Re: Travel

The Company is required by its contract with CATSA to provide passenger and hold baggage screening at all Transport Canada designated airports in the Eastern Region which includes airports in Quebec, the Atlantic Provinces and Nunavut.

Some of the airports in the Eastern Region are inactive at present, others have seasonal operations only and still others have unique and different characteristics.

In addition, and from time to time, designated airports in other CATSA Regions may require screening support from our Region. A recent example of such a requirement was the Vancouver Winter Olympics.

As is often the case in an airport and airline environment, the ability to respond to a variety ever changing circumstances is a key success factor for the Company.

The opportunity for screening personnel to travel and work at different locations can be very rewarding and exciting for those involved.

As the screening requirements, the duration and nature of assignments necessitating travel and the amount of lead time available to both plan and implement away for base screening varies widely, the Company and the Union have agreed to the following:

1. The Company will meet with the union to review the requirements of the assignment and to determine how to best provide the necessary screening services,
2. It is the preference of the Company and the Union that all such assignment are filled on a voluntary basis from a pool of qualified screeners
3. The company will provide transportation, accommodation and per diem allowances where necessary,
4. Depending upon the nature of the assignment other allowances will be provided,
5. The wage rates for screening employees who participate in an assignment contemplated by this Letter of Agreement will not be reduced.
6. It may be necessary for the Company to alter an employee's shift schedule in order to accommodate an assignment at a different airport.
7. Where an employee covered by a collective agreement between STAS and the USW, travels and works at any airport and/or holds a position outside the scope of such collective agreements, such employee shall not lose seniority while on such assignment.
8. When an employee is required to perform duties at an airport where the USW is not the bargaining agent, the terms and conditions of the employees CBA will apply to the affected individuals only.
9. Laid off employees will be given the first opportunity to work, provided they are qualified and available at the time of the assignment.

Re: Vacation Bid Proposal

The Company and the Union agree that the vacation allotment process needs to be reviewed. Prior to the implementation of the 2016 vacation bid, which will take place in November 2015, both parties will meet to clarify the new process and procedure. The text below was proposed in bargaining and will be used as the starting point.

Company will issue a memo stating that the vacation selection will begin November 15th with the first person on the seniority list and continue through until completion or until November 30th. Time periods for picking vacation selections will be assigned to employees.

On November 15th would have a calendar of the current bidding year that indicates how many slots (Screening Officers) were allotted per week. A Company representative and a union representative, working with a current seniority list will call employees by seniority according to time slots provided.

At this time, the employee with chose their week(s) of entitlement from the calendar. The Company representative will indicate the week(s) chosen by the employee on the calendar and will provide a written approval of such week(s) to both the employee and the Union. As each employee selects their vacation bid, the calendar slots will fill up, allowing employees to visually see on the calendar which weeks are still available.

Once all employees have selected their vacations, the process is completed. The calendar becomes the master copy and the written approval form for the employer and employee will serve as backup.
