- to discourage individual Union members from sub-contracting work and hiring non-union employees;

- to ensure that shops designated as and claiming to be Union Shops are in fact fulfilling the obligations of Union Shops;
- by actively attempting to organize the non-union shops engaged in this industry;
- by ensuring that contracts signed by other Union Shops offer comparable wages and benefits.

APPENDIX "A"

In such circumstances where an employee is required to report temporarily to a marshalling point directly at the commencement of the working day, the employee shall be compensated for any additional travel time and expenses should the distance in road kilometres from his regular headquarters to the temporary marshalling point be greater than forty (40) kilometres (25 miles), using the shortest road route in any direction.

The Employer shall provide one of the following as compensation:

It is further agreed that the Employer will provide transportation and assure that the employees are covered by the Workers' Compensation Board.

Notwithstanding the aforementioned, the Employer will incur no penalty when the temporary marshalling point is within the limits of the local areas as defined in Article 7.02 herein.

At no time will the Company permit employees to use private vehicles for purposes of work assignments unless their automobile is valid for purposes of the assignment.
