level;
- (g) where a special arrangement is not approved at the regional level, the matter shall be referred to NAV CANADA and the bargaining agent at the national level for consultation.

The special arrangement which has been implemented at a work location under the provisions of this Memorandum of Agreement may be discontinued sixty (60) days following written notice from either party, or earlier if mutually agreed.

The introduction or discontinuation of any special arrangement may require a shift cycle optimization and such optimization shall not be subject to Article 16.02(e)(i) and Article 16.02(e)(vii).

LETTER OF UNDERSTANDING 1999-01

Re: Midnight Shifts

This letter is to confirm that effective January 1, 2000 in accordance with Conciliation Commissioner Burkett's recommendation of May 17, 1999, NAV CANADA will not schedule single controller coverage on the midnight shift at any ACC or Tower except where the parties agree to some other arrangement in respect of a particular location.

LETTER OF UNDERSTANDING 1999-06

Re: Maintenance of Salary

This is to confirm an understanding reached during the current negotiations in respect of removal from active control duties for medical reasons.

Provided a controller has performed active control duties for NAV CANADA (or in the case of a "continued employee" for NAV CANADA and Transport Canada) for a period of five (5) years and is no longer able to perform active control duties due to medical reasons, it was agreed that the individual involved would suffer no loss of his or her normal pay for a minimum of one (1) year. Subject to paragraph 4 this one (1) year period will commence on the date on which the medical endorsement of his or her air traffic controller licence is revoked or sixty (60) days following the first day that the employee ceased to exercise active control duties as a result of being on sick leave, whichever is earlier. This maintenance of salary would be conditional upon the employee first performing other duties related to his or her technical background and/or experience as assigned by NAV CANADA for which the employee is medically qualified. If the employee is unable to perform such duties because of medical reasons or if no alternate duties are available then he or she must utilize all earned leave credits during the maintenance of salary period referred to above.

The total maintenance of salary provided under this letter shall not exceed one (1) year during an employee's total period of employment within NAV CANADA and its predecessor the Public Service unless, through consultation on individual cases, the parties agree to an extension of salary maintenance.

An employee will not be placed on maintenance of salary if the employee has sufficient sick leave credits to cover the period of his or her absence and the employee's LVC is not affected.

LETTER OF UNDERSTANDING 1999-10

LETTER OF UNDERSTANDING 1999-13

Re: Retraining and Reassignment

This is to confirm an understanding reached during the current negotiations in respect to retraining and reassignment.

During the term of this collective agreement, NAV CANADA agrees to maintain the Transport Canada Retraining and Reassignment policy and guidelines and administrative procedures as amended to reflect NAV CANADA as the Employer.

LETTER OF UNDERSTANDING 2003-02

Re: Timeliness of the Provision of Sick Leave Certificates

This LOU is limited to the matter of administrative pay action and is not intended to, in any way, restrict, fetter or alter the rights of either party under Article 24 of the collective agreement.

The parties agree that it is appropriate that Sick Leave Certificates required under Article 24 of the collective agreement are to be provided in a timely fashion. It is intended that controllers who are required to provide a Sick Leave Certificate shall either do so immediately upon their return to work following an illness or injury or without delay in other cases.

Notwithstanding the above requirement, irrevocable administrative pay action shall result from the failure to provide any required Sick Leave Certificate within fifteen (15) days of it being required.

For clarity, nothing in this LOU derogates from the employer's right, in reasonable circumstances, to take administrative action where a certificate is not produced when requested.

LETTER OF UNDERSTANDING 2003-03

Re: Calculation of "Ten Days Pay"

The current Air Traffic Control collective agreement is unclear with respect to how ten (10) days pay is calculated when determining a controller's monthly entitlement to Vacations (27.01), Sick Leave (24.01) and Operational Facility Premium (OFP)/ATC Premium (19.01)

Therefore, the parties agree that :

Ten (10) days pay means the controller must receive pay for ten (10) regularly scheduled shifts;

The length of the shift is not material;

For the purposes of this calculation only, overtime shifts are counted as regularly scheduled shifts.

LETTER OF UNDERSTANDING 2003-05

Re: Gander ACC - ICAO Shift Assignments for Regular Shifts

The following shall be the regular ICAO shift assignments for regular shifts:

	Start	End
A	19:30:00	4:00:00
B	15:30:00	0:00:00
C	08:00:00	16:30:00
D	08:30:00	17:00:00
E	09:30:00	18:00:00
F	07:00:00	15:30:00
G	23:30:00	8:00:00

The shift times listed above are optimum based on known traffic patterns. Changes may occur to start times to reflect changes in traffic patterns.

The first day of a round will start no earlier than the earliest day shift on the published scheduled.

This Letter of Agreement applies to the ICAO specialty only.

Supervisors in the ICAO specialty are excluded from this Letter of Agreement.

Overtime will be assigned based on requirements and according to the collective agreement.

Due to the uniqueness of traffic patterns and geographic layout of Gander this Letter of Agreement allows for 8 hours minimum of rest between shifts as required.

LETTER OF UNDERSTANDING 2005-01

Re: Ten Hour Rule

Further to the Union's proposal to introduce opportunities to waive the ten hour rule, the parties have agreed to the following:

- (i) An employee has the responsibility to report to work, rested and prepared to perform their duties.
- (ii) The Employer will closely monitor the use of this waiver, keeping in mind that the principles of fatigue management will be adhered to at all times.
- (iii) Where either party believes that the use of this waiver results in concerns related to fatigue, degraded performance or other identified safety issues, it will give notice to the other in order to discuss in good faith, these concerns with a view to modify and/or amend the waiver provisions as required.

LETTER OF UNDERSTANDING 2005-02

Re: Ab-Initio Trainees and IFR Controllers in ITU

The parties agree that once IFR ATC Training moves from NCTI to an ITU, ab-initio trainees who thereafter begin IFR ATC Training at that ITU will not be issued a certificate of successful completion of a course in air traffic control until successful completion of the ITU portion of that training. Only upon issuance of such a certificate will these trainees become employees governed by the collective agreement. Such employees will be considered "operating employees" for the remainder of their training.

Upon the commencement of IFR ATC Training at a specific ITU, the following changes to the terms and conditions of employment of all controllers occupying, at that time or in the future, permanent positions in that ITU will take place:

1. Employees who choose to maintain or incumbents who re-validate their Medical Certificate will be assigned to the position of "IFR Controller". These employees will be "operating" for the purposes of Maintenance of Salary, the Retraining and Reassignment Program, and Pension. They will be considered "non-operating" employees for all other purposes, including but not limited to Hours of work, Overtime, Vacations and Holidays.
2. Employees without a valid Medical Certificate for whatever reason will be assigned to the position of "IFR Instructor". These employees will be considered "non-operating" employees for all purposes, including but not limited to Hours of Work, Overtime, Vacations, Holidays, Maintenance of Salary, the Retraining and Reassignment Program and Pension.
3. Incumbents who lose their Medical Certificate may choose to be placed on MOS if eligible or if not eligible, will be assigned to the position of "IFR Instructor".
4. In accordance with Clause 30.01(a), NAV CANADA will continue to pay the costs of maintaining the Medical Certificate for those employees who are assigned to the position of "IFR Controller" under this LOU.

NOTE: The same terms and conditions set out above for "IFR Controllers" and "IFR Instructors" shall apply, *mutatis mutandis*, to VFR Controllers and VFR Instructors.

LETTER OF UNDERSTANDING 2005-03

Re Maintenance of Salary – OFP – Leave Utilization

1. In accordance with arbitrator Kenneth Swan's award dated July 27, 2004, employees must utilise earned vacation or lieu leave credits during the Maintenance of Salary period (LOU 1999-06).
2. Where the end of the vacation year falls during an employee's Maintenance of Salary period, and the employee has unused vacation or lieu leave credits earned in the current year, the employee will not be paid out for such credits but will continue to utilize them during the Maintenance of Salary period in accordance with LOU 1999-06. Leave carried over from the previous year will be paid out in accordance with Article 27.07(c)(iv) and 28.05(g).
3. During the period when an employee is on maintenance of salary and is credited with lieu leave in accordance with Art. 28.05(a)(ii), such lieu leave hours will be debited from the employee, while still on maintenance of salary, only on the day of each designated holiday at the rate of 8.47 hours per holiday.

LETTER OF UNDERSTANDING 2009-01

Re: Use of Employer Facilities

This letter is to confirm our understanding reached during the current round of bargaining regarding the use of employer facilities for union business.

NAV CANADA shall permit CATCA and other unions to jointly use one space in each of the Area Control Centres (ACCs) as a union office where sufficient space currently exists or may in the future become available. NAV CANADA shall cooperate in facilitating access to communication (telephone, fax, internet, etc.) lines. The costs of installing and maintaining communication lines and equipment shall be borne by CATCA and/or other unions, as determined by those participating unions. Where such communication lines make use of NAV CANADA lines, CATCA and other participating unions shall ensure that NAV CANADA protocols are strictly followed to ensure data integrity, security, and privacy. NAV CANADA shall not make capital expenditures to create, furnish or finish the spaces. The cost of such expenditures shall be borne by CATCA and/or other participating unions, as determined by those participating unions.

In locations other than the ACCs, NAV CANADA is committed to the principle of providing useful space (including, but not limited to, the temporary use of employer's office space, training rooms, or lunch rooms) for the purposes of conducting union business on an ad-hoc basis, when such space has been requested. In addition, NAV CANADA agrees that, at a minimum, space for a locked cabinet should be provided to store union files. Concerns regarding the amount of space provided in sites other than the ACCs shall be brought to the site manager by the local union representative and shall be reviewed on a case-by-case basis with the principles of this letter in mind.

NAV CANADA may, on 60 days' written notice, reclaim any of the permanent spaces provided, subject to the commitments contained in this letter. Where such reclamation of the employer's space occurs, NAV CANADA shall reimburse CATCA for all reasonable and depreciated capital expenditures made in finishing the offices. The depreciated value shall be determined based on CRA capital cost allowance rates or NAV CANADA depreciation policy rates or 5 year straight line depreciation.

LETTER OF UNDERSTANDING 2011-01

Re: Travel and Relocation Expenses

In addition to the provisions in article 32.16, air traffic controllers may chose the following option while undergoing training for operational positions:

Temporary assistance up to a maximum of 18 months prior to qualification. This maximum assistance period may be extended by mutual agreement. This assistance will only include:

- (i) Reimbursement for rental accommodations up to a monthly maximum of \$1,000 upon submission of receipts.
- (ii) Transportation home once every 3 months of completed training in lieu of a HHT. This trip home will be to the employee's former place of duty to visit dependants living in the principal residence, or an equivalent trip for the spouse to the training location, at a time of the employee's choice during this period, work schedules permitting.

The employee will only be permitted to relocate upon qualification and this relocation must occur immediately. This may only be delayed due to children's school term and the employee will have a maximum of 30 days to sell residence.

This optional program will expire with the expiry of the collective agreement.

LETTER OF UNDERSTANDING – 2011-02

Re: Voluntary Weekend Worker Trial

During the current round of collective bargaining CATCA and NAV CANADA agreed to renew the voluntary weekend worker trial negotiated during the previous round of bargaining and established in September of 2009 and extended during collective bargaining in 2011. The trial shall be continued for the life of the current collective agreement. The following terms shall apply:

CATCA and NAV CANADA have agreed to undertake shift cycle trials whereby employee(s) agrees to work a triple 4/3, 5/2 cycle beginning on any day of the week provided scheduled days worked in each week are consecutive and include at least one of a Saturday or Sunday. This affords other employee(s) the opportunity of enjoying additional weekends off.

General Managers of each region will be authorized to enter into trials in any units/specialties that are interested (no limit), subject to local union consent, utilizing the following base criteria:

- Trials shall be for a 1-year period (taking into consideration the start/end of 56-day averaging periods)

Re: Fort McMurray Housing

Pursuant to discussions held during the current round of collective bargaining, this letter confirms our understanding of additional measures we will undertake to address the issue of housing costs in Fort McMurray.

This letter expands the commitments made by the parties in our letter of understanding of July 2010 regarding Fort McMurray.

The Company is committed to providing support in securing affordable housing through our rental suppliers and at rates negotiated by NAV CANADA.

We understand that certain employees have existing housing arrangements and encourage them to utilise our services to reduce the housing rental rates they have currently incurred.

Where assistance has been offered to the employee and the employee believes that the assistance has not provided reasonable alternatives/options, they may submit an appeal to a hardship committee. This committee will review the assistance alternatives provided to the employee to date and determine whether and what, if any, alternative or additional offers of assistance should be considered and recommended.

A terminable amount up to the value of the ATCP Level 7 premium will be provided pro rated annually. Every 2 years post qualification, the amount up to ATCP Level 7 premium will be reduced by one level until such time as it matches the ATCP premium level for Fort McMurray. The employee must reside in Fort McMurray to receive this assistance. Based on the employee's individual placement on the increment level upon check out their ATCP premium will be adjusted in accordance with the above formula.

Employees in Fort McMurray may elect to not use the assistance of NAV CANADA to secure affordable housing. Housing secured on an individual basis without NAV CANADA's assistance will not be eligible for appeal to the Hardship Committee.

The parties agree to review the housing market in Fort McMurray on a regular basis to ensure current conditions are understood and to address issues as they arise.

Re: Emergency Leave Donation

This letter will confirm our understanding reached during current negotiations that the Company and the Union would like to implement an emergency leave donation program to be administered by the Union.
