- (a) Seniority shall be determined by the date of hire with the Company. For those employees who transitioned from CHL to Ornge Air in 2012, their CHL Emergency Medical Services (EMS) hire date will be recognized as their date of hire with the Company. The Union will have final approval of the seniority.
- (d) A copy of the most recent list is to be posted on the Union Bulletin Board and is not to be removed until replaced by a corrected or new list.
- (e) Seniority between employees hired on the same date shall be determined by a lottery.
- (f) A Union Representative shall be present at all such lotteries. New hires will be advised by the Union of the method of determining seniority at the commencement of the training.

15.02 Seniority List Protest

An employee shall be permitted a period of sixty (60) days after the issuance of the Seniority List within which to protest to the Union any omission or incorrect listing affecting his seniority. Where an employee is on vacation, leave of absence, or sick leave at the time of posting the Seniority List, he may protest within thirty (30) days of his return to work. If the Seniority List is not protested within the prescribed time limit, any incorrect listing or other discrepancy shall not be protested on any subsequent listing.

15.03 Seniority Rights

- (a) An employee whose license has been cancelled or suspended on medical grounds shall retain a right to return to work for a period of twenty-four (24) months from the date of such cancellation or suspension provided his commercial or higher license pertinent to his employment is reissued by Transport Canada within that period. If the employee is on Long

Term Disability, the right to return to work may be extended by mutual agreement between the Company and the Union.

- (b) An employee returning to work under this clause within twenty-four (24) months shall retain his/her position on the Seniority List. Such employee shall return to his previous position at his base.

15.05 Retention of Seniority - Part Time Pilots

- (a) A part time pilot, or a full time pilot who elects to become part time, shall have his/her seniority date adjusted each year according to the number of days worked compared to those that a full time pilot performing similar duties would work.

15.06 Forfeit of Seniority

An employee shall forfeit his seniority under any of the following conditions:

1. If he resigns from the Company;
2. If he is discharged for just cause and not reinstated through the grievance procedure;
3. If he fails to return from approved leave;
4. If he is laid off for more than twenty-four months;
5. If he refuses his third recall from any one given lay off

15.07 Management Positions

Bargaining unit employees promoted to management positions will continue to accumulate bargaining unit seniority during the first one hundred and eighty (180) days following their promotion. If an employee is seconded to a position outside the bargaining unit, the period shall be extended to a total of one (1) year. During that time period they may return to their former position in the bargaining unit without penalty. Following the completion of one hundred and eighty (180) days in a management position, these employees will be able to return to the bargaining unit at the salary and benefits appropriate to their years of service, but will have seniority accrual revert to new hire. Those employees may not displace current employees upon return to the bargaining unit.

**ARTICLE 16
PROBATION PERIOD**

- 16.01** Newly hired employees will be required to serve a probationary period of six (6) months of service with the Company. The Company shall reserve the sole right to retain any employee during his probationary period and the Company shall have the right to release such employee without the Union having recourse to the grievance and arbitration provision of this Agreement. The probationary period shall commence on the first date of work and may only be extended by mutual agreement with the Union.

**ARTICLE 17
LAYOFF AND RECALL**

- 17.01** In the event of a reduction in the workforce, layoff shall commence with the employee with the least amount of seniority within his classification.

17.02 An employee given notice of layoff may utilize his seniority to displace the most junior full-time employee on type and same or lower classification. In the event the most junior employee is on another type the laid off employee may then displace and be trained to the other type.

In the event of layoffs, the parties agree to meet to negotiate the terms and conditions of the layoffs.

17.03 An employee, who elects to use his seniority as in paragraph 17.02 above, shall receive the rate of pay for the classification which he secures.

17.04 Notice of lay-off shall be given to an employee and the Union fourteen (14) calendar days in advance of the lay-off.

17.05 In the event of recall, positions will be filled in the reverse order of layoff. If the recall is for a work location other than the employee's original location, the employee will be offered any open position in their classification, but has the option to accept or decline the offer.

17.06 The employee will stay on the layoff recall list for a period of twenty-four (24) months. It is understood that a recertification process may be agreed upon for employees who no longer hold their previous licenses or certifications. The Company will assist an employee in obtaining his licenses and recertification as may be necessary.

17.07 While on layoff, bargaining unit members may refuse up to two (2) recall notices. Notice of refusal must be given within seven (7) calendar days. The Bargaining Unit member must accept the third recall or relinquish his seniority number and his right of recall. Notice of acceptance/refusal must be given within three (3) business days after positive contact with the affected employee has been made. It is incumbent on the employee to provide up to date contact information.

17.08 Employees will be paid all monies owing including vacation and overtime banks at the time of lay off. Employees shall retain but not accrue sick time while on layoff. If an employee is recalled within twenty four (24) months, his Short Term Disability Bank shall be reinstated upon return to work.

17.09 An employee who has been given notice of layoff and has been subsequently laid off shall be entitled to severance pay in the amount of four (4) weeks regular pay for every completed year of service to a maximum of six (6) months regular pay.

ARTICLE 18 SHIFT PERIOD

18.01 An employee will be ready and fully prepared to work at the commencement of his shift.

An employee will be considered released from flight duties when relieved by the scheduled incoming employee at the end of the scheduled shift, unless airborne or pending return to base after completing a call. If the incoming employee fails to report for duty, the on-duty employee will be released from duty by Central Scheduling or in the alternative the employee may be notified by Central Scheduling to remain on shift.

ARTICLE 19 DUTY OUT

19.01 (a) If an employee duties out in a place other than their home base, the employee will be paid regular time until the end of the scheduled shift and time and one half (1.5) for any

subsequent hours worked past the regular shift, plus an additional hour at time and one half (1.5). The employee shall receive eleven (11) hours free from duty starting at shut down to report time, which is considered adequate time for transportation to and from the hotel, time for meals, personal hygiene and eight (8) hours of prone rest. The Pilot in Command will advise if the eleven hours does not meet the requirements of the CARs.

- (b) If the employee(s) is on a scheduled day off, then the employee will be paid time and one half (1.5) their regular hourly rate from the end of the rest period until the employee returns to base and completes all post flight duties. Minimum of four (4) hours at time and one half (1.5) or actual time worked at time and one half (1.5), whichever is greater. If a pilot duties out prior to the start of scheduled days off and requests to return home immediately, the Company will make every effort to get him back to his home base as soon as possible via scheduled carrier or ground transportation.

19.02 If an employee incurs a financial loss on scheduled time off due to a duty out then the Company will reimburse the employee for the loss. Reimbursement will be subject to proof that a financial loss was booked prior to the duty out. Financial loss includes:

1. Travel change or cancellation fees on scheduled time off; or
2. Non-refundable travel arrangements; or
3. Tickets for events on scheduled time off; or
4. Additional childcare with receipts; or
5. Medical appointment cancellation fee with receipts.

19.03 All necessary expenses and meal per diems will be paid for during duty outs and for the following day if on shift. The Company will make all hotel and travel arrangements for the employee(s) when they are expected to duty out.

ARTICLE 20 SHIFT FILLING

20.01 Each base has the right to establish their preferred rotation subject to Article 21.01.

At the Company's discretion on call may be assigned before using the overtime and draft provisions of this Article.

Overtime and Draft

- (a) Overtime is offered in order of seniority.
 1. Employees of the same classification at the base;
 2. Employees of another classification at the base, provided that they meet the requirements of the position;
 3. Employees from other bases, provided that they meet the requirements of the position and that there is enough time to travel to the base where the vacancy occurs.
- (b) If voluntary overtime does not allow the shift to be covered, employees may be drafted to fill the vacancy in order of reverse seniority, on a rotating basis. Employees drafted to work will be paid time and one half (1.5) their regular rate of pay for hours worked.

- (c) Notwithstanding (b) above, if an employee is drafted to work shifts at a base other than his home base, he shall be paid two (2) times his regular rate of pay, including travel time associated with the draft shift.
- (d) When an employee drafted to work at another base, has serious reasons not to go on that draft, the Company will draft the next employee up the Seniority List. It is the responsibility of the employee who declines the draft to provide adequate justification for his refusal.
- (e) No employee shall be required to work more than twelve (12) draft shifts per year in excess of his regular schedule. Days of travel for drafts will be counted as draft shifts worked.
- (f) Employees contacted by scheduling for an overtime shift will be given thirty (30) minutes to return a missed call. Scheduling will contact the first available employee via seniority. They will continue down the Seniority List until an employee indicates that they will take the shift. The shift will be awarded thirty (30) minutes after scheduling initially places a call, to the most senior available employee. Scheduling may immediately award an overtime shift if a vacancy occurs within four (4) hours, of the commencement of the shift.
- (g) If a shift will go unstaffed, after offering overtime to the pilot group, a management pilot may be assigned the shift.

20.02 Shift Trades

The Company will not unreasonably deny two (2) pilots from trading shifts if the operation will not be affected and with the employer's approval. All shift trades must be in compliance with the COM, CARs and the rules set forth in this CBA.

20.03 Reassignment

The Company will give ninety six (96) hours of notice of a change of one (1) shift or a block of shifts. If the company fails to give ninety six (96) hours notice, the first shift or block of shifts changed will be at one and one half (1.5) times the employees hourly rate.

Reassignment shall mean changing shifts from days to nights or nights to days within a pilot's previously scheduled rotation.

**ARTICLE 22
SCHEDULED & VOLUNTARY ON-CALL SHIFT**

22.01 Scheduled On-Call Shift

The purpose of a “scheduled on-call shift” is to provide pilot staffing to prevent operational down-staffing of the aircraft. Such pilots will be scheduled to be on-call as a part of their regular rotation. An on-call pilot may be utilized upon his agreement with the Company to cover a shift at another base. Pilots will not be scheduled for more than four (4) on-call shifts per twenty-eight (28) day period. However a pilot may voluntarily declare himself not subject to this limit.

The on-call pilot will be paid 11.4 hours at regular pay, plus .6 hours at overtime pay whether a pilot is called in for duty or not. In the event the call-in shift runs past the scheduled shift end then normal overtime rates and rules will apply.

The on-call shift shall mirror the normal times of the base day and night shift.

- (a) A pilot scheduled for an on-call shift shall be available for two call-in periods, each starting one and one-half (1.5) hours prior to the normal shift start time and ending thirty (30) minutes after normal shift start time. (E.g. Normal shift 0700-1900 and 1900-0700; the call-in periods shall be 0530-0730 and 1730-1930).
- (b) Should an on-call pilot be required to report for duty for a shift or part of a shift, he will be provided all appropriate crew rest following duty.
- (c) A pilot will be expected to be continuously available by phone during the on-call window only. A pilot will be expected to arrive at base to start the shift at normal start time or within one and one-half (1.5) hours of call-in, whichever happens later.

LOU #5
PERSONAL DAYS PROCESS

L5.01 Further to our recent discussions and in accordance with Article 33, as agreed this will outline the process to request a personal day. The parties agree to review the process after 180 days to address any issues that may arise.

Note: The following process for Personal Days is applicable to all bases except Moosonee.

Process for Requesting Personal Day:

The employee may schedule their personal days consistent with the annual scheduling and vacation bidding process. Once approved the personal day will be protected.

When the schedule is posted following the vacation bid an employee may request remaining personal days at any time during the schedule year as follows:

1. Employee submits Personal Day request to their Base Manager
2. Base Manager informs Scheduling of the request.
3. Scheduling confirms the employees eligibility for a Personal Day using the guidelines detailed below.

L5.02 Guidelines for coverage in order to approve a personal day:

(a) The employee is requesting the personal day for a schedule (day or night) shift

(i) If the request is greater than 30 days from the day requested:

1. Scheduling will email the base with notice of the personal day request.
2. Allow 7 days for notice to be reviewed by employees.
3. The overtime will be awarded in order of seniority of the same classification at the base.
4. If no employee of the same classification is available, the overtime will be awarded in order of seniority of another classification at the base, provided that they meet the requirements of the position to be covered.
5. If no employee is available after 7 days, the overtime will be awarded on 'first come, first serve' basis.

(ii) If a request of greater than 30 days has not been filled yet with 30 days prior to the request or there is a request at 30 days or less to the day requested:

1. Base callout in order of seniority per classification in conjunction with another email to the base.
2. Allow 24 hours for return calls
3. The overtime will be awarded in order of seniority of the same classification at the base.
4. If no employee of the same classification is available, the overtime will be awarded in order of seniority of another classification at the base, provided that they meet the requirements of the position to be covered.

5. If no employee is available after 24 hours, the overtime will be awarded on 'first come, first serve' basis.
6. If no employee available at the 96 hours window or less from the day requested, the on-call pilot will be utilized to grant the personal day if more than one (1) pilot is scheduled for on-call per classification.
7. If no employee available at the 24 hours window or less, the on-call pilot may be utilized at the Company's discretion, if only one (1) pilot is scheduled for on-call.

NOTE: If the initial request is 96 hours or less, an overtime base callout will be done in order of seniority per classification and awarded on a 'first come, first serve' basis. If no employees are available, the process will begin at steps 6 & 7 above.

(b) The employee is requesting the personal day for an on-call shift

(i) If the request is greater than 30 days from the day requested:

1. Scheduling will email the base with notice of the personal day request to be covered using the Voluntary On-call process as per Article 22.02.
2. Allow 7 days for notice to be reviewed by employees.
3. The voluntary on-call shift will be awarded in order of seniority per classification at the base. **Note: the on call replacement classification must be equal to or greater than the pilot scheduled for on call.**
4. If no employee is available after 7 days, the voluntary on-call will be awarded on 'first come, first serve' basis

(ii) If a request of greater than 30 days has not been filled yet with 30 days prior to the request or there is a request at 30 days or less to the day requested:

1. Another email to the base regarding the voluntary on call for a personal day.
2. Allow 24 hours for takers.
3. The voluntary on-call will be awarded in order of seniority per classification at the base. **Note: the on call replacement classification must be equal to or greater than the pilot scheduled for on call.**
4. If no employee is available after 24 hours, the voluntary on-call will be awarded on 'first come, first serve' basis.
5. If no employee available at the 96 hours window or less from the day requested, the on-call pilots request for a personal day will be granted only if more than one (1) pilot is scheduled for on-call per classification.
6. If no employee available at the 24 hours window or less, the on-call pilots request for a personal day may be granted at the Company's discretion, if only one (1) pilot is scheduled for on-call.

NOTE: If the initial request is 96 hours or less, a base callout will be done in order of seniority per classification requesting Voluntary On-call and awarded on a 'first come, first serve' basis. If no employees are available, the process will begin at steps 5 & 6 above.

The subsequent overtime will be paid out unless the employee requests for the time to be banked. Outside of this period, activities shall remain "status quo" with no payment.

Scheduling will make every effort to notify the employee in advance of the cancelled overtime shift.

LOU #11
VACATION BID PROCESS

Addendum to Article 34.05 and the current agreed to bid process.

The Company and Union agree that the annual vacation bid process will be modified as below where a single base has more than 11 pilots participating in the bid. This agreement will be in effect for the 2019 vacation bid taking place in October 2018 and until such time as the parties agree to any additional changes.

This process will apply to the last Floater/Relief Captain to be awarded a base. For clarity it may not be the most junior Floater/Relief Captain and would not apply to a First officer promoted on the base.

For the purposes of the bid the above mentioned Floater/Relief Captain will bid with any other Floater/Relief Captains at any other base that has more than 11 pilots at the time of the bid.

- (a) There will only be one Floater/Relief Captain off at any time. This includes the days off in conjunction with the bid.
- (b) Each Floater/Relief Captain will be allowed only one fourteen day period of vacation in the summer period. The summer period will be defined as June 24th to September 7th.
- (c) Outside of the summer period, the Floater/Relief Captain will be limited to a maximum of two consecutive blocks (28 days).

Except where mentioned above, all other rules of Article 34 and the vacation bid process would apply.

APPENDIX "C"
MOOSONEE BASE

C1.01 Per Diems

While on tour, pilots shall receive, travel, lodging and per diems when travelling to, from and while working at the Moosonee base.

C1.02 Moosonee Threshold Pay (Overtime Pay)

Because the Moosonee base has adopted a different schedule called the "Threshold System". Under the "Threshold System", employees work on a rotation schedule, which works as follows: 1 week on-site, 1 week on-call (night-shift) and 2 weeks off.

Assumptions

1. Employees are paid the 86.67 hours on a semi-monthly basis totalling 2080 hour per annum.
2. Employees are scheduled 26 weeks in Moosonee and 26 weeks out.
3. Employees are scheduled 13 of the 26 weeks at the base @ 11.40 hours per day for 1037.40 hours total.
4. The other 13 weeks are spent at the crew house and the employees are credited 2.00 hours unless called in as per Appendix C1.05 Moosonee Off Base Standby for 182.00 hour total.
5. Employees are therefore scheduled for 1219.40 hours work during their 13 weeks in Moosonee.

Overtime is calculated and paid out at the end of the year to those employees who have surpassed the "Threshold"

Example of Calculation of "Threshold" Level:

13 weeks x 7 days on-site x 11.4 hours/day	1,037.40 hours
13 weeks x 7 days on-call x 2.0 hours/day	182.00 hours
Plus the diff of 2080 hrs paid/ 1219.40 hrs scheduled	860.60 hours
-less any approved days off with pay**	(96.00) hours

New "Threshold" Level **1,984.00 hours**

**** Approved days off with pay could include Jury Duty; Sick Days; Bereavement etc. ****

Example "A" Overtime Calculation:

Actual hours worked	2,000.00 hours
Less New "Threshold" Level	(1,984.00) hours

Overtime hours to be paid out **16.00 hours**

Example “B” Overtime Calculation:

Actual hours worked	1,800.00 hours
Less New “Threshold” Level	<u>(1,984.00) hours</u>
Overtime hours to be paid out	(184.00) hours (variance)

C1.03 Vacation

Vacation year will be January 1st to December 31st

Vacation will be paid on the second pay date of the preceding year in which it was earned. Vacation payout will be the greater of the **governing legislation** or **Length of Service Entitlement**.

Employees vacation entitlement is based on length of employment and is calculated as follows:

<u>Length of Employment</u>	<u>Vacation</u>
Less than one year	7 shifts, 79.80 hours (prorated)
More than One year	10 shifts, 114.00 hours
More than Five years	13 shifts, 148.20 hours
More than Ten years	15 shifts, 171.00 hours
More than Thirteen years	18 shifts, 205.20 hours

- (a) **Milestone Year-** a Pilot shall receive his vacation entitlement in the year in which he reaches his next Milestone.

Example: Employee completes his fifth (5) year of service August 1st, 2014 he will be entitled to eleven (11) vacation shifts for Vacation Year 2014.

Note: When an employee leaves the Company vacation pay recovery calculation will be as follows: prorated and audited against the governing legislation, the greater of the two will be paid out.

C1.04 General Holidays

Pursuant to Article 35, a paid holiday will be calculated from the calendar day in which the shift commenced and holiday pay will be for the complete shift.

General Holidays shall be paid as follows:

- (a) Should a General Holiday fall on an employee’s regularly scheduled day of work, he will be paid the following:
12 hours statutory pay paid at time and one half (1.5) per General Holiday in addition to his regular pay.
- (b) Should a General Holiday fall on an employee’s regularly scheduled day off, he will be paid 12 hours statutory pay per General Holiday in addition to his regular pay.

C1.05 Moosonee Off Base Standby

Employees who are on-call are compensated at a rate of one-sixth their regular rate (i.e. total hours on call times .166.)

In addition, any time an on-call employee is required to perform company business at his/her base, a minimum of 4 hours / call-in at regular time shall be recorded from the time the employee answers the call. In the event that the work required exceeds the 4 hour call-in minimum, the actual hours worked shall be recorded. During this time, the on-call period will stop and will not start again until either the company business has been completed, or after the 4 hour minimum, whichever is greater.

There may be times when the work required can be done from home (e.g. make arrangements by telephone, relay information to others, and determine suitability of weather for a trip.) If the employee can accomplish the task without having to drive to the base, the hours of work recorded shall be the actual hours spent with no allowance for a 4-hour minimum.

An employee is either on-call or working, not both simultaneously. When an employee has finished the required call-in work at base within the 4-hour minimum and is called again for a new task that requires a return to base, a new 4-hour minimum will be started at the expense of the previous 4-hour minimum.

In the event that multiple call-ins, each requiring the 4-hour minimum charge, are required during an on-call period, the total time charged may not exceed the total on-call period of that day/night (e.g. in a 12-hour on call period, an employee receives 4 calls requiring his/her presence at the base, he/she cannot charge more than 12 hours worked, unless the last call-in is within 4 hours of the end of the call-in period)

The 4-hour minimum will not overlap the employee's regular shift hours.

Coming in early: If called within 4 hours of the employee's next regular shift, the hours remaining up to the start of the next shift will be recorded. There will be no overlap of hours.

Working late: If called just prior to the end of a regular shift, only the actual hours required to complete the work will be recorded with no allowance for a 4-hour minimum.

Note: An employee based in Moosonee and working on the night shift who is called to work for the first time of the shift, will record 4 hours of work and will be paid a 0.6 hour (36 minute) paid lunch period at straight time.

LOU #11 - Vacation Bid Process (Revised Oct 30, 2019)

Addendum to Article 34.05 and the current agreed to bid process.

The Company and Union agree that the annual vacation bid process will be modified as below, where a single base has more than 11 pilots participating in the bid. This agreement will be in effect for the 2020 vacation bid taking place in the fall of 2019 and until such time as the parties agree to any additional changes.

This process will apply to the last Floater/Relief Captain to be awarded a base. For clarity it may not be the most junior Floater/Relief Captain and would not apply to a First officer promoted on the base.

For the purposes of the bid the above mentioned Floater/Relief Captain will bid with any other Floater/Relief Captains at any other base that has more than 11 pilots at the time of the bid.

- (a) There will only be one Floater/Relief Captain off at any time. This includes the days off in conjunction with the bid.
- (b) Each Floater/Relief Captain will be allowed only one fourteen day period of vacation in the summer period. The summer period will be defined as June 24th to September 7th.
- (c) Outside of the summer period, the Floater/Relief Captain will be limited to a maximum of two consecutive blocks (28 days).
- (d) Employees must select all their vacation entitlements during the selection process.
- (e) If any vacation is unused, the Company will provide available vacation days for selection by the employee. Should the employee not select available days, they may be assigned by the Company or by mutual agreement to have those shifts paid out at the end of the vacation year in which it was earned.
- (f) Should an employee be absent from work due to injury, illness or any other approved absence, they will be eligible to participate in the vacation selection process provided that their vacation selection is subsequent to their expected return to work date.
- (g) An employee who does not participate in the vacation selection process and returns from an approved absence with unused vacation may request vacation in consultation with the Company scheduling department. The Company shall make every reasonable effort to schedule the employee's vacation in full vacation blocks.
- (h) In the event that an employee maintains his base and position throughout the vacation year, vacation picks will not be changed except by mutual agreement once selected and approved.
- (i) In the event of a base or position change (First Officer to Captain), the employee will forfeit his vacation selection. The company will, giving consideration to the wishes of the employee while respecting the needs of the service, reschedule a vacation selection that has been forfeited.
- (j) Only one Captain and one First Officer may select a specific day for vacation per base.

Process: Employee vacation requests must be picked at a pilot base meeting.

Holiday picks shall be conducted in a length of service rotation with the most senior pilot picking first, followed by the next senior down the roster. In each round of picking, a pilot shall pick a maximum of five (5) shifts or a shift block, whichever is greater of vacation time including the added general holiday.

The parties agree to continue past practice related to the selection process until such time as the parties agree to an alternate automated method.

MOU XX - TRAVEL TIME COMPENSATION

This MOU provides guidance for compensation when employees are required to travel for company business. Travel by an employee for company business, other than working an operational aircraft shift at his or her assigned base shall be considered hours worked.

Hours worked will include the time from leaving the employee's residence, up to the time he or she arrives at their final destination, i.e. hotel, other base, etc. minutes. In the case of returning travel, hours worked will start when departing the hotel or accommodation and will end upon arriving at residence.

During qualified days of travel, travel time will be paid as follows:

- i) Travel time based on the calculated distance between the residence and the departure point to a maximum of forty-five (45) minutes: then
- ii) Return travel time based on the calculated distance between the arrival point and residence to a maximum of forty-five (45) minutes.

If working from another base for a period of time, the "positioning" travel to and from the base may be claimed, but not the subsequent daily travel from the off base accommodation to the base.

If an employee travels to an off-base event within the same urban area as their own base, home will not be included in the travel time calculation. In this instance, travel time will be calculated from own base to the event and then from the event to own base.

The terms of this MOU resolve all outstanding issues pertaining to the Travel from Home arbitration.
