B. EFFECTIVE DATES

Except where otherwise expressly provided herein, the terms and conditions of this Agreement shall become effective on the 24th day of March, 2018 and shall continue in full force and effect until Midnight on the 23rd day of March, 2023, and thereafter they shall continue in full force and effect from year to year, unless written notice of intent to terminate or amend the Agreement at the expiration of any yearly period is given by either party to the other party pursuant to this Article.

(b) During the period of negotiations for a new Agreement, the provisions of Section 50(b) of the *Canada Labour Code* shall be in effect.

D. TERMS USED IN AGREEMENT

Wherever the singular or masculine is used in this Agreement, it shall be deemed to include the plural or the feminine wherever the context so requires.

ARTICLE 1 - NON-DISCRIMINATION

1.01 The Employer and the Union members of the Company endorse the United Nations Declaration of Human Rights, and in recognition thereof incorporate in their Agreement, the following two clauses:

- (a) That equal pay for the same work be paid to male and female employees.
- (b) That employment within the Company shall be equally available to all without distinction of race, creed, colour, religion or sex.

ARTICLE 2 - SCOPE AND RECOGNITION

2.01 Bargaining Agent

The Company recognizes the Union as the sole and exclusive bargaining agent for those employees covered by the Union's certification.

2.02 Payroll Inspection

The President or an appointee of the Union may, by appointment, inspect the payroll of the Employer as to time and pay of the employees affected by this Agreement.

2.03 Non-Union Workmen

Members will not be allowed to work with non-union workmen of any craft except under the instruction of the President or an appointee of the Union.

2.05 Union Discipline

The Union reserves the right to discipline its members for violation of its laws, rules or agreement.

2.06 Removal of Conditions

No provision in this Agreement shall be used to remove working conditions or reduce wages presently in force.

- (c) Employees shall be entitled to review their personnel files upon request and with reasonable notice of at least one (1) week to the Company.

The Company shall remove disciplinary records from the employee's personnel file that are two (2) years or older, except for those considered to be serious by the Company.

2.08 Work Jurisdiction: Technical Employees

(a) Purpose

The purpose of this Article is to present in detail the areas and categories of work which are to be performed exclusively by Technical Employees covered by this Agreement.

"Technical Employees" means Foremen, Journeyman Technicians, Installers, Apprentices and Technical Field Representatives.

(b) The Company's Cable System - Definition

For the purposes of this Article, "The Company's Cable System" shall be understood to mean the following:

- (i) The physical transmission system which provides services using signals to and from the headends, primaries, hubs or other distribution locations which are owned or controlled directly or indirectly by the Company, from the point where the signals are received, through the distribution system to and including multiple outlet splitters and wall plates within the customers premises. This also includes power supplies used to power the cable system.
- (ii) This includes but is not limited to all signal receiving or transmitting components, wave guides, signal processing components, satellite receivers, two-way components in the system, optical signal processing equipment and cables, head-end encoders, primary (trunk) cable, secondary and drop cable, and active and passive devices on the signal path.

(c) Exclusive Work Jurisdiction – Cable System

- (i) Technical Employees shall have exclusive jurisdiction for the purposes of technical work to perform construction, installation, repair, service and maintenance work on the Company's Cable System.
- (ii) In addition, Technical Employees shall be assigned to install in the customers' homes the following stand-alone devices: converters, Internet modems (excluding Network Interface Cards), and pay TV devices, where such installations are coincident with connection or service work.
- (iii) Non-union persons will be allowed to work with tools only when working with Journeymen and under the following circumstances:
 - 1. Training and instruction.
 - 2. Installation of equipment when working with a Journeyman technician.
 - 3. Service and maintenance of equipment within the first year after installation of this equipment within the certification, and only while working with a Journeyman.

Note: The installation referred to in (C) iii (3) shall be from the first instance of installation of the equipment within the certification.

- (iv) The company is free to continue with the following practices:
 - 1. Equipment owned and controlled by parties other than Shaw that resides in headends or hubsites will remain excluded from the provisions of article 2.08. Starchoice and Big Pipe equipment is deemed to be third party equipment if it is not used for delivery of services through the cable system to Shaw customers.
 - 2. Use of facilities service companies to support systems such as HVAC, fire suppression, security, UPS, standby generators, and janitorial services.
 - 3. Perform remote functions that may include operating systems software, firmware, or memory components.
- (v) Nothing in the description of exclusive work jurisdiction in (C) (i) and (ii) shall give the Technical Employees any jurisdiction over programming, network monitoring and control, or any other work performed by employees who are not within the bargaining unit.

(d) Excluded and Discretionary Jurisdiction

The Technical Employees have no claim or control over other work on the Company's Cable system or in relation to any aspect of the Company's physical plant, premises, vehicles, equipment or services except as provided in 2.08(c) above.

Further, at its discretion, the Company may use:

- (i) Collectors (including auditors) to disconnect cable for non-payment of services. An auditor may disconnect cable services when they discover an address is active and company records indicate that it should be inactive. Auditors may not install or remove filters at any time.
- (ii) Sales Persons to:
 - 1. Connect patch cords and/or MTFs to existing cable in customers' premises for the purpose of new sales or resales, and/or;
 - 2. Connect customer terminal devices, provided that such connections do not involve alterations to the existing service by changing wall plates, installing splitters, or relocating outlets, and/or;
 - 3. Install or remove filters coincident with terminal device calls.

Sales Persons shall not perform any repair or maintenance work, nor shall they perform disconnects or reconnects other than those specified in (d) (ii) above.

Persons outside the bargaining unit shall not perform any repair, maintenance or customer service work, which has traditionally been assigned only to Technical Employees.

In the event that there are technical employees laid off with recall rights under the Collective Agreement, collectors may still collect but will not disconnect cable and auditors may still audit but will not disconnect cable.

- (e) (i) The Company further agrees that upon all electrical/electronic cable system work within the exclusive jurisdiction of the Technical Employees, as described in this Article, done by, for, on behalf of, or at the instance of the Company, whether done directly or indirectly under contract or sub-contract, only members in good standing of the Telecommunications Workers' Union or the International Brotherhood of Electrical Workers shall be employed.
- (ii) Notwithstanding 2.08 (e) (i), and except as qualified in the Appendix, or in an emergency, maintenance work shall only be assigned to members of a TWU Shaw bargaining unit.

- (f) The Company is free to have electrical and electronic components and/or equipment repaired or overhauled by manufacturers, suppliers, or other outside service facilities, when such components and/or equipment are under warranty, or when it is not feasible for the Company to provide the facilities, equipment or materials to perform such tasks. This does not entitle the Company to cease doing repair and overhaul work traditionally assigned to the Technical Employees. The Company will continue to maintain and staff a bench for the purpose of doing such repair and overhaul work.
- (g) The Company further agrees that upon all electrical/electronic cable system work, as described in this article, done by, for, on behalf of, or at the instance of the Company, whether done directly or indirectly under contract or subcontract, only members in good standing of the TWU, USW National Local 1944 or the International Brotherhood of Electrical Workers shall be employed.

In the event the entire operation or any part thereof is sold, leased, transferred, or taken over by sale, transfer, lease assignment, receivership or bankruptcy proceedings, or another limited Company is set up to perform any of the functions previously performed by the Employer covered herein, that portion of the operation which is covered by this Agreement shall continue to be subject to the terms and conditions of this Agreement for the life hereof.
- (b) It is understood by this Section that the parties hereto shall not use any leasing device to a third party to evade this Contract. Nor shall the Employer use owner operators of any description to contract or subcontract, or in any other way to perform work done by employees covered by this Agreement, other than members in good standing of the TWU, USW National Local 1944 or the International Brotherhood of Electrical Workers. Nor shall the Employer require as a condition of continued employment that an employee purchase any truck or vehicular equipment or that any employee purchase or assume any proprietary interest or other obligation in the business.
- (c) If at any time, the Employer intends to sell, transfer or lease the entire operation or any part thereof, he shall give notice of the existence of this Agreement to any purchaser, transferee, lessee, or assignee of that part of the operation which is covered by this Agreement. Such notice shall be in writing with a copy to the Union, not later than the effective date of sale.
- (d) The Employer agrees that in the event of a change of name being made for the Employer's Company, the Employer will notify the Union in writing, specifying the new Company name. At the request of the Union, the Employer will join in filing an application to the C.I.R.B. asking that the certification held by the Union be amended to reflect the new name of the Company.

2.10 Legal Picket Lines

- (a) It will not be considered to be a violation of this Agreement, or a cause for discipline, if an employee refuses to cross or work behind a legal picket line.
- (b) The right is reserved to the Company to refuse to make payment for any time not worked as a result of the employee's refusal to work behind a picket line, if no other work is available.

- (b) Without limiting the generality of the foregoing, the Company reserves the sole and exclusive right to operate and manage its affairs and facilities in all respects as it sees fit, including the right to hire, discipline or discharge for just and reasonable cause, and to make and alter, from time to time, rules and regulations to be observed by the employees.

3.03 Requirement for Valid Driver's License

- (a) For those employees who are required to drive in the performance of their job functions, it shall be a condition of employment that they have a valid B.C. Driver's License.
- (b) In the event that an employee's Driver's License is suspended, every reasonable effort will be made to reassign the employee to work which does not necessitate the operation of a motor vehicle. Where such a reassignment is impractical, or an alternate job is not available, the Company may suspend the employee until his Driver's License is restored or such reassignment or alternate job is available.
- (c) The employee will be responsible for all fines and payment of same in relation to parking violations while in charge of a Company vehicle. If, in the Company's opinion, there is a reasonable explanation for such fines and payments, the Company shall reimburse the employee. However, the Company will not normally reimburse employees for fines and payments incurred by parking in a bus zone, taxi zone, emergency vehicle parking zone or fire hydrant zone.
- (d) All employees shall, at the request of the Company, execute all the necessary documents to enable the Company to obtain driver's license abstracts from the Superintendent of Motor Vehicles.
- (e) Employees driving without valid British Columbia driver's licenses from the date of ratification onward may, at the discretion of the Company, have their employment terminated.

3.04 Absence Without Leave

The Employer may consider that an employee has voluntarily terminated his employment, if:

- (a) he is absent from work for more than three (3) working days without having been granted leave by the Employer, or
- (b) he is more than three (3) working days late in returning from an approved leave of absence without notifying the Employer, and the Employer and the Union have been unsuccessful in a reasonable attempt to contact the employee.

This time limit shall not apply if the employee can prove he was unable to notify the Employer that he would be late returning to work.

However, it is understood that the responsibility for advising the Employer and the Union rests with the employee.

ARTICLE 4 - UNION SECURITY

APPENDIX "C"

TECHNICAL FIELD REPRESENTATIVES

The purpose of this Appendix is to set out the terms and conditions of employment for the Technical Field Representatives (TFRs).

1. The following clauses of the main body of the Collective Agreement shall NOT apply to Technical Field Representatives (TFRs):

6.07	Employee Rotations
6.08	Promotions to Foreman
7.02 (B)	Foreman Article
13.06	Truck Equipment
13.07	Aerial Ladder Inspection
13.09	Vehicle Maintenance
15.01 through 15.12	
17.01 through 17.03	Wage Schedule
18.02 paragraph 2	Holiday Pay
21.07 W.C.B. Wages	
Appendix "B" 1, 2, 3, 4, 5, 6	

Notwithstanding the provisions of this Collective Agreement, TFR's are responsible to supply and maintain their own vehicles.

2. (a) Temporary Technical Field Representatives shall be hired for specific periods of time, not to exceed forty-one (41) weeks. Temporary TFRs do not accrue seniority and are not entitled to benefits other than those which are legislated.

The company may not utilize temporary TFRs during times that the average regular TFR earnings per pay period falls below \$2,000. (excluding vehicle allowance). For the purpose of this average, the calculation will only use regular TFRs assigned work for a full pay period. In addition, Regular TFRs will have access to the project work in order to maximize earnings over and above their regular routes.

While using Temporary TFRs, it is the company's intention that Temporary TFRs will make an average of \$2,000 per pay period. If this is not the case, the company will reduce the number of Temporary TFRs.

- (b) Regular TFRs shall be entitled to those benefits which have not been excluded in (1.) above.
3. TFRs shall provide their own vehicles and shall be paid a vehicle allowance per street address, when performing their duties. This allowance shall be the Company's full responsibility towards a vehicle and operating costs. The TFR shall be required to ensure that the vehicle is properly insured in accordance with the Provincial regulations and to provide proof of insurance to the

Company. Vehicles shall be appropriate to perform the work required and shall be maintained in a respectable condition.

TFR's vehicle allowance shall be increased by the same percentage, for the term of the Collective Agreement, as shall the wages of the employees.

*Not applicable for 2015-2018

4. Scheduling

The Company and the Union agree that all regular employees shall be rotated through routes and schedules in order to provide them with similar earning opportunities. Notwithstanding this, it is recognized that some employees may choose to work extra routes and schedules in order to maximize their earnings. Such extra work will only be available to employees after all regular employees have been assigned their schedules.

The Parties agree that it is in the best interests of the Employer and the employees for Technical Field Representatives to receive a fair distribution of work based on types of work and rotations through geographic areas in the cable system. The committee that has been struck on equitable routing will continue to pursue solutions.

The regular work week for TFR's shall be any five (5) consecutive days, for a total scheduled work week of forty (40) hours.

The Company will provide 10 days notice on any changes to schedules. If a schedule needs to be changed in less than ten days, then the company will ask for volunteers. If there are not enough volunteers, employees will be scheduled in order of reverse seniority. The 10 days notice shall not apply for the last two weeks of each fiscal quarter – February, May, August and November. The Company will make every effort to meet the 10 days notice during these periods.

5. Technical Field Representatives shall be paid on a commission basis in accordance with the schedule of compensation.
6. For the purpose of calculating pay for Statutory Holidays or other payment for time not worked, a day's pay shall be considered as the previous four weeks earnings divided by the number of days worked in the period. For the purposes of determining Technical Field Representatives' incomes for WCB, the earnings will be based on gross pay including commissions, sick, vacation, and statutory holiday pay.
7. Vacation pay shall be calculated on gross earnings, excluding the vehicle allowance.
8. If the company modifies the work that is expected as part of a function, then it will perform a time study of 100 completed work orders on the revised expectations and adjust the code for the function based on the number of incremental minutes involved at the top Installer rate. The company and union will agree prior to implementation of the new rate. Agreement will not be

unreasonably withheld. The company will not use this provision to lower current rates in the Collective Agreement.

9. During the term of the Collective Agreement the company agrees not to contract out TFR work during times that the average TFR earnings per previous pay period falls below \$2,000. (excluding vehicle allowance). For the purpose of this average only TFRs working a full pay period will be included in the calculation.
10. It is the company's intention that TFR's will make a minimum of an average of \$2,000 per pay period. Notwithstanding Article 6, the company will layoff TFR's hired after the ratification date of this agreement if average earnings per TFR fall below \$2,000 in a pay period. This employee continues to be protected with full recall rights and protection. Employees laid off under this provision will not trigger the layoffs of less senior installers, apprentices, or journeymen.
11. Shaw employees who are Technical Field Representatives in IBEW certifications may not perform any work on the cable system, without the consent of the TWU, USW National Local 1944.
